Note 1 – Description of Plan

The following brief description of the Merit Energy Company Savings Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General
The Plan, as amended and restated, is a defined contribution plan established by Merit Energy Company (the Employer) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Employer who become entitled to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was restated effective July 27, 2015.

The Plan is administered by a committee (the Retirement Committee) appointed by the Employer. Administrative expenses are paid by the Employer except for those related to loans, which are paid by the respective participant. Fidelity Management Trust Company (the Trustee, Fidelity) maintains custody of the Plan's assets. Effective December 1, 2016, the Plan elected to pay administrative expenses from forfeitures. Effective December 1, 2017 a portion of revenue sharing were allocated to participant accounts.

Eligibility - Employees who are age 19 or older are eligible to participate in the 401(k) plan on the first day of employment. Employees who make deferral contributions are eligible for employer matching contributions when they start participating in the Plan.

Contributions
Employee - Each eligible employee may elect to contribute to the Plan on a pre-tax basis up to 60% of such participant's compensation. Each participant's annual contribution shall not exceed the maximum amount allowed for deferral for U.S. federal income taxes, which was $18,500 for 2018. Participants over fifty years old may make additional catch-up contributions up to $6,000. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated fund until elected otherwise by the participant. Effective December 1, 2016, for all employees with deferral rates less than 6%, the Plan was amended to automatically increase deferral rates by one percent each year until the deferral rate reaches 6%.

Employer - The Employer makes contributions equal to 100% up to the first 6% of earnings contributed into the Plan on a pre-tax basis. However, the Employer reserves the right to temporarily or permanently discontinue its contributions at any time. Effective January 1, 2019 the Employer match was increased to 100% up to the first 10% of earnings contributed into the Plan on a pre-tax basis.

Contributions are subject to regulatory limitations.

Note 1 – Description of Plan (continued)

Vesting - Participating employees are vested 100% in their pre-tax contributions and in any Employer-matching contributions plus related earnings at all times.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Accounts - Each participant's account is credited with the participant's contributions and the Employer matching contributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Investment Options - As directed by participants, the Plan purchases units of participation in 30 distinct investment portfolios administered by the Plan Trustee, Fidelity. Under the Plan, participants are allowed to transfer funds between any investment options.

Participant Loans - Participants can apply for a loan from their 401(k) account. The amount of any such loan cannot exceed the lesser of 50% of the value of the participant's vested interest in his or her 401(k) account, or $50,000 reduced by the excess of the highest outstanding loan balances during the past year over the outstanding balance of loans on the date on which such loan is made. For purposes of the $50,000 limitation, all outstanding loans to a participant are aggregated. Plan loans must be repaid within five years; however, if the loan is used to acquire the principal residence of the participant, the loan may be repaid over a period not to exceed 10 years. Principal and interest are paid ratable through payroll deductions. All outstanding loan balances will become due and payable in their entirety upon the occurrence of a distributable event stated in the Plan document. The interest rate charged on any loan is fixed and will be equal to the "local prevailing commercial interest rate." Outstanding loans at December 31, 2018 carry interest rates varying between 3.25% and 7.00% with various maturities through May 28, 2028.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The Plan's financial statements are prepared in accordance with principles generally accepted in the United States of America, using the accrual method of accounting.

Investment Valuation and Income Recognition
Investments of the Plan are stated at fair value. Securities traded in public markets are valued at their quoted market prices. The Plan's trustee, Fidelity, certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Note 2 – Summary of Significant Accounting Policies (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The value of purchases and sales of securities are reflected on a trade-date basis. Changes in the market value of investments from one period to the next, combined with realized gains and losses based on differences between revalued costs and market value of investments on the trade date, are recognized as net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Payment of Benefits - Benefits are recorded when paid. Benefits due to participants who have elected to withdraw from the Plan but have not been paid are included in net assets available for benefits. At December 31, 2018 and 2017, there were no amounts allocated to withdrawing participants.

Estimates and Assumptions - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting periods. Actual results could differ from those estimates.

Note 3 – Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's *Rules and Regulations for Reporting and Disclosure* under ERISA, Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017.

- Net depreciation in fair value of investments, dividends, and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2018.

- Investments reflected on the schedule of assets (held at end of year).

Note 4 – Fair Value Measurements

Fair value measurements establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under fair value measurements are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the techniques used at December 31, 2018 and 2017.

Mutual Funds and Money Market Funds - Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. There have been no other changes in the methodologies used at December 31, 2018 and 2017;

The technique described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniquess or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – Fair Value Measurements (continued)

Note 5 – Party-in-Interest Transactions

Certain Plan investments are managed by the trustee, Fidelity. Fidelity is the trustee of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to the trustee, Fidelity were $48,000 for the year ended December 31, 2018.

The trustee, Fidelity, receives revenue from mutual fund service providers for services they provide to the funds. This revenue is allocated to the accounts of the participants. During 2018, participants received $74,000 allocated to their accounts from revenue sharing.

Note 6 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset), if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however; there are currently no audits for any tax periods in progress

7 – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan agreement to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate, all participants would remain fully vested and their respective accounts would be non-forfeitable.
