A. Description of Plan

The following description of the Anderson Automotive Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Participating employers include Anderson Nissan, Inc., Anderson Dealerships, Inc. and Anderson Automotive, Inc. (the "Companies").

1. *General.* The Plan is a defined contribution salary deferral plan which provides an individual account for each participant and provides benefits upon retirement that are based on the amounts contributed by the employee and employer plus earnings on those contributions less any plan administrative expenses. The Plan was established on January 1, 1985. The amended and restated provisions of the Plan became effective on December 1, 2016. On July 16, 2018, Midland States Bank/Midland Wealth Management acquired Alpine Bank, the prior trustee. The Controller is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan covers all employees of the Companies except for those deemed as excluded employees which include: employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, unless such agreement expressly provides for participation in the Plan, non-resident aliens who received no earned income from the Employer constituting U.S. source income, leased employees. A participant becomes eligible on the earlier of (1) the first day of the Plan year (January 1) or (2) the first day of the seventh month (July 1), after completion of one year of eligible service and having attained age 21 as defined in the Plan document. A year of eligible service begins on the date the employee first performs an hour of service and is completed after 1,000 service hours within the next twelve months.

2. *Contributions.* Each year, participants may contribute a percentage of their compensation as pre-tax contributions as defined in the Plan from 1% up to 75% of plan compensation each payroll period. The Plan allows elective contributions to be made as well as roth contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans at the discretion of the Plan administrator. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. All employer contributions are discretionary. For the 2018 and 2017 Plan Years, the Companies contributed matching contributions equal to 50% of the first 6% of base compensation that a participant contributes to the Plan if the participant is employed on the last day of the plan year quarter.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution, the Company contributions, as well as an allocation of the Plan's earnings. The participants can then direct their investments to any of the available funds in the Plan. Participants may change their investment option specification with respect to contributions to be made in the future and with respect to amounts already in the account by calling an interactive voice-response system or accessing the account on the Internet with the use of a personal identification number.

A. Description of Plan (Continued)

4. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Companies' contribution portion of their accounts is based on years of service. One year of service is 1,000 hours within a consecutive twelve-month period. A participant is 100 percent vested after six years of service. Participant accounts also become fully vested upon attainment of the normal retirement age of 65 or in the event of death or total disability.

5. *Notes Receivable from Participants.* Participant loans are not permitted by the Plan at this time.

6. *Payment of Benefits.* On termination of service due to death, disability, or retirement, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or can elect to receive the account balance in installments. If the value of the vested benefit does not exceed $5,000, the participant may elect to receive a lump sum distribution. A participant may withdraw any part of his or her rollover account balance at any time.

   In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their vested account balances while actively employed, but such withdrawals are limited to the amount of hardship. Participants' withdrawals are limited to deferred account balances and may not include any earnings accrued thereon.

7. *Forfeited Accounts.* At December 31, 2018 and 2017, forfeited non-vested accounts totaled $1,171 and $10,588, respectively. The forfeited non-vested accounts are used to reduce employer matching contributions in the plan year following the plan year in which the forfeiture occurs. Also, in 2018 and 2017, employer contributions were reduced by $20,617 and $21,026 respectively from forfeited non-vested accounts.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

B. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Midland States Bank/Midland Wealth Management, the trustee of the Plan, determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are not permitted by the Plan at this time.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The Plan permits the payment of plan expenses to be made from the Plan's assets. If the expenses are not paid from employer assets, then the expenses paid using the Plan's assets will generally be allocated among the accounts of all participants in the Plan. The expenses are allocated proportionately based on the value of the account balances. Expenses paid in 2018 and 2017 were $54,221 and $46,065, respectively.

Subsequent events

The Plan has evaluated subsequent events through July 17, 2019, which is the date the financial statements were available to be issued.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

C. Fair Value Measurements (Continued)

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

C. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017.

D. Related-Party Transactions and Party in Interest Transactions

The Plan's investments include shares of mutual funds managed by Midland States Bank/Midland Wealth Management. Midland States Bank/Midland Wealth Management is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

E. Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

F. Tax Status

The IRS has determined and informed the Company by a letter dated November 30, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

F. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Information Certified by the Trustee

Midland States Bank/Midland Wealth Management certified all investments, investment transactions, and all related income and the fair value of investments included in the financial statements and supplementary schedule as of and for the year ended December 31, 2018, and as of December 31, 2017.
