Beaver Medical Group 401(k) Profit-Sharing Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Beaver Medical Group 401(k) Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan providing benefits to all employees of Beaver Medical Group, L.P. and EPIC Management, L.P., affiliated employers, (collectively known as the Employer) who have completed twelve consecutive months of employment. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions

Under the provisions of the Plan, each active participant may enter into a salary deferral agreement with the Employer, up to the maximum allowable amount as determined yearly by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Employer will provide a Safe Harbor Nonelective contribution of 3.25 percent of compensation to each employee who is eligible to participate in salary deferrals. The Employer shall also make a matching contribution for each participant who makes an elective deferral equal to a percentage of his or her elective deferrals; such percentage amount and any limitation thereon shall be determined each Plan year by the Employer at its sole discretion. The Employer shall also make a profit-sharing contribution in that amount, if any, which it in its sole discretion determines to be a proper contribution. Total contributions are subject to certain IRS limitations.

Participant Account

An account is maintained for each participant. The participant's account is credited with the participant's contribution, Employer Safe Harbor Nonelective contribution, Employer matching contribution, Employer profit-sharing contribution, and participant's Plan earnings and losses.

Vesting

Participants are immediately vested in their contributions and Employer's Safe Harbor Nonelective contributions plus earnings thereon. Vesting in the Employer matching and profit-sharing contributions are based on years of service. A year of service is given for each Plan year of continuous employment subsequent to the year of eligibility. After two years of service, a participant becomes 20 percent vested. Each service year thereafter will increase the participant's vesting by 20 percent, with 100 percent vesting after six years.

Investment Options

Each participant directs employee and Employer contributions to his account in a number of investment options offered by the Plan. These investment options are comprised of mutual funds, common collective trust funds, and self-directed brokerage link accounts, which allows additional investments in publically traded stocks, bonds, and mutual funds.

Beaver Medical Group 401(k) Profit-Sharing Plan

Notes to Financial Statements

1. Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined periodically by the Plan Administrator. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. Any outstanding loan balance will become due and payable in its entirety upon occurrence of a distributable event.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or installments over a period not exceeding the participant's life expectancy or the joint life expectancy of the participant and a designated beneficiary. Participants who terminate employment shall receive the value of the vested interest in their account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2018 and 2017 forfeited nonvested accounts totaled $117,272 and $480,774, respectively. These funds are available to reduce future Employer contributions. During the year ended December 31, 2018, Employer contributions were reduced by $480,774 from forfeited nonvested accounts.

2. Summary of Accounting Policies

The preparation of these financial statements requires Plan management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of net assets available for benefits, and net depreciation in fair value of investments, as well as disclosures of contingent assets and liabilities. Actual results could differ from those estimates. Plan management has considered events occurring through July 25, 2019 in its evaluation of the conditions on which estimates were based or for changes in conditions subsequent to the date of the statement of net assets available for benefits, which should be disclosed. The financial statements were available to be issued at this date.

Plan management also determines the accounting principles to be used in the preparation of financial statements. A description of the significant accounting policies employed in the preparation of these financial statements follows:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the Plan Trustee. See Note 4 for fair value measurements.

2. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as investments held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

3. Information Certified by the Trustee (Unaudited)

At December 31, 2018 and 2017, the Plan's investments were held by the Trustee, Fidelity Management Trust Company. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the Accounting Standards Codification Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2018 and 2017 for the mutual funds, the brokerage link accounts, and the common collective trust funds.

Mutual funds: Valued at the daily closing price as reported by the fund, which represents the net asset value (NAV) of shares held by the Plan at year end.

Brokerage link accounts (includes mutual funds, common stocks, U.S. government securities, corporate bonds and interest-bearing cash): Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trust funds: The fair value of units held in the common collective trust funds are valued at the NAV as reported by the investment manager of the accounts, which generally represent amounts in which units in the common collective trust funds are redeemed on a regular basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 162,587,909	$ –	$ –	$ 162,587,909
Brokerage link accounts	35,007,606	–	–	35,007,606
Common collective trust funds	–	33,184,932	–	33,184,932
Total investments at fair value	$ 197,595,515	$ 33,184,932	$ –	$ 230,780,447

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 172,106,962	$ –	$ –	$ 172,106,962
Brokerage link accounts	38,265,633	–	–	38,265,633
Common collective trust funds	–	32,530,517	–	32,530,517
Total investments at fair value	$ 210,372,595	$ 32,530,517	$ –	$ 242,903,112

5. Related-Party and Party-in-Interest Transactions

The Plan invests in shares of mutual funds managed by an affiliate of Fidelity Management Trust Company. Fidelity Management Trust Company acts as Trustee for only those investments as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees incurred by the Plan for investment management services are included as a reduction of the return earned on each investment, as the fees are paid through revenue sharing, rather than paid as a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of $195,251 for services related to the Plan, which was not covered by revenue sharing. The Plan Sponsor directly pays any other fees related to the Plan's operations.

6. Tax Status

The Plan obtained an opinion letter dated September 26, 2013, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

7. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.
