Spring Creek Companies 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Spring Creek Companies 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of its provisions.

The Plan was established effective September 1, 1993. Spring Creek Management Co. Ltd. (the Company) is the Plan's sponsor.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of service of no less than 1,000 hours and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Plan is administered by the owner and the Chief Financial Officer of Spring Creek Restaurants Ltd. JP Morgan Chase Bank, N.A. is the Plan's custodian. Reliance Trust Company is the Plan's trustee. Fascore is the Plan's record-keeper.

Contributions

Each year, participants may contribute up to 60% of pretax annual compensation, as defined in the Plan. During the 2018 plan year, in accordance with the provisions of the Internal Revenue Code (IRC), no participant could elect more than $24,500 in pretax contributions, which includes a $6,000 limit for catch-up contributions. This limitation does not include the Company's matching contributions. The Company matches 100% of the first 3% and 50% of the next 2% of each participant's elected contribution to the Plan. The Company may make an additional discretionary matching contribution equal to a percentage declared by the Company by a letter of intent. No such contribution was elected during 2018 or 2017. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans.

Participants' Accounts

Each participant's account is credited with the participant's contributions and employer matching contributions, as well as allocations of Plan earnings, forfeitures of terminated participants' non-vested accounts and investment expenses. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and the Company's contributions portion of their accounts plus actual earnings thereon.

Investment Options

Upon enrollment, participants have the option of transferring their funds between investment options daily. Participants can direct contributions to any investment option available under the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. Loans must be repaid within five years, although loans taken for the purpose of purchasing the participant's principal residence may be repaid over a longer term. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined at the application date of the loan. Interest rates for loans ranged from 4.25% to 10% at December 31, 2018. Principal and interest is paid ratably through weekly payroll deductions.

Benefits Paid to Participants

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or monthly installments until the total amount paid equals the vested amount. If a participant's vested account has never been more than $5,000, it will be paid in a lump sum distribution.

Note 2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting, in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance companies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Payment of Benefits

Benefits are recorded when paid.

Expenses of the Plan

The trustee is responsible for the management of the Plan's assets, while the recordkeeper is responsible for the recordkeeping of the Plan's assets. Trustee administrative expenses are generally paid directly to the trustee by the Company and thus are not a component of the changes in net assets available for benefits. Management fees and operating expenses are charged to the Plan for certain investment options and are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments. Administrative expenses of $3,824 and $2,763 are reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017, respectively, related to processing participants' loans and were paid by the individual participants.

New Accounting Pronouncements/Accounting Changes

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, Fair Value Measurement (Topic 820): *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurements*. The ASU modifies the disclosure requirements on fair value measurements in Accounting Standards Codification Topic 820. The ASU is effective for all reporting periods beginning after December 15, 2019, with early adoption permitted. An entity may elect to early adopt any removed or modified disclosures upon issuance of this Update and delay the adoption of the additional disclosures until the effective date. The Company has elected to early adopt this ASU; however, it did not have a material effect on the Plan's financial statements.

Subsequent Events

The Plan evaluated all events and transactions that occurred after December 31, 2018 through July 31, 2019, the date these financial statements were available to be issued.

Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants at December 31, 2018 and 2017, and net appreciation (depreciation) in fair value of investments, and interest and dividends and interest income from notes receivable from participants for the years then ended, was obtained or derived from information provided to Plan management and certified as complete and accurate by Reliance Trust Company, the trustee of the Plan.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	2018	2017
Level 1		
Mutual funds	$ 4,708,924	$ 4,966,806
Self-directed brokerage account	648,297	664,403
	5,357,221	5,631,209
Level 2		
Self-directed brokerage account	14,550	14,325
Total investments at fair value	$ 5,371,771	$ 5,645,534

Note 5. Related Parties and Party in Interest Transactions

Certain plan investments are shares of mutual funds managed by affiliates of JP Morgan Chase Bank, N.A., the custodian of the Plan assets, and therefore, these investment transactions qualify as party-in-interest. Additionally, the Plan has a number of service providers. Such providers are parties in interest under ERISA. The Company also pays certain administrative expenses on behalf of the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Tax Status

The Company has adopted a prototype plan document. The prototype plan adopted by the Company has received a favorable opinion letter from the IRS dated March 31, 2014, stating that the prototype is designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the plan administrator and management believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Fidelity Bond

Fidelity bond coverage is required at the beginning of the Plan year in an amount of the lesser of 10% of funds handled or $500,000, which is prescribed by the Department of Labor's regulations. As of January 1, 2018, the Plan held a bond in the amount of $494,000, which was less than the proper required bonding coverage. As of March 30, 2019, the Plan obtained sufficient bond coverage to be in compliance.
