Notes to Financial Statements

1. Description of the Plan

The following description of Duro-Last, Inc. Employee's 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution employee 401(k) retirement plan covering substantially all employees of Duro-Last, Inc. and provides for retirement benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan has given Bank of America, N.A., the trustee of the Plan ("Trustee"), the authority to hold the assets of the Plan and to invest, control and disburse all assets of the Plan in accordance with the Plan agreement.

Eligibility

Employees are eligible for Plan participation when they have completed one fourth of a year of service and have obtained age 18.

Any Participant who makes Elective Deferral Contributions will be eligible to receive any Employer Matching Contribution that is made.

New Participants with six months of service and all other Participants who are credited with at least 1,000 hours of service during the Plan Year and are employed on the last day of the Plan Year will be eligible to receive an allocation of any Employer Profit Sharing Contribution that is made.

In addition, any active Participant who died or became permanently and totally disabled while an Employee during the Plan Year will be eligible to receive an allocation of any Employer Profit Sharing Contribution that is made.

Enrollment

Upon eligibility for enrollment in the Plan, an employee is automatically enrolled with a 4% pre-tax contribution that is invested in the default investment option under the Plan. The employee may elect to stop making salary deferral contributions at any time, and may also change their deferral percentage or investment options at any time subsequent to automatic enrollment taking place.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan Agreement, up to a maximum allowable under the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. For each plan year, the employer shall match one half (1/2) of each participant's salary reduction contribution up to a match of the lesser of two percent (2%) of compensation or \$5,000. Additional contributions can be made each year at the discretion of the Board of Directors of Duro-Last, Inc. Employer matching contributions, net of forfeitures, totaled \$506,509 and \$315,119, and discretionary profit-sharing contributions totaled \$1,745,955 and \$2,100,000 for the years ended December 31, 2018 and 2017, respectively.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions and the Company's contributions, as well as allocations of the Plan's investment earnings and charged with the Plan's investment losses and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions plus earnings thereon. Employer and discretionary profit-sharing contributions vests as follows:

<i>Years of Service</i>	<i>Vested Percentage</i>
1	0%
2	20
3	40
4	60
5	80
6 - Thereafter	100

A year of vested service constitutes any plan year in which 1,000 hours are worked.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Repayment of a loan is required within a five year period, except for the purchase of a primary residence. Participants are limited to no more than one loan outstanding, unless grandfathered under a previous loan policy. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through monthly payroll deductions. Loans which are not repaid in accordance with their terms are deemed distributions to the participant.

Payment of Benefits

Benefits are paid as a lump sum payment based on the vested service and account balance. The Plan provides for normal retirement. A participant becomes 100% vested in employer contribution amounts if the participant is actively employed upon their attainment of normal retirement age, disability, or death. In addition, if a participant dies while on qualified military service, they become 100% vested in the employer contributions in their account. Death benefits will be paid to a designated beneficiary upon death.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

Certain participants may also be entitled to withdraw money from their account prior to termination. Participants can elect to withdraw money in the event of financial hardship if they meet certain conditions. In-service distributions may be taken from both elective deferrals and Company contributions, however, may not exceed the participant's vested account balance.

Reclassification

Certain 2017 balances have been reclassified to conform to the December 31, 2018 presentation.

Forfeitures

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$54,977 and \$31,481, respectively. The forfeitures of \$262,389 and \$369,081 were reallocated during 2018 and 2017, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Recently Issued Accounting Standards

In January 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU 2016-01"). ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. It also requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements. This guidance is effective for interim and fiscal years beginning after December 15, 2017. This guidance had no material impact on the Plan Statements of Net Assets Available for Benefits and Statements of Changes in Net Assets Available for Benefits.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) include the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain Plan expenses (other than loan fees which are paid by the Plan participant) are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through July 29, 2019, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

3. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A., the Trustee of the Plan, has certified that the following data included in the financial statements is complete and accurate:

<i>December 31,</i>	2018	2017
Cash	\$ 9,098,617	\$ 8,908,380
Mutual Funds	51,597,512	53,214,283
Common Collective Fund	583,281	312,253
Notes receivable from participants	2,236,191	2,386,955

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

<i>Year ended December 31,</i>	2018	2017
Interest and dividend income	\$ 2,812,338	\$ 1,770,529
Interest income on notes receivable from participants	111,744	107,019
Net (depreciation) appreciation in fair value of investments	(6,093,381)	6,028,041

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

Common Collective Funds ("CCF") - CCF are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The CCF is a stable value fund that has investments in fully benefit-responsive investment contracts. The CCF provides for daily redemptions by the Plan at reported NAV with no advance notice requirement and there are no unfunded commitments.

At December 31, 2018 and 2017, the Plan held investments in the Putnam Stable Value Fund GM ("Trust") with a fair value of \$583,281 and \$312,253, respectively. The investment objectives of the Trust are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. The Trust will attempt to achieve these objectives by investing principally in guaranteed investment contracts ("GICs") issued by insurance companies; investment contracts issued by banks ("BICs"); structured or synthetic investment contracts ("SICs") issued by banks, insurance companies, and other issuers, as well as the securities supporting such SICs ("underlying assets"); separate account contracts ("SACs"); and other similar instruments that are intended to maintain a constant NAV while permitting participant-initiated, benefit-responsive withdrawals for certain events (collectively, "investment contracts"). Trust units are issued and redeemed only on a valuation date and at the NAV per unit computed on that date. Trust units may be redeemed on a daily basis to meet benefit payments and other participant-initiated withdrawals permitted by retirement plans invested in the Trust.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy.

	Investment Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 51,597,512	\$ -	\$ -	\$ 51,597,512
Investment at Net Asset Value (a)				583,281
Total Investments	\$ 51,597,512	\$ -	\$ -	\$ 52,180,793

	Investment Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 53,214,283	\$ -	\$ -	\$ 53,214,283

Total Investments	\$ 53,214,283	\$ -	\$ -	\$ 53,526,536

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

- (a) Investment in a common collective fund is measured at fair value using the NAV per share (or its equivalent) practical expedient and has not been categorized in the fair value hierarchy. The fair value amount presented in this table is intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

5. Income Tax Status

The Plan uses a prototype plan document sponsored by Bank of America, N.A., who was informed by the Internal Revenue Service ("IRS") by a letter dated April 2, 2012, that the Plan, as amended, is designed in accordance with the applicable sections of the IRC. Though the Plan has not received a determination from the IRS, the Plan administrator believes that the Plan is designed and is being operated in accordance with the applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there currently are no audits for any tax periods in progress.

6. Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Bank of America, N.A., the Trustee as defined by the Plan Agreement and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$21,512 and \$20,990 for the years ended December 31, 2018 and 2017, respectively.

7. Risks and Uncertainties

The Plan invests in various investment securities, such as mutual funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Additionally, some investments held by the Plan are invested in securities of foreign companies, which involve special risks and considerations not typically associated with investing in securities of U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In event of termination, participants become 100% vested in the current account balances.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of Net Assets Available for Benefits, per the financial statements, to the Form 5500:

<i>December 31,</i>	2018	2017
