401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

1. DESCRIPTION OF THE PLAN

The following description of MiTAC LOGISTICS CORPORATION 401(k) Plan ("Plan"), previously named MiTAC USA, Inc. 401(k) Plan, provides only general information about the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan sponsored by MiTAC Digital Corporation, MiTAC Logistics Corporation, and MiTAC Information Systems Corp. (collectively the "Companies"), covering all employees of the Companies who have attained the age of 18 and have 90 days of service. The Plan is voluntary and provides that a participant or their beneficiary will receive the balance in their account upon retirement, employment termination, disability, or death. The Plan was established on January 1, 1993 and amended on December 18, 2014. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Insurance

The Plan is not insured as if the Plan terminates or the Companies cease to be in business, the participants will be entitled to receive all of the vested benefits in their accounts at such time.

Contributions and Vesting

Participants may contribute any amount up to 100% of their pre-tax salary to the Plan, through tax-deferred salary deductions, with an annual limit of \$18,000 for year 2018. Any participant who is 50 years of age or more may contribute an additional \$6,000 to the Plan for year 2018. Participants' rights to voluntary contributions vest immediately.

The Companies make matching contribution of 40% of the first 8% of the participant's base compensation that he or she contributes to the Plan. Additional amounts may be contributed at the discretion of the Companies.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 25% vested after one covered year of service and for each additional covered year of service, an additional 25% is vested. Forfeited balances of terminated participant's non-vested accounts are used to reduce future Companies' contributions.

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

The Companies' matching contribution for the Plan year ended December 31, 2018 was \$460,765.

Forfeited Accounts

At December 31, 2018, the balance of forfeited non-vested accounts was \$18,152. Forfeited accounts will be used to reduce future employer-matching contribution. For the year ended December 31, 2018, none of the employer matching contributions were reduced by the forfeited non-vested accounts.

Payment of Benefits

Each participant's share of the net assets of the Plan is segregated in an individual account. Distribution of each participant's vested interest in the Plan can be made, either as a lump-sum amount or annuity payments, at the earlier of death, disability, retirement, or upon termination of employment. Additionally, a participant may withdraw vested amounts from his account arising from salary deferral contributions prior to termination of employment after demonstrating financial hardship. Financial hardship is defined as for purchase, repair, and refrain from foreclosure of the employee's principal residence and medical and education expenses.

Upon termination of employment, the participant or beneficiary may elect to leave their account balance in the Plan or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. The Plan allows for automatic lump sum distribution of participant vested account balance that is below \$5,000.

As of December 31, 2018, for those participants who have withdrawn from the Plan and requested benefit payments during the Plan year, all the distributions from the Plan that they were entitled to have been made.

Notes Receivable from Participant Loans

The Plan allows participants to borrow against their account balances. The amount that can be borrowed is limited to 50% of the participant's account balance, not to exceed \$50,000, and not to be less than \$1,000. The term of the loan cannot exceed five years. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.25% to 6.00%, which are commensurate with rates of similar loans as determined by the Plan Administrator. As of December 31, 2018, the outstanding loan balance was \$284,154.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for benefits and changes in those net assets.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments - The investments in all of the funds, except the Pooled Separate Accounts and Fidelity Stable Value Trust, are presented at fair value. The fair value of Guaranteed Interest Accounts are based on the contract values adjusted for discontinuance costs and the fair value of Registered Investment Company Funds are based on the redemption prices quoted on the last business day of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques utilized to determine fair value are consistently applied.

The Pooled Separate Accounts and Fidelity Stable Value Trust are fully benefit responsive and are reported at fair value adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, and less distribution. Fair value of the investment in the Pooled Separate Accounts and Fidelity Stable Value Trust are determined by Prudential Trust Company using applicable law, Generally Accepted Accounting Principles, and the audit report of Fidelity Advisor Stable Value Portfolio.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis adjusted for the contract values of investments in the Pooled Separate Accounts and Fidelity Stable Value Trust.

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments held during the year.

Notes receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Federal Income Taxes

The Plan document is a standardized regional prototype Plan. The Internal Revenue Service has ruled that the prototype document qualifies as exempt under Section 401(a) of the Internal Revenue Code. Therefore, the Plan is not subject to tax under present income tax laws.

Investment contracts	\$ 76,076
Mutual funds	(1,937,426)
Pooled separate accounts	(352,268)
Total	<u>\$ (2,213,618)</u>

The above information of the investment is provided and certified by Principal Trust Company and Prudential Trust Company, the former and current trustees of the Plan.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

- *Collective Investment Trust:* Fair market value is estimated based on the latest audited financial statements provided by the trust.
- *Investment Contract:* Fair market Value is the amount Plan sponsor would receive currently if it were to withdraw or transfer funds within the Plan prior to their maturity. This fair market value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.
- *Mutual funds:* Valued at the net asset value (NAV) of shares held by the Plan at year-end.
- *Pooled Separate Account (PSA):* All PSA investments are considered to have been evaluated using level 2 inputs. The majority of the underlying assets have observable level 1 or 2 inputs, including quoted prices for similar assets in active or non-active markets. The NAV of a separate account is used to estimate the fair value of a PSA.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the year ended December 31, 2018, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$2,213,618.

The above information of the investment is provided and certified by Principal Trust Company and Prudential Trust Company, the former and current trustees of the Plan.

5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Prudential Trust Company. Prudential Trust Company is the Trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. See supplemental schedule H, line 4i for investments managed by Prudential Trust Company.

Fees paid by the Plan for the investment management services were \$78,465 for the year ended December 31, 2018.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. Participants should refer to the Plan document for a complete description of the Plan's provisions.

7. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authority. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan is no longer subject to income tax examinations for years prior to 2013 due to statute of limitation.

8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

There are no reconciling items between financial statements at December 31, 2018 and the Form 5500.

10. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan changed its trustee in July 2017 from Principal Trust Company to Prudential Trust. As of December 31, 2018, all of the Plan assets were transferred from Principal to Prudential except \$466,813 in Bank Certificates of Deposits which remained in Principal's name until their maturity. All investment-related financial information, including fair value, contract value, gains/ losses, and investment income, are certified by the two Trustees as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

11. SUBSEQUENT EVENT

The Plan has evaluated subsequent events through July 19, 2019, the date which the financial statements were available to be issued.

401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

1. DESCRIPTION OF THE PLAN

The following description of MiTAC LOGISTICS CORPORATION 401(k) Plan ("Plan"), previously named MiTAC USA, Inc. 401(k) Plan, provides only general information about the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan sponsored by MiTAC Digital Corporation, MiTAC Logistics Corporation, and MiTAC Information Systems Corp. (collectively the "Companies"), covering all employees of the Companies who have attained the age of 18 and have 90 days of service. The Plan is voluntary and provides that a participant or their beneficiary will receive the balance in their account upon retirement, employment termination, disability, or death. The Plan was established on January 1, 1993 and amended on December 18, 2014. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Insurance

The Plan is not insured as if the Plan terminates or the Companies cease to be in business, the participants will be entitled to receive all of the vested benefits in their accounts at such time.

Contributions and Vesting

Participants may contribute any amount up to 100% of their pre-tax salary to the Plan, through tax-deferred salary deductions, with an annual limit of \$18,000 for year 2018. Any participant who is 50 years of age or more may contribute an additional \$6,000 to the Plan for year 2018. Participants' rights to voluntary contributions vest immediately.

The Companies make matching contribution of 40% of the first 8% of the participant's base compensation that he or she contributes to the Plan. Additional amounts may be contributed at the discretion of the Companies.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 25% vested after one covered year of service and for each additional covered year of service, an additional 25% is vested. Forfeited balances of terminated participant's non-vested accounts are used to reduce future Companies' contributions.

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

The Companies' matching contribution for the Plan year ended December 31, 2018 was \$460,765.

Forfeited Accounts

At December 31, 2018, the balance of forfeited non-vested accounts was \$18,152. Forfeited accounts will be used to reduce future employer-matching contribution. For the year ended December 31, 2018, none of the employer matching contributions were reduced by the forfeited non-vested accounts.

Payment of Benefits

Each participant's share of the net assets of the Plan is segregated in an individual account. Distribution of each participant's vested interest in the Plan can be made, either as a lump-sum amount or annuity payments, at the earlier of death, disability, retirement, or upon termination of employment. Additionally, a participant may withdraw vested amounts from his account arising from salary deferral contributions prior to termination of employment after demonstrating financial hardship. Financial hardship is defined as for purchase, repair, and refrain from foreclosure of the employee's principal residence and medical and education expenses.

Upon termination of employment, the participant or beneficiary may elect to leave their account balance in the Plan or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. The Plan allows for automatic lump sum distribution of participant vested account balance that is below \$5,000.

As of December 31, 2018, for those participants who have withdrawn from the Plan and requested benefit payments during the Plan year, all the distributions from the Plan that they were entitled to have been made.

Notes Receivable from Participant Loans

The Plan allows participants to borrow against their account balances. The amount that can be borrowed is limited to 50% of the participant's account balance, not to exceed \$50,000, and not to be less than \$1,000. The term of the loan cannot exceed five years. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.25% to 6.00%, which are commensurate with rates of similar loans as determined by the Plan Administrator. As of December 31, 2018, the outstanding loan balance was \$284,154.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for benefits and changes in those net assets.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments - The investments in all of the funds, except the Pooled Separate Accounts and Fidelity Stable Value Trust, are presented at fair value. The fair value of Guaranteed Interest Accounts are based on the contract values adjusted for discontinuance costs and the fair value of Registered Investment Company Funds are based on the redemption prices quoted on the last business day of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques utilized to determine fair value are consistently applied.

The Pooled Separate Accounts and Fidelity Stable Value Trust are fully benefit responsive and are reported at fair value adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, and less distribution. Fair value of the investment in the Pooled Separate Accounts and Fidelity Stable Value Trust are determined by Prudential Trust Company using applicable law, Generally Accepted Accounting Principles, and the audit report of Fidelity Advisor Stable Value Portfolio.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis adjusted for the contract values of investments in the Pooled Separate Accounts and Fidelity Stable Value Trust.

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments held during the year.

Notes receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Federal Income Taxes

The Plan document is a standardized regional prototype Plan. The Internal Revenue Service has ruled that the prototype document qualifies as exempt under Section 401(a) of the Internal Revenue Code. Therefore, the Plan is not subject to tax under present income tax laws.

During 2018, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$2,213,618 as follows:

Investment contracts	\$ 76,076
Mutual funds	(1,937,426)
Pooled separate accounts	(352,268)
Total	<u>\$ (2,213,618)</u>

The above information of the investment is provided and certified by Principal Trust Company and Prudential Trust Company, the former and current trustees of the Plan.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

- *Collective Investment Trust:* Fair market value is estimated based on the latest audited financial statements provided by the trust.
- *Investment Contract:* Fair market Value is the amount Plan sponsor would receive currently if it were to withdraw or transfer funds within the Plan prior to their maturity. This fair market value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.
- *Mutual funds:* Valued at the net asset value (NAV) of shares held by the Plan at year-end.
- *Pooled Separate Account (PSA):* All PSA investments are considered to have been evaluated using level 2 inputs. The majority of the underlying assets have observable level 1 or 2 inputs, including quoted prices for similar assets in active or non-active markets. The NAV of a separate account is used to estimate the fair value of a PSA.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The above information of the investment is provided and certified by Principal Trust Company and Prudential Trust Company, the former and current trustees of the Plan.

5. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Prudential Trust Company. Prudential Trust Company is the Trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. See supplemental schedule H, line 4i for investments managed by Prudential Trust Company.

Fees paid by the Plan for the investment management services were \$78,465 for the year ended December 31, 2018.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. Participants should refer to the Plan document for a complete description of the Plan's provisions.

7. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authority. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan is no longer subject to income tax examinations for years prior to 2013 due to statute of limitation.

8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

There are no reconciling items between financial statements at December 31, 2018 and the Form 5500.

10. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan changed its trustee in July 2017 from Principal Trust Company to Prudential Trust. As of December 31, 2018, all of the Plan assets were transferred from Principal to Prudential except \$466,813 in Bank Certificates of Deposits which remained in Principal's name until their maturity. All investment-related financial information, including fair value, contract value, gains/ losses, and investment income, are certified by the two Trustees as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

11. SUBSEQUENT EVENT

The Plan has evaluated subsequent events through July 19, 2019, the date which the financial statements were available to be issued.

401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

1. DESCRIPTION OF THE PLAN

The following description of MiTAC LOGISTICS CORPORATION 401(k) Plan ("Plan"), previously named MiTAC USA, Inc. 401(k) Plan, provides only general information about the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan sponsored by MiTAC Digital Corporation, MiTAC Logistics Corporation, and MiTAC Information Systems Corp. (collectively the "Companies"), covering all employees of the Companies who have attained the age of 18 and have 90 days of service. The Plan is voluntary and provides that a participant or their beneficiary will receive the balance in their account upon retirement, employment termination, disability, or death. The Plan was established on January 1, 1993 and amended on December 18, 2014. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Insurance

The Plan is not insured as if the Plan terminates or the Companies cease to be in business, the participants will be entitled to receive all of the vested benefits in their accounts at such time.

Contributions and Vesting

Participants may contribute any amount up to 100% of their pre-tax salary to the Plan, through tax-deferred salary deductions, with an annual limit of \$18,000 for year 2018. Any participant who is 50 years of age or more may contribute an additional \$6,000 to the Plan for year 2018. Participants' rights to voluntary contributions vest immediately.

The Companies make matching contribution of 40% of the first 8% of the participant's base compensation that he or she contributes to the Plan. Additional amounts may be contributed at the discretion of the Companies.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 25% vested after one covered year of service and for each additional covered year of service, an additional 25% is vested. Forfeited balances of terminated participant's non-vested accounts are used to reduce future Companies' contributions.

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

The Companies' matching contribution for the Plan year ended December 31, 2018 was \$460,765.

Forfeited Accounts

At December 31, 2018, the balance of forfeited non-vested accounts was \$18,152. Forfeited accounts will be used to reduce future employer-matching contribution. For the year ended December 31, 2018, none of the employer matching contributions were reduced by the forfeited non-vested accounts.

Payment of Benefits

Each participant's share of the net assets of the Plan is segregated in an individual account. Distribution of each participant's vested interest in the Plan can be made, either as a lump-sum amount or annuity payments, at the earlier of death, disability, retirement, or upon termination of employment. Additionally, a participant may withdraw vested amounts from his account arising from salary deferral contributions prior to termination of employment after demonstrating financial hardship. Financial hardship is defined as for purchase, repair, and refrain from foreclosure of the employee's principal residence and medical and education expenses.

Upon termination of employment, the participant or beneficiary may elect to leave their account balance in the Plan or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. The Plan allows for automatic lump sum distribution of participant vested account balance that is below \$5,000.

As of December 31, 2018, for those participants who have withdrawn from the Plan and requested benefit payments during the Plan year, all the distributions from the Plan that they were entitled to have been made.

Notes Receivable from Participant Loans

The Plan allows participants to borrow against their account balances. The amount that can be borrowed is limited to 50% of the participant's account balance, not to exceed \$50,000, and not to be less than \$1,000. The term of the loan cannot exceed five years. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.25% to 6.00%, which are commensurate with rates of similar loans as determined by the Plan Administrator. As of December 31, 2018, the outstanding loan balance was \$284,154.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and present the net assets available for benefits and changes in those net assets.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments - The investments in all of the funds, except the Pooled Separate Accounts and Fidelity Stable Value Trust, are presented at fair value. The fair value of Guaranteed Interest Accounts are based on the contract values adjusted for discontinuance costs and the fair value of Registered Investment Company Funds are based on the redemption prices quoted on the last business day of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques utilized to determine fair value are consistently applied.

The Pooled Separate Accounts and Fidelity Stable Value Trust are fully benefit responsive and are reported at fair value adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, and less distribution. Fair value of the investment in the Pooled Separate Accounts and Fidelity Stable Value Trust are determined by Prudential Trust Company using applicable law, Generally Accepted Accounting Principles, and the audit report of Fidelity Advisor Stable Value Portfolio.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis adjusted for the contract values of investments in the Pooled Separate Accounts and Fidelity Stable Value Trust.

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments held during the year.

Notes receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Federal Income Taxes

The Plan document is a standardized regional prototype Plan. The Internal Revenue Service has ruled that the prototype document qualifies as exempt under Section 401(a) of the Internal Revenue Code. Therefore, the Plan is not subject to tax under present income tax laws.

During 2018, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$2,213,618 as follows:

Investment contracts	\$ 76,076
Mutual funds	(1,937,426)
Pooled separate accounts	(352,268)
Total	<u>\$ (2,213,618)</u>

The above information of the investment is provided and certified by Principal Trust Company and Prudential Trust Company, the former and current trustees of the Plan.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

MITAC LOGISTICS CORPORATION
401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2018

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

- *Collective Investment Trust:* Fair market value is estimated based on the latest audited financial statements provided by the trust.
- *Investment Contract:* Fair market Value is the amount Plan sponsor would receive currently if it were to withdraw or transfer funds within the Plan prior to their maturity. This fair market value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.
- *Mutual funds:* Valued at the net asset value (NAV) of shares held by the Plan at year-end.
- *Pooled Separate Account (PSA):* All PSA investments are considered to have been evaluated using level 2 inputs. The majority of the underlying assets have observable level 1 or 2 inputs, including quoted prices for similar assets in active or non-active markets. The NAV of a separate account is used to estimate the fair value of a PSA.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. Participants should refer to the Plan document for a complete description of the Plan's provisions.

7. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authority. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan is no longer subject to income tax examinations for years prior to 2013 due to statute of limitation.

8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

There are no reconciling items between financial statements at December 31, 2018 and the Form 5500.

As of December 31, 2018, all of the Plan assets were transferred from Principal to Prudential except \$466,813 in Bank Certificates of Deposits which remained in Principal's name until their maturity. All investment-related financial information, including fair value, contract value, gains/ losses, and investment income, are certified by the two Trustees as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.
