To the Plan Administrator
University of Cincinnati Foundation Defined
Contribution Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of University of Cincinnati Foundation Defined Contribution Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2018 and 2017 and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) and TIAA, as agent for TIAA, FSB, except for comparing such information with the related information included in the 2018 financial statements. We have been informed by the plan administrator that TIAA-CREF and TIAA, FSB hold certain of the Plan's investment assets and execute certain investment transactions. The plan administrator has obtained a certification from TIAA-CREF and TIAA, as agent for TIAA, FSB, as of December 31, 2018 and 2017 and for the year ended December 31, 2018 that the information provided to the plan administrator is complete and accurate.

As described in Note 3, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's (DOL) Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan has not maintained sufficient accounting records and supporting documents relating to these annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

To the Plan Administrator
University of Cincinnati Foundation Defined
Contribution Retirement Plan

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As explained in Note 7, the financial statements include investments valued at approximately \$6,886,000 (25 percent of net assets) at December 31, 2018 and \$6,415,000 (24 percent of net assets) at December 31, 2017, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by TIAA-CREF. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedule of assets held at end of year as of December 31, 2018 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by TIAA-CREF and TIAA, as agent for TIAA, FSB, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

University of Cincinnati Foundation Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1 - Plan Description

The following description of the University of Cincinnati Foundation Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the University of Cincinnati Foundation (the "Foundation") who meet certain minimum eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Employees, excluding student employees, are eligible for participation in the Plan as of the first date of employment. Student employees are not eligible to participate. Participants may contribute up to 100 percent of pretax annual compensation (elective deferrals), as defined in the Plan, subject to certain limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants who are over 50 years of age are also eligible for catch-up contributions, subject to certain limitations.

The Foundation matches 100 percent of participant contributions on the first 10 percent of compensation deferred. A participant must contribute 3 percent of eligible compensation in order to receive a matching contribution from the Foundation.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Foundation's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants' contributions and the employer match contributions and related earnings are fully vested at all times and are not subject to forfeiture for any reason.

Benefit Payments

On termination of service due to death, disability, or retirement, a participant may elect to have the value of the vested balance of a participant's account paid as a lump-sum distribution, in installments, or rolled over into another qualified plan. Distributions from an annuity contract may only be made when a participant attains age 59½, separates from service, incurs financial hardship, dies, becomes disabled, or retires. Certain amounts invested in the TIAA Traditional Annuity group annuity contract may not be distributed in a lump sum; see redemption restrictions below.

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment have limits on the ability of the participant to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA) and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments. Withdrawals from the RA contract must be paid out in 10 annual installments. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals.

December 31, 2018 and 2017

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF) and TIAA, FSB or their affiliates. TIAA-CREF is a service provider of the Plan, and TIAA, FSB is a custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Foundation has the right under the Plan to discontinue its contributions at any time, terminate the Plan subject to the provisions set forth in the plan agreement and ERISA, or amend the plan at any time.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value except as noted below.

The registered investment companies are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. There are no redemption restrictions or unfunded commitments on these investments. The pooled separate account is valued at net asset value per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets, which consist primarily of rental property subject to long-term leases and has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with risks involved. There are no redemption restrictions or unfunded commitments on this investment.

The TIAA Traditional Annuity is a guaranteed annuity account issued by TIAA that invests in the general assets of TIAA. TIAA considers the following contracts to be benefit responsive: Supplemental Retirement Annuity (SRA) and Group Supplemental Retirement Annuity (GSRA). TIAA considers the following contracts to be non-benefit responsive: Retirement Annuity (RA) and Transfer Payout Annuity (TPA). The non-benefit-responsive portion is recorded at fair value. The benefit-responsive portion is recorded at contract value. Since there are no specific securities in TIAA's general account related to these contracts, and due to the contract terms, including the frequency of the interest rate reset intervals, contract value is the best estimate of fair value for the non-benefit responsive contracts. For all portions, contract value represents principal invested, plus interest earned, less any withdrawals.

All other investments are valued based on quoted market prices. See Note 7 for additional information.

Benefit Payments

Benefits are recorded when paid. There were benefit payments requested but not paid (due to redemption restrictions) totaling \$683,269 and \$386,019 as of December 31, 2018 and 2017, respectively.

Administrative Expenses

All investment-related expenses are paid by the Plan. The Foundation provides certain administrative services at no cost to the Plan and pays direct fees to service providers on behalf of the Plan.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including July 22, 2019, which is the date the financial statements were available to be issued.

Note 3 - Excluded Investments

The Plan has excluded from investments, in the accompanying statement of net assets available for benefits as of December 31, 2018 and 2017, certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2018. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Note 4 - Unaudited Information

TIAA-CREF holds certain of the Plan's investments, except mutual funds, and executes certain related transactions. TIAA, FSB holds the mutual fund investments and executes all related transactions. TIAA has the authority to certify the investment balances and related investment activity on behalf of TIAA, FSB. The investment balances and related investment income and losses included in the accompanying financial statements and the supplemental schedule of assets held at end of year are based solely on information certified by TIAA-CREF, including TIAA, on behalf of TIAA, FSB.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2018 and 2017 (see Note 3).

Note 5 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

December 31, 2018 and 2017

Note 6 - Investment Contracts

Based on the terms of the contracts, a portion of the TIAA Traditional Annuity is considered benefit responsive. The total balance in the TIAA Traditional Annuity was \$6,174,882 and \$5,898,357 at December 31, 2018 and 2017, respectively. The benefit-responsive portion of the TIAA Traditional Annuity totaled \$299,672 and \$283,940 at December 31, 2018 and 2017, respectively. The contract issuers maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a "vintage" approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into "vintages" and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest credit rates for this product, TIAA considers many factors, including the net investment earnings rate of the TIAA assets supporting that vintage, administrative expenses during the time period, and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3.00 percent; however, in some recent contracts, it has been between 1.00 and 3.00 percent.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because a portion of the contract is fully benefit responsive, contract value is the relevant measurement attribute for the portion of the net assets attributable to the investment contract.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The Plan has excluded certain assets from the statement of net assets available for benefits at December 31, 2018 and 2017 (see Note 3). The following tables present information about the included plan assets measured at fair value on a recurring basis at December 31, 2018 and 2017.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 7 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
