## STEEL MASTERS, LP 401(K) PLAN

## NOTES TO FINANCIAL STATEMENTS

### NOTE A - DESCRIPTION OF PLAN

The following description of the Steel Masters, LP 401(K) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

***General*** - The Plan is a defined contribution plan covering all full-time employees of Steel Masters, LP who have 3 months of service. The Plan became effective May 1, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Benefits under the Plan are provided by a trust fund. All assets in the Plan are subject to participant investment directions. The Plan's trustees oversee the governance of the Plan.

***Contributions*** - Each year, participants may contribute up to the maximum percentage allowable of their pretax annual income, subject to the limits set by the Internal Revenue Code. Steel Masters, LP may make discretionary matching contributions in addition to any safe harbor matching contribution. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.The maximum discretionary matching contribution that can be made on behalf of any participant is 4% of compensation.

***Participant Accounts*** - Each participant's account is credited with the participant's contribution and allocations of (a) the Steel Masters, LP's safe harbor and discretionary matching contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' invested amounts, and (d) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting and Forfeitures*** - The participants contributions and Steel Masters, LP's safe harbor contribution are 100% vested. Vesting in Steel Masters, LP's discretionary matching contribution portion of a participant's accounts is based on years of service at 20% per plan year after two years of service. A participant is 100% vested in the Steel Masters, LP's discretionary matching contributions after six years of service. A year of service is defined as completing at least 1,000 hours of service during the Plan year. Forfeitures of matching contributions will be used to reduce matching contribution or pay for Plan expenses.

***Payment of Benefits*** - On termination of service, participants may elect to have his or her vested account distributed in one lump sum or as specified in the plan.

### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

***Basis of Accounting*** - The financial statements of the Plan are prepared under the accrual method of accounting. Investments held by a defined contribution plan are required to be at fair value.

***Use of Estimates*** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The most critical estimate is the fair value of the investments.

***Investment Valuation-*** The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair values.

## NOTE B - CONTINUED

***Income Recognition-*** **-** Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

***Participant Loans*** - Participants may borrow from the Plan. The loan amount is limited the lesser of (1) $50,000 (less any outstanding loans) with a minimum of $1,000 or (2) 50% of their vested interest in the Plan. The loans are secured by the balance in the participant account and bear interest at 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions. These loans are considered to be fully collectible; accordingly, an allowance for doubtful amounts has not been established.

***Payment of Benefits*** - Benefits are recorded when paid.

***Date of Management Review*** - Subsequent events were evaluated through July 24, 2019 , which is the date the financial statements were available to be issued. Based on the results of the evaluation, no adjustments or additional disclosures have been made to the financial statements.

## NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1inputs are not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

*Level 1*
The fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets and liabilities. These generally provide the most reliable evidence and are used to measure fair values whenever available.

*Level 2*
The fair value is based on quoted prices for similar assets and liabilities in active markets, inactive markets or model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. This level includes financial instruments that are valued by independent pricing services using models or other valuation methodologies.

**NOTE C - CONTINUED**

## NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is funded with a group annuity contract (the Contract) issued by AUL. The Contract offers a fixed interest investment option (the Stable Value Account) through AUL's general account and a number of variable investment options through an AUL separate account. Funds allocated to the Stable Value Account are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. All financial information related to the Stable Value Account is reported to a Plan participant at contract value (principal invested plus interest earned).

Pursuant to ASC 962 - *Plan Accounting - Defined Contribution Pension Plans*, AUL believes contract value is an appropriate determination of fair value for the Fixed Option.

The contract with AUL provides certain variable investment options. A participant may self direct contributions to any of the separate mutual funds investments listed in Note D.

In addition to the variable investment options, a participant may self direct contributions to the fixed interest investment option which uses the AUL Stable Value Account. There are no reserves against the contract value for credit risk of the contract issuer.

## NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY - CONTINUED

## NOTE F - TAX STATUS

The Plan is based on the OneAmerica Financial Partners, Inc. Volume Submitter 401(k) Profit Sharing Plan. The Internal Revenue Service provided an advisory letter as evidence that the Plan is qualified under Code Section 401 only to the extent provided in Revenue procedures 2011-49 or subsequent guidance. Although the Plan has been amended since receiving the advisory letter, the Plan administrator believes that the Plan is designated and is currently being operated in compliance with the applicable requirements of the Internal Revenue code and therefore believes the Plan is qualified and the the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and the Department of Labor. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## NOTE G—TRANSACTIONS WITH PARTIES IN INTEREST

During the years ended December 31, 2018 and 2017, Steel Masters, LP paid certain expenses associated with the Plan's operations. These expenses include the the cost of the limited scope audit. These expenses are excluded from these financial statements

### NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
