Ash Grove Hourly 401(k) Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

General

The following description of Ash Grove Hourly 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions. Effective December 10, 2015, the Plan was amended and restated to adopt a retirement plan and trust under the Great-West Trust Company Defined Contribution Prototype Plan and Trust.

The Plan is a defined contribution savings plan sponsored by Ash Grove Cement Company (the Company). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Employees of the Company covered by a collective-bargaining agreement are eligible to participate after 90 days of service. Great-West Trust Company, LLC serves as custodian of the Plan as of and for the years ended December 31, 2018 and 2017.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make biweekly contributions of up to 50 percent of eligible compensation. The Plan allows employees to make both pre-tax and Roth contributions. Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. All participant and Company contributions are to be invested at the discretion of the participant.

Company contributions are based on a percentage of employee contributions. For the years ended December 31, 2018 and 2017, the Company matched 25 percent of employee contributions, up to the first 4 percent contributed.

New eligible employees are automatically enrolled into the Plan once the eligibility requirements have been met. The automatic deferral rate is 4 percent of their eligible compensation, unless the participant specifies a different rate, or opts not to contribute.

Beginning March 1, 2017, the Plan enacted automatic escalation provisions. The amount withheld from each participant's payroll increases by 1 percent each plan year until the amount withheld reaches 10 percent of the participant's compensation, unless the participant makes a contrary election.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Ash Grove Hourly 401(k) Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Participants become 100 percent vested in Company contributions and earnings thereon after three years of service. If a participant terminates employment because of retirement, death or disability, as defined by the Plan, the participant becomes 100 percent vested regardless of the years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Only one loan may be granted during any one-year period and only one loan may be outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the loan administrator. Principal and interest are paid ratably through payroll deductions. The maximum repayment terms for a loan is five years, unless the loan is for the purchase of a principal residence, in which case the maximum term is 10 years. Participants are charged a \$50 set up fee when a loan is initiated and a quarterly maintenance fee of \$6.25.

Payment of Benefits

Benefits are payable in the event of retirement, death, termination of employment or other defined hardship. Terminated participants may elect to receive a lump-sum distribution, annuity contracts or monthly, quarterly, semiannual or annual installments for not more than the participant's life expectancy. Lump-sum distributions and installments are made in cash. If the value of the vested account is more than \$5,000, and the reason for termination is not death or permanent and total disability, the participant may elect to defer distribution to a date between age 55 and April 1 following the year the participant attains age 70½.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$0 and \$14,604, respectively. These accounts will be used to first pay plan expenses, and then to pay Company contributions.

Notes to Financial Statements

December 31, 2018 and 2017

Plan Transfers

During 2018, assets in the net amount of \$457,926 were transferred to the Ash Grove Cement Company 401(k) Savings Plan, which is another retirement plan sponsored by the Company.

At the end of 2018, assets in the amount of \$39,656,396 were merged into the CRH Americas 401(k) Plan, which is a retirement plan held by Ash Grove's parent company.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Common stocks and U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Notes to Financial Statements

December 31, 2018 and 2017

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Certification of Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The custodian at December 31, 2018 and 2017 was Great-West Trust Company, LLC. Accordingly, the custodian of the Plan has certified the following information included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2018 and 2017
- Investment income (loss) and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017:

Collective Trust – Putnam calculates a net asset value based on the market value of its underlying investments. The collective trust invests in mutual funds and guaranteed investment contracts. Mutual Funds, Money Market Accounts and Common Stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Individual Directed Brokerage Accounts – Consist of mutual funds and common stock and are valued as discussed above.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.
