Notes to Financial Statements

1. Description of Plan

The following description of the Jerry Damson, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1997, and available to substantially all employees of the Company. To be eligible to participate in the Plan, an employee must have completed ninety days of service with the Company. To be eligible for employer matching contributions, the employee must have completed one year of service with the Company and have attained age twenty-one. Capital Bank and Trust Company (the "Custodian") serves as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

During the year ended December 31, 2018, the Plan was amended to appoint the Custodian, Capital Bank and Trust Company, as the trustee of the Plan.

Contributions

Each year, participants may contribute compensation, as defined by the Plan Document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Such transfers from other qualified plans are reported as rollover contributions. The Company may make matching contributions which are based upon a percentage of the participant elective deferral or discretionary contributions to the Plan as determined by its board of directors. The Company made matching contributions of \$175,767 and \$152,964 for the Plan years ended December 31, 2018 and 2017, respectively.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund as investment options for participants.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, the Plan earnings, and charged with benefit payments, transaction fees related to distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service as outlined below:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	0%
2	25%
3	50%
4	75%
5	100%

Notes receivable from participants

Prior to an amendment in 2013, participants were able to borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The notes were secured by the balance in the participant's account with an interest of 4.25%. Principal and interest was paid ratably through payroll deductions. Following the amendment, loans to participants are not permitted from the Plan.

Payment of benefits

On termination of service due to death, disability, hardship, retirement, or termination of service due to other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account or installments equal to the net value of the participant's account. A participant may request to withdraw his or her vested interest in the account for termination of services due to other reasons or has a financial hardship as stipulated in the Plan provisions.

Forfeitures

At December 31, 2018 and 2017, there was approximately \$2,875 and \$400, respectively, balance in the forfeited non-vested accounts. Forfeitures may be made available to reinstate previously forfeited account balances of former participants, be used to satisfy any contribution that may be required or be used to pay any administrative expenses of the Plan. The remaining forfeitures shall be used to reduce the contribution of the Company for the Plan year in which such forfeitures occur. During 2018 and 2017, forfeitures of \$1,012 and \$10,273, respectively, were used to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. A loan is considered to be in default if any scheduled loan repayment is not made by the end of the calendar quarter following the calendar quarter in which the missed payment was due. Loans that are in default are reclassified as distributions.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Certain administrative expenses have been paid by the Plan. Certain other administrative expenses, including legal and accounting fees, are paid by the Company.

Subsequent events

Management has evaluated subsequent events through July 18, 2019, which is the date these financial statements were available to be issued.

3. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Money Market Funds

These investments are public investment vehicles valued using \$1 for the NAV. The money market funds are classified within level 1 of the valuation hierarchy.

Jerry Damson, Inc. 401(k) Plan
Notes to Financial Statements

Mutual Funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total

4. Unaudited Information Certified by the Plan's Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2018 and 2017, and for the years ended December 31, 2018 and 2017 that were obtained from data prepared and certified to be complete and accurate by the Custodian:

Interest and dividends	<u>\$ 776,875</u>	<u>\$ 511,413</u>
Interest income on notes receivables - participants	<u>\$ 22</u>	<u>\$ 706</u>

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

6. Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

8. Exempt Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by American Funds. American Funds is a subsidiary of the Custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees during the year for accounting, actuarial and other services rendered by parties in interest were based on customary and reasonable rates for such services.

Notes to Financial Statements

1. Description of Plan

The following description of the Jerry Damson, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1997, and available to substantially all employees of the Company. To be eligible to participate in the Plan, an employee must have completed ninety days of service with the Company. To be eligible for employer matching contributions, the employee must have completed one year of service with the Company and have attained age twenty-one. Capital Bank and Trust Company (the "Custodian") serves as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

During the year ended December 31, 2018, the Plan was amended to appoint the Custodian, Capital Bank and Trust Company, as the trustee of the Plan.

Contributions

Each year, participants may contribute compensation, as defined by the Plan Document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Such transfers from other qualified plans are reported as rollover contributions. The Company may make matching contributions which are based upon a percentage of the participant elective deferral or discretionary contributions to the Plan as determined by its board of directors. The Company made matching contributions of \$175,767 and \$152,964 for the Plan years ended December 31, 2018 and 2017, respectively.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund as investment options for participants.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, the Plan earnings, and charged with benefit payments, transaction fees related to distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service as outlined below:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	0%
2	25%
3	50%
4	75%
5	100%

Notes receivable from participants

Prior to an amendment in 2013, participants were able to borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The notes were secured by the balance in the participant's account with an interest of 4.25%. Principal and interest was paid ratably through payroll deductions. Following the amendment, loans to participants are not permitted from the Plan.

Payment of benefits

On termination of service due to death, disability, hardship, retirement, or termination of service due to other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account or installments equal to the net value of the participant's account. A participant may request to withdraw his or her vested interest in the account for termination of services due to other reasons or has a financial hardship as stipulated in the Plan provisions.

Forfeitures

At December 31, 2018 and 2017, there was approximately \$2,875 and \$400, respectively, balance in the forfeited non-vested accounts. Forfeitures may be made available to reinstate previously forfeited account balances of former participants, be used to satisfy any contribution that may be required or be used to pay any administrative expenses of the Plan. The remaining forfeitures shall be used to reduce the contribution of the Company for the Plan year in which such forfeitures occur. During 2018 and 2017, forfeitures of \$1,012 and \$10,273, respectively, were used to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. A loan is considered to be in default if any scheduled loan repayment is not made by the end of the calendar quarter following the calendar quarter in which the missed payment was due. Loans that are in default are reclassified as distributions.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Certain administrative expenses have been paid by the Plan. Certain other administrative expenses, including legal and accounting fees, are paid by the Company.

Subsequent events

Management has evaluated subsequent events through July 18, 2019, which is the date these financial statements were available to be issued.

3. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Money Market Funds

These investments are public investment vehicles valued using \$1 for the NAV. The money market funds are classified within level 1 of the valuation hierarchy.

Jerry Damson, Inc. 401(k) Plan
Notes to Financial Statements

Mutual Funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Money market funds	\$ 1,438,170	\$ -	\$ -	\$ 1,438,170

4. Unaudited Information Certified by the Plan's Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2018 and 2017, and for the years ended December 31, 2018 and 2017 that were obtained from data prepared and certified to be complete and accurate by the Custodian:

	2018	2017
Investments, at fair value	<u>\$ 13,002,758</u>	<u>\$ 13,147,388</u>
Notes receivable from participants	<u>\$ -</u>	<u>\$ 2,089</u>
Net (depreciation) appreciation in fair value of investments	<u>\$ (1,354,674)</u>	<u>\$ 1,317,859</u>
Interest and dividends	<u>\$ 776,875</u>	<u>\$ 511,413</u>
Interest income on notes receivables - participants	<u>\$ 22</u>	<u>\$ 706</u>

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

6. Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

8. Exempt Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by American Funds. American Funds is a subsidiary of the Custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees during the year for accounting, actuarial and other services rendered by parties in interest were based on customary and reasonable rates for such services.
