1. DESCRIPTION OF PLAN:

The following description of the Cincinnati Steel Treating Company 401(k) SMARTS Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Cincinnati Gearing Systems Incorporated (the “Company” or “Employer”). Employees who have attained the age of 18 are eligible to participate in the Plan on the first day of the month following their hire date. There is no minimum service requirement to enter the Plan. Eligible employees are automatically enrolled in the Plan unless they affirmatively opt out. The Plan also has an auto-escalation feature which increases participant deferrals by 1% annually until a deferral rate of 7% is reached. Participants must meet the 1,000 hours minimum service requirement and be employed on the last day of the year to be eligible for discretionary non-elective contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 60% of their compensation to the Plan. Participants age 50 or older may elect catch-up contributions. If catch-up contributions are elected, the deferral limit is 75%. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Company makes a match contribution of 100% of the first 5% of a participant’s deferred compensation per payroll period. The Company may also make an additional discretionary profit sharing contribution. No discretionary profit sharing contribution was made during 2018.

Participant accounts

Each participant's account is credited with the participant's elective contributions and the employer's related matching and discretionary contributions, if any, and an allocation of Plan earnings. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and employer non-discretionary contributions plus actual earnings thereon. Vesting in the employer discretionary matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

Benefits

Participants are entitled to benefits beginning at normal retirement age (65). Upon termination of service, participants with a balance of $1,000 or less receive a lump sum distribution, no later than sixty days after the end of the Plan year in which they retire or terminate their employment. Those with balances greater than $1,000 may elect to leave their funds in the Plan or elect to receive a lump sum amount equal to the value of the participant’s vested interest in his or her account. Effective August 12, 2019, the Plan was amended to roll over participant balances between $1,000 and $5,000 to an individual retirement plan designated by the Plan Administrator upon termination.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment. Hardship withdrawals are not permitted.

Death and disability benefits
A death benefit equal to the value of an employee's account will be paid to the employee's beneficiary. Active participants, who become totally and permanently disabled, will receive benefits no later than sixty days after the last day of the Plan year in which the disability occurred.

Notes receivable from participants
The Plan permits participants to borrow from their vested account. The maximum amount that may be borrowed is the lesser of $50,000 or 50% of the vested balance of the account. The loans are secured by the balance in the participant's account. The interest rate on the loan is determined by the plan administrator. Loans are payable within five years except for those used to acquire a principal residence. Principal and interest are paid ratably through monthly payroll deductions.

Forfeitures
Forfeitures may be used to reduce future employer contributions and pay plan administrative fees. The balance in the forfeiture account was $11,085 and $8,766 at December 31, 2018 and 2017, respectively. Forfeitures used to reduce employer contributions and pay plan expenses were $8,431 in 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits as of the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are reported on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2018 or 2017. If a participant ceases to make loan repayments and the

plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account, as are fees for distributions and investment management, and are included in administrative expenses. Other investment related expenses are included in net depreciation of fair value of investments.

Subsequent events
The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through the date of the report, the date on which the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board (FASB) provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other that quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

Mutual and money market funds: Valued at the daily closing price as reported by the fund. Mutual and money market funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017.

	Investments at fair value as of December 31, 2018			
	Fair Value	Level 1	Level 2	Level 3
Mutual & money market funds	$ 12,728,211	12,728,211	-	-

	Investments at fair value as of December 31, 2017			
	Fair Value	Level 1	Level 2	Level 3
Mutual & money market funds	$ 13,816,743	13,816,743	-	-

4. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant will become 100% vested in their account.

5. TAX STATUS:

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014. While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. INFORMATION CERTIFIED BY THE TRUSTEE:

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly,

Fidelity Management Trust Company, the trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, and the supplemental schedule of assets (held at end of year) as of December 31, 2018, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

7. RISKS AND UNCERTAINITES:

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements and supplemental schedules.

8. RELATED-PARTY TRANSACTIONS:

Certain Plan investments are shares of mutual and money market funds managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are paid directly by the plan sponsor or charged within the fund prior to the allocation of earnings.
