Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a safe harbor matching contribution in the amount of 100% of the employee's elective deferral, not to exceed 5% of the employee's compensation. In addition, the Company may also make a discretionary profit sharing contribution. There were no discretionary profit sharing contributions during the years ended December 31, 2018 and 2017.

Participant Accounts: Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and in the safe harbor matching contributions plus any earnings thereon. Participants become 20% vested in employer profit sharing contributions after two years of services, with a 20% annual increase in each of the next four years.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount which is the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years or up to a reasonable period of time for purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 8%. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits: Employees are eligible for retirement benefits upon reaching age 65. Benefits are determined by the final vested value of the employee's account at the time of termination, retirement or death. The normal form of payment available upon retirement is a lump sum cash distribution. Hardship withdrawals, as defined by the Plan, are only allowed on a participant's pre-tax elective deferral account and a participant's Roth elective deferral account balance.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Forfeitures: Forfeitures of the Company contributions that are not vested in participants' account balances because of participant termination are used to pay for Plan expenses. At December 31, 2018, there was $5 of accumulated forfeitures ($11 - 2017). During the year ended December 31, 2018, $11 ($28 - 2017) of forfeited non-vested accounts were used to pay for employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor, custodian and insurance company. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation on investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. In addition, certain investment related expenses are included in net (depreciation) appreciation on investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent Events: The Plan has evaluated subsequent events through July 29, 2019, the date the financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of registered investment companies: Valued at the NAV of shares held by the plan at year end. The NAV is the closing price reported on the active market on which the securities are traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Investments at Fair Value as of December 31, 2018	
	Level 1	Total
Shares of registered investment companies	**$ 23,052,418**	**$ 23,052,418**

	Investments at Fair Value as of December 31, 2017	
	Level 1	Total
Shares of registered investment companies	$ 24,850,780	$ 24,850,780

NOTE 4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a benefit-responsive investment contract with VOYA. VOYA maintains the contributions in a fixed account. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

VOYA will add interest daily to all amounts held in the Fixed Account. For each calendar year, VOYA will set a minimum guaranteed annual interest rate which will apply to amounts held in the Fixed Account during the calendar year. This rate will never be less than an annual rate of 3%. This one-year minimum guaranteed interest rate will be established prior to each calendar year and will be made available to the Plan in advance of the calendar year. VOYA, in its discretion, may credit interest at a rate greater than this one-year rate. VOYA will make available to the contract holder the rate currently being credited to amounts held in the Fixed Account.

NOTE 4. INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code;
2. Plan termination or merger;
3. Changes to the Plan's prohibition on competing investment options;
4. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by VOYA. VOYA is the trustee and custodian for the Plan and, therefore, these transactions qualify as party-in-interest. The Plan's loss on assets invested with VOYA amounted to $15,530 for the year ended December 31, 2018 ($516,659 income - 2017).

Fees incurred by the Plan for investment management services amounted to $68,042 for the year ended December 31, 2018. As of December 31, 2017, fees were included in net (depreciation) appreciation on investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made a direct payment to the third party administrator of $8,668 for the year ended December 31, 2017, which was not covered by revenue sharing. Participant loans are also party-in-interest transactions. Interest income from these transactions amounted to $27,164 as of December 31, 2018 ($25,063 - 2017).

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7. TAX STATUS

The IRS has determined and informed the Company by a letter dated September 1, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

NOTE 7. TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE 9. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2018 and 2017 as well as transactions for the years then ended, has been derived from information provided by VOYA, the custodian of the Plan's assets, and has been certified by VOYA as complete and accurate.
