Note 1. Plan Description

The following description of the M.P. Environmental Services, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information with regard to the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of M.P. Environmental Services, Inc. (the Company) who are 19 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participating employees are allowed to make contributions of their pretax or after-tax annual compensation as defined in the Plan, pursuant to Section 401(k) of the Internal Revenue Code (IRC). Employer contributions are made on an annual basis, at the Company's discretion. During the year ended December 31, 2018, the Company made $194,646 in discretionary matching contributions. Contributions are funded annually.

Forfeited accounts:

Forfeitures of terminated employees' nonvested account balances are used to offset employer contributions or Plan expenses. Forfeitures of terminated employees' nonvested account balances used to offset employer contributions or Plan expenses for the year ended December 31, 2018 was $-0-. Forfeiture balances at December 31, 2018 and 2017 were $11,009 and $16,234, respectively.

Participant accounts:

Separate accounts are kept for each participant. Each participant's account is credited with the Company's contributions, the employee's contributions, and allocation of Plan earnings and expenses. All amounts are participant-directed; participants direct the investment of their contributions into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on continuous years of service based on a graded schedule. A participant is 100% vested after 6 years of credited service or upon reaching normal retirement age.

Participants are automatically 100% vested upon termination due to death or disability.

Benefit payments and withdrawals:

On termination of service, participants may elect to receive a lump-sum distribution equal to the vested value of their account or leave the value of their account on deposit until normal retirement (age 65). Distribution of vested value will also occur in the case of death or disability. If a participant's vested account balance is less than $5,000, they will automatically receive payment in the form of a lump-sum. Participants with vested account balances greater than $5,000 may elect payments in the form of lump-sum, installments or combination of lump-sum and installment payments.

Amounts allocated to accounts of persons who, at December 31, 2018, have elected to withdraw from the Plan but have yet to be paid as of that date are $-0-.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes

could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefits:

Benefit payments are recorded when paid.

Plan expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Tax status:

The Plan and related trust are designed and operating in accordance with Section 401(a) of the Internal Revenue Code. The volume submitter Profit Sharing Plan with CODA Adoption Agreement has received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 3. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in employer contributions. Payment of such amounts will be made to participants by the asset custodian as directed by the Plan Administrator.

Note 4. Fair Value Disclosures

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB are described as follows: Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 - inputs to the valuation methodology include quoted prices for similar assets or liabilities in active

markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means; Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Registered investment companies (mutual funds): The fair values of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Common/collective trusts: The fair value of the common/collective trust are from broker quotations from market makers, original transaction price and recent transactions in recent or similar instruments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	December 31, 2018			
	Fair Value Measurements Using:			
	Fair Value	***Level 1***	***Level 2***	***Level 3***
Registered investment companies	$ 4,203,776	$ 4,203,776	$ -	$ -
Common/collective trusts	1,582,019	-	1,582,019	-
Total assets at fair value	$ 5,785,795	$ 4,203,776	$ 1,582,019	$ -

	December 31, 2017			
	Fair Value Measurements Using:			
	Fair Value	***Level 1***	***Level 2***	***Level 3***
Registered investment companies	$ 4,106,195	$ 4,106,195	$ -	$ -
Common/collective trusts	1,560,653	-	1,560,653	-
Total assets at fair value	$ 5,666,848	$ 4,106,195	$ 1,560,653	$ -

Realized and unrealized gains and losses included in the statement of changes in net assets available for benefits for the year ended December 31, 2018, are reported in net appreciation (depreciation) in fair value of investments.

Note 5. Investment Contract with Insurance Company

The Plan has entered into a traditional fully benefit-responsive guaranteed investment contract with Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The guaranteed investment contract does not permit the insurance company to terminate the agreement without reasonable cause prior to the scheduled maturity date.

The contract meets the fully benefit-responsive contract value and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2018 and 2017 was $434,066 and $462,524, respectively. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (e) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 6. Certified Financial Information

The following information as of and for the years end December 31, 2018 and 2017 was obtained and certified as complete and accurate by Charles Schwab Trust Company, the asset custodian, in accordance with 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA:

Investment Income:		
Net depreciation in fair value of investments	$ (682,756)	
Interest and dividend income	$ 375,395	

Note 7. Party-in-Interest Transactions

During the year ended December 31, 2018, the Plan paid $60,147 to parties-in-interest who included third party administrators, asset custodians, and investment advisors. These transactions qualify as a party-in-interest transactions which are exempt from the prohibited transactions rules.

For the year ended December 31, 2018, Plan investments include a guaranteed investment contract managed by Standard Insurance Company, the Plan's third party administrator.

Charles Schwab & Co., Inc. receives revenue from mutual funds and collective trust fund service providers for services Charles Schwab & Co., Inc. provides to the funds. This revenue can be used to offset certain expenses of the Plan. Any excess amount is remitted to the Plan. During the Plan year ended December 31, 2018, the Plan offset $2,973 against Plan expenses due to amounts received from revenue-sharing.

Note 8. Reconciliation of Financial Statements to Form 5500

Certain balances included on Schedule H Part I and II on the Annual Return/Report of Employee Benefits Plan (Form 5500) have been reclassified for the purpose of presentation in the financial statements.

Note 9. Subsequent Events
