Note 1. Description of the Plan

The following description of the CTNA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of CeramTec North America, LLC (the "Company") who have completed at least one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The trustee of the Plan is Fidelity Management Trust Company (the "trustee").

Contributions:

Each year, participants may contribute up to 90 percent of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated target retirement date fund until changed by the participant. The Company makes a safe harbor matching contribution of 100 percent of the first 3 percent of base compensation that a participant contributes to the Plan and 50 percent of the next 2 percent of base compensation that a participant contributes to the Plan. The Company also makes an annual fixed profit sharing contribution of 3 percent of base compensation for the plan year. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. The discretionary profit sharing contribution for the year ended December 31, 2018 was $552,457. Participants must have completed at least 1,000 hours of service during the plan year and be employed by the Company as of the last day of the plan year to be eligible to receive any profit sharing contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their entire account balance including their contributions plus actual earnings thereon, the Company's safe harbor matching contributions, and any profit sharing contributions made by the Company.

Note 1. Description of the Plan, Continued

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 1 percent above the prime rate, as determined by the plan administrator at the time of the loan. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeited accounts:

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $0 and $212, respectively. These accounts will be used first to reduce plan administrative expenses and then to reduce future employer contributions. For the year ended December 31, 2018, $212 of administrative expenses were paid from forfeited non-vested accounts.

Note 2. Summary of Significant Accounting Policies and Activities

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to distributions and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent events:

The Plan has evaluated subsequent events through July 25, 2019, the date the financial statements were available to be issued.

Recently issued accounting pronouncements:

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Note 3. Trustee Certifications

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 3. Trustee Certifications, Continued

	2018	2017
Investments at fair value:		
Mutual funds	$ 9,161,630	$ 9,816,869
Money market fund	709,624	497,830
Notes receivable from participants	384,554	355,622
	$ 10,255,808	$ 10,670,321

The trustee also certified to the completeness and accuracy of $1,397,090 net depreciation in the fair value of investments and $703,605 of interest and dividends for the year ended December 31, 2018 and $18,756 of interest income on notes receivable from participants.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements, Continued

Money market fund: The money market fund is invested in the Fidelity Government Money Market Fund. The Plan invests in the money market fund to provide daily liquidity. Fair value is based on the NAV that can be validated with a sufficient level of observable activity (i.e. purchases and sales at NAV).

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements:

	December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 9,161,630	$ -	$ -	$ 9,161,630
Money market fund	709,624	-	-	709,624
Total assets at fair value	$ 9,871,254	$ -	$ -	$ 9,871,254

	December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 9,816,869	$ -	$ -	$ 9,816,869
Money market fund	497,830	-	-	497,830
Total assets at fair value	$ 10,314,699	$ -	$ -	$ 10,314,699

Note 5. Related-Party and Party in Interest Transactions

Certain Plan investments are shares of mutual funds and money market fund managed by an affiliate of the trustee. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator totaling $6,437 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Tax Status

The Company has adopted the Plan based on a prototype plan document sponsored by Fidelity Management and Research Company. Fidelity Management and Research Company has received an opinion letter from the IRS dated March 31, 2014 that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The plan administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the prototype plan. While the Plan cannot rely on the IRS opinion letter, the Company and the plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31:

Note 1. Description of the Plan

The following description of the CTNA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of CeramTec North America, LLC (the "Company") who have completed at least one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The trustee of the Plan is Fidelity Management Trust Company (the "trustee").

Contributions:

Each year, participants may contribute up to 90 percent of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated target retirement date fund until changed by the participant. The Company makes a safe harbor matching contribution of 100 percent of the first 3 percent of base compensation that a participant contributes to the Plan and 50 percent of the next 2 percent of base compensation that a participant contributes to the Plan. The Company also makes an annual fixed profit sharing contribution of 3 percent of base compensation for the plan year. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. The discretionary profit sharing contribution for the year ended December 31, 2018 was $552,457. Participants must have completed at least 1,000 hours of service during the plan year and be employed by the Company as of the last day of the plan year to be eligible to receive any profit sharing contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their entire account balance including their contributions plus actual earnings thereon, the Company's safe harbor matching contributions, and any profit sharing contributions made by the Company.

Note 1. Description of the Plan, Continued

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 1 percent above the prime rate, as determined by the plan administrator at the time of the loan. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeited accounts:

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $0 and $212, respectively. These accounts will be used first to reduce plan administrative expenses and then to reduce future employer contributions. For the year ended December 31, 2018, $212 of administrative expenses were paid from forfeited non-vested accounts.

Note 2. Summary of Significant Accounting Policies and Activities

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to distributions and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent events:

The Plan has evaluated subsequent events through July 25, 2019, the date the financial statements were available to be issued.

Recently issued accounting pronouncements:

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Note 3. Trustee Certifications

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 3. Trustee Certifications, Continued

Notes receivable from participants	384,554	355,622
	$ 10,255,808	$ 10,670,321

The trustee also certified to the completeness and accuracy of $1,397,090 net depreciation in the fair value of investments and $703,605 of interest and dividends for the year ended December 31, 2018 and $18,756 of interest income on notes receivable from participants.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: The money market fund is invested in the Fidelity Government Money Market Fund. The Plan invests in the money market fund to provide daily liquidity. Fair value is based on the NAV that can be validated with a sufficient level of observable activity (i.e. purchases and sales at NAV).

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements:

Note 5. Related-Party and Party in Interest Transactions

Certain Plan investments are shares of mutual funds and money market fund managed by an affiliate of the trustee. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator totaling $6,437 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Tax Status

The Company has adopted the Plan based on a prototype plan document sponsored by Fidelity Management and Research Company. Fidelity Management and Research Company has received an opinion letter from the IRS dated March 31, 2014 that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC").
