NOTE A - DESCRIPTION OF PLAN

ASO LLC (the Company) sponsors ASO 401(k) Savings Plan (the Plan). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:
The Plan is a defined contribution plan covering substantially all employees of the Company after completion of three months employment and attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions:
Each year participants may elect to contribute, on a pre-tax basis (elective deferrals), from 1% to 60% of their compensation up to regulatory maximums. For 2018 and 2017 the total annual participant deferral contribution is limited to $18,500 and $18,000 ($24,500 and $24,000 for employees age fifty or older), respectively.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes safe harbor matching employer contributions on behalf of eligible participants equal to 100% of the first 3% of the eligible participant's compensation contributed to the Plan and 50% of the next 3% of the eligible participant's compensation contributed to the Plan. The Company may make an additional matching employer contribution on behalf of each eligible participant in an amount equal to a percentage of the eligible contributions made by each eligible participant during the plan year. The Company contributions are invested based on each participant's investment elections.

Participant Accounts:
Each participant's account is credited with the participant's contribution, the employer's contributions, and Plan earnings. Allocations of the Plan's earnings or losses are based on the ratio of each participant's current account as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting:
Participants are immediately vested in their elective contributions and safe harbor matching employer contributions, plus actual earnings thereon. Vesting in the portion of their accounts related to the Company's non-discretionary matching employer contributions is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Forfeited Accounts:
At December 31, 2018 and 2017, forfeited nonvested accounts totaled $6,622 and $18, respectively. These accounts will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions. In 2018, the Company utilized none of the forfeited nonvested accounts to pay administrative expenses or to reduce employer contributions.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits:
On termination of service due to death, disability or retirement, the participant's account balance is distributed in a lump sum if the balance is less than $1,000. If the balance in a participant's account is greater than $1,000 but less than $5,000, then the Plan will pay the distribution in a direct rollover to an individual retirement plan designated by the Plan administrator, if the participant does not elect otherwise. If the balance exceeds $5,000, a distribution can be paid out as a lump sum payment for the entire vested account balance or it can be deferred until minimum distributions are required by law.

Notes Receivable from Participants:
A participant may borrow from their fund accounts in the form of a note. Notes are limited to a minimum of $1,000 up to a maximum amount equal to the lesser of one-half of their vested account balance or $50,000 reduced by the highest outstanding loan balance in their account during a twelve month period. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined by the Plan administrator based on prevailing interest rates charged by persons in the business of lending money for loans, which would be made under similar circumstances. The interest rate remains fixed throughout the duration of the loan. Principal and interest is paid ratably through after-tax payroll deductions on at least a quarterly basis over a 5 year period unless the note is to be used for the purchase of a principal residence, for which the maximum term is ten years. A loan becomes immediately due and payable upon a participant's termination of employment or death.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:
The financial statements of the Plan are presented on the accrual method of accounting.

Use of Estimates:
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants:
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition:
Investments are stated at fair value as determined by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan presents in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains or losses and unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses:
Certain administrative functions are performed by employees of the Company who receive no compensation from the Plan. Administrative expenses for investment fees are paid by the Plan.

Payment of Benefits:
Benefits are recorded when paid.

Subsequent Events:
Management evaluated all activity of the Plan through July 29, 2019, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes.

NOTE C - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Fidelity Management Trust Company, the trustee, has certified that all of the investments, investment-related activity and participant notes receivable presented in the statements of net assets available for benefits, statement of changes in net assets available for benefits and supplemental schedule of assets held for investment purposes as of December 31, 2018 and 2017 and for the year ended December 31, 2018 are complete and accurate. Such information has not been audited by independent auditors except for comparing such information with the related information included in the financial statements and supplemental schedule as of December 31, 2018 and 2017 and for the year ended December 31, 2018.

NOTE D - PARTIES-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the trustee. These transactions qualify as party-in-interest transactions. Recordkeeping, custodial and other expenses paid by the Plan were incurred with parties-in-interest as defined in Section 3(14) of ERISA.

NOTE E - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and/or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions. The Plan administrator will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with the Plan provisions until all assets have been distributed by the trustee.

NOTE F - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:
    - quoted prices for similar assets or liabilities in active markets;
    - quoted prices for identical or similar assets or liabilities in inactive markets;
    - inputs other than quoted prices that are observable for the asset or liability;
    - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE H - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment company and money market funds: These investments are valued at the net asset value (NAV) of units held by the Plan at year end as provided by Fidelity Management Trust Company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018

NOTE A - DESCRIPTION OF PLAN

ASO LLC (the Company) sponsors ASO 401(k) Savings Plan (the Plan). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:
The Plan is a defined contribution plan covering substantially all employees of the Company after completion of three months employment and attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions:
Each year participants may elect to contribute, on a pre-tax basis (elective deferrals), from 1% to 60% of their compensation up to regulatory maximums. For 2018 and 2017 the total annual participant deferral contribution is limited to $18,500 and $18,000 ($24,500 and $24,000 for employees age fifty or older), respectively.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes safe harbor matching employer contributions on behalf of eligible participants equal to 100% of the first 3% of the eligible participant's compensation contributed to the Plan and 50% of the next 3% of the eligible participant's compensation contributed to the Plan. The Company may make an additional matching employer contribution on behalf of each eligible participant in an amount equal to a percentage of the eligible contributions made by each eligible participant during the plan year. The Company contributions are invested based on each participant's investment elections.

Participant Accounts:
Each participant's account is credited with the participant's contribution, the employer's contributions, and Plan earnings. Allocations of the Plan's earnings or losses are based on the ratio of each participant's current account as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting:
Participants are immediately vested in their elective contributions and safe harbor matching employer contributions, plus actual earnings thereon. Vesting in the portion of their accounts related to the Company's non-discretionary matching employer contributions is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Forfeited Accounts:
At December 31, 2018 and 2017, forfeited nonvested accounts totaled $6,622 and $18, respectively. These accounts will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions. In 2018, the Company utilized none of the forfeited nonvested accounts to pay administrative expenses or to reduce employer contributions.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits:
On termination of service due to death, disability or retirement, the participant's account balance is distributed in a lump sum if the balance is less than $1,000. If the balance in a participant's account is greater than $1,000 but less than $5,000, then the Plan will pay the distribution in a direct rollover to an individual retirement plan designated by the Plan administrator, if the participant does not elect otherwise. If the balance exceeds $5,000, a distribution can be paid out as a lump sum payment for the entire vested account balance or it can be deferred until minimum distributions are required by law.

Notes Receivable from Participants:
A participant may borrow from their fund accounts in the form of a note. Notes are limited to a minimum of $1,000 up to a maximum amount equal to the lesser of one-half of their vested account balance or $50,000 reduced by the highest outstanding loan balance in their account during a twelve month period. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined by the Plan administrator based on prevailing interest rates charged by persons in the business of lending money for loans, which would be made under similar circumstances. The interest rate remains fixed throughout the duration of the loan. Principal and interest is paid ratably through after-tax payroll deductions on at least a quarterly basis over a 5 year period unless the note is to be used for the purchase of a principal residence, for which the maximum term is ten years. A loan becomes immediately due and payable upon a participant's termination of employment or death.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:
The financial statements of the Plan are presented on the accrual method of accounting.

Use of Estimates:
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants:
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition:
Investments are stated at fair value as determined by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan presents in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains or losses and unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses:
Certain administrative functions are performed by employees of the Company who receive no compensation from the Plan. Administrative expenses for investment fees are paid by the Plan.

Payment of Benefits:
Benefits are recorded when paid.

Subsequent Events:
Management evaluated all activity of the Plan through July 29, 2019, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes.

NOTE C - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Fidelity Management Trust Company, the trustee, has certified that all of the investments, investment-related activity and participant notes receivable presented in the statements of net assets available for benefits, statement of changes in net assets available for benefits and supplemental schedule of assets held for investment purposes as of December 31, 2018 and 2017 and for the year ended December 31, 2018 are complete and accurate. Such information has not been audited by independent auditors except for comparing such information with the related information included in the financial statements and supplemental schedule as of December 31, 2018 and 2017 and for the year ended December 31, 2018.

NOTE D - PARTIES-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the trustee. These transactions qualify as party-in-interest transactions. Recordkeeping, custodial and other expenses paid by the Plan were incurred with parties-in-interest as defined in Section 3(14) of ERISA.

NOTE E - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and/or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions. The Plan administrator will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with the Plan provisions until all assets have been distributed by the trustee.

NOTE F - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:
    - quoted prices for similar assets or liabilities in active markets;
    - quoted prices for identical or similar assets or liabilities in inactive markets;
    - inputs other than quoted prices that are observable for the asset or liability;
    - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE H - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment company and money market funds: These investments are valued at the net asset value (NAV) of units held by the Plan at year end as provided by Fidelity Management Trust Company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:
