Dealer Tire LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Dealer Tire LLC 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 401(k) profit sharing plan covering employees of Dealer Tire LLC (the Company) who have completed 30 days of service and have attained nineteen years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may make voluntary elective 401(k) and Roth contributions of up to 75% of their eligible compensation, as defined, subject to the maximum permitted by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. In addition, the Plan allows for discretionary Company matching contributions. Matching contributions were equal to 50 cents per dollar of the participant's voluntary 401(k) and Roth contributions up to 7% of compensation, as defined, for the year ended 2018. Contributions are subject to certain IRS limitations.

Participant accounts: A separate account is maintained for each participant. Each participant's account is credited with the participant's voluntary 401(k) and Roth contributions, rollover contributions, and Plan earnings or losses on those contributions, plus the Company's matching contribution and earnings or losses thereon. Plan earnings are allocated daily based on each participant's balance within each investment option. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, as defined.

Vesting: Participants are immediately vested in their voluntary 401(k) and Roth contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant becomes 100 percent vested after three years of credited service.

Notes receivable from participants: The Plan allows participants to borrow money within certain limits from their individual accounts. The loans are secured by the balance in the participant's account. Such loans bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: Upon termination of service, a participant may elect to receive distributions as a lump-sum distribution equal to his or her vested account balance. If the participant's vested account balance is between \$1,000 and \$5,000, the Plan Administrator may make an automatic rollover of the account balance to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the Plan Administrator may direct the trustee to make a lump-sum distribution. Distributions of a participant's 401(k) account balance may be authorized at any time by the Plan Administrator under certain hardship conditions.

Dealer Tire LLC 401(k) Savings Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeited accounts: Forfeitures of nonvested Company contributions are used to reduce administrative expense under the Plan, if any. Any forfeitures remaining after administrative expenses have been paid are applied to reduce employer contributions. Forfeitures amounting to \$78,401 and \$110,593 for the year ended December 31, 2018 were used to reduce administrative expenses and employer contributions, respectively. Unapplied forfeitures were \$101,516 and \$87,841 as of December 31, 2018 and 2017, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value as reported by Fidelity Management Trust Company at December 31, 2018 and 2017, the trustee of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment of participant's voluntary contributions and the Company's matching contributions in each participant's account is at the direction of each respective participant.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments are recorded when paid.

Administrative expenses: The Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Recently adopted accounting pronouncements: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820):*

Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. The effect of adopting the ASU resulted in the removal or modification of certain fair value measurement disclosures presented in the financial statements. The Plan adopted this Update for the removal of certain fair value measurement disclosures presented in the financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 29, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017 and for the year ended December 31, 2018 included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2018	2017
Mutual funds	<u>\$ 64,104,395</u>	<u>\$ 62,424,446</u>
Common/collective trust fund	<u>\$ 2,278,149</u>	<u>\$ 2,462,222</u>
Notes receivable from participants	<u>\$ 1,520,279</u>	<u>\$ 1,372,428</u>

The trustee also certified to the completeness and accuracy of the following for the year ended December 31, 2018:

Net depreciation in fair value of investments	<u>\$ (7,316,433)</u>
Interest and dividends	<u>\$ 2,770,240</u>
Interest income on notes receivable from participants	<u>\$ 75,196</u>

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Dealer Tire LLC 401(k) Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no significant change in the methodology used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the NAV of units of the common/collective trust fund. The NAV as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Dealer Tire LLC 401(k) Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 64,104,395	\$ -	\$ -	\$ 64,104,395
Investments measured at net asset value ^(a)				2,278,149
Investments at fair value				\$ 66,382,544

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 62,424,446	\$ -	\$ -	\$ 62,424,446
Investments measured at net asset value ^(a)				2,462,222
Investments at fair value				\$ 64,886,668

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

For the years ended December 31, 2018 and 2017, there were no transfers in or out of Level 3.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2018	2017			
Common/collective trust fund	\$ 2,278,149	\$ 2,462,222	None	Daily	12 months

Dealer Tire LLC 401(k) Savings Plan

Notes to Financial Statements

Note 5. Tax Status

The Plan is a volume submitter plan provided by Fidelity. Fidelity has received an opinion letter dated March 31, 2014, from the Internal Revenue Service stating that the volume submitter plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax exempt as of the financial statement date. The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2018 and 2017, and for the year ended December 31, 2018, the Plan did not have a liability for unrecognized tax benefits.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, such transactions qualify as party-in-interest transactions. Fees paid by the Plan for administration provided by the trustee or other related parties amounted to \$143,180 for the year ended December 31, 2018.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation to IRS Form 5500

The following is a reconciliation of the difference between these financial statements and the financial information required on Form 5500:

	December 31,	
	2018	2017
Net assets available for benefits as presented in these financial statements	\$ 67,902,823	\$ 66,585,856
Differences in notes receivable deemed as distributions per form 5500	(26,898)	-

Dealer Tire LLC 401(k) Savings Plan

Notes to Financial Statements

Note 9. Reconciliation to IRS Form 5500 (Continued)

The following is a reconciliation of the total increase in net assets per the financial statements to the Form 5500 for the year ended December 31, 2018:

Total benefits paid to participants per the financial statements	\$ 5,002,627
Deemed distribution notes included in notes receivable from participants on financial statements, current year	27,401
Offset previously defaulted notes included in notes receivable from participants on financial statements, prior year	(503)
Total benefits paid and deemed distributions per the Form 5500	<u><u>\$ 5,029,525</u></u>

Note 10. Subsequent Events

Effective June 17, 2019, the Plan was amended to increase the amount the Plan Administrator may direct the trustee to make lump-sum distribution of a participant's account balance from less than \$1,000 to less than \$5,000. Additionally, effective June 20, 2019, the Plan sponsor merged Simple Tire 401(k) Profit Sharing Plan and Trust into the Plan. Plan assets in the amount of \$525,140 were transferred to the Plan as a result of this merger.

Note 1. Description of Plan

The following description of the Dealer Tire LLC 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 401(k) profit sharing plan covering employees of Dealer Tire LLC (the Company) who have completed 30 days of service and have attained nineteen years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may make voluntary elective 401(k) and Roth contributions of up to 75% of their eligible compensation, as defined, subject to the maximum permitted by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. In addition, the Plan allows for discretionary Company matching contributions. Matching contributions were equal to 50 cents per dollar of the participant's voluntary 401(k) and Roth contributions up to 7% of compensation, as defined, for the year ended 2018. Contributions are subject to certain IRS limitations.

Participant accounts: A separate account is maintained for each participant. Each participant's account is credited with the participant's voluntary 401(k) and Roth contributions, rollover contributions, and Plan earnings or losses on those contributions, plus the Company's matching contribution and earnings or losses thereon. Plan earnings are allocated daily based on each participant's balance within each investment option. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, as defined.

Vesting: Participants are immediately vested in their voluntary 401(k) and Roth contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant becomes 100 percent vested after three years of credited service.

Notes receivable from participants: The Plan allows participants to borrow money within certain limits from their individual accounts. The loans are secured by the balance in the participant's account. Such loans bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: Upon termination of service, a participant may elect to receive distributions as a lump-sum distribution equal to his or her vested account balance. If the participant's vested account balance is between \$1,000 and \$5,000, the Plan Administrator may make an automatic rollover of the account balance to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the Plan Administrator may direct the trustee to make a lump-sum distribution. Distributions of a participant's 401(k) account balance may be authorized at any time by the Plan Administrator under certain hardship conditions.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeited accounts: Forfeitures of nonvested Company contributions are used to reduce administrative expense under the Plan, if any. Any forfeitures remaining after administrative expenses have been paid are applied to reduce employer contributions. Forfeitures amounting to \$78,401 and \$110,593 for the year ended December 31, 2018 were used to reduce administrative expenses and employer contributions, respectively. Unapplied forfeitures were \$101,516 and \$87,841 as of December 31, 2018 and 2017, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value as reported by Fidelity Management Trust Company at December 31, 2018 and 2017, the trustee of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment of participant's voluntary contributions and the Company's matching contributions in each participant's account is at the direction of each respective participant.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments are recorded when paid.

Administrative expenses: The Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently adopted accounting pronouncements: In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820):*

Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. The effect of adopting the ASU resulted in the removal or modification of certain fair value measurement disclosures presented in the financial statements. The Plan adopted this Update for the removal of certain fair value measurement disclosures presented in the financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 29, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017 and for the year ended December 31, 2018 included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2018	2017
Mutual funds	<u>\$ 64,104,395</u>	<u>\$ 62,424,446</u>
Common/collective trust fund	<u>\$ 2,278,149</u>	<u>\$ 2,462,222</u>
Notes receivable from participants	<u>\$ 1,520,279</u>	<u>\$ 1,372,428</u>

The trustee also certified to the completeness and accuracy of the following for the year ended December 31, 2018:

Net depreciation in fair value of investments	<u>\$ (7,316,433)</u>
Interest and dividends	<u>\$ 2,770,240</u>
Interest income on notes receivable from participants	<u>\$ 75,196</u>

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Dealer Tire LLC 401(k) Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no significant change in the methodology used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the NAV of units of the common/collective trust fund. The NAV as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 64,104,395	\$ -	\$ -	\$ 64,104,395
Investments measured at net asset value ^(a)				2,278,149
Investments at fair value				\$ 66,382,544

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 62,424,446	\$ -	\$ -	\$ 62,424,446
Investments measured at net asset value ^(a)				2,462,222
Investments at fair value				\$ 64,886,668

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

For the years ended December 31, 2018 and 2017, there were no transfers in or out of Level 3.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2018	2017			
Common/collective trust fund	\$ 2,278,149	\$ 2,462,222	None	Daily	12 months

Notes to Financial Statements

Note 5. Tax Status

The Plan is a volume submitter plan provided by Fidelity. Fidelity has received an opinion letter dated March 31, 2014, from the Internal Revenue Service stating that the volume submitter plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax exempt as of the financial statement date. The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2018 and 2017, and for the year ended December 31, 2018, the Plan did not have a liability for unrecognized tax benefits.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7. Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, such transactions qualify as party-in-interest transactions. Fees paid by the Plan for administration provided by the trustee or other related parties amounted to \$143,180 for the year ended December 31, 2018.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation to IRS Form 5500

The following is a reconciliation of the difference between these financial statements and the financial information required on Form 5500:

Additionally, effective June 20, 2019, the Plan sponsor merged Simple Tire 401(k) Profit Sharing Plan and Trust into the Plan.
