Notes to Financial Statements

Note 1. Plan Description

The following brief description of Elm Locating and Utility Services 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all non-temporary employees of One Call Locators, Ltd. dba ELM Locating and Utility Services (the Company), Launchpoint Software Systems, Inc., Graves Law Office, Elm Enterprises, LLC, and Elm Fieldsight, LLC who are age 18 or older and have three months of service at monthly entry dates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% through January 2017 and 3% thereafter of eligible compensation and their contributions invested in a designated fund until changed by the participant. The Company can make a discretionary match equal to a uniform percentage of the amount of an eligible employee's salary deferral. The Company may also elect to make an annual discretionary contribution as determined by the Company. For the year ended December 31, 2018, the Company did not make a discretionary match or contribution to the Plan. Contributions are subject to certain IRS limitations.

Participant accounts: Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, the Company's matching and any discretionary contributions, as well as allocations of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective and, if applicable, rollover contributions and employer matching and contributions plus actual earnings thereon. Vesting in any Company's discretionary contribution plus actual earnings thereon is based on years of service. A participant is 100% vested after three years of service. Participants that are employed by the Company at the time of death or disability automatically become 100% vested in their accounts.

Participant notes receivable: Participants may borrow from their account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the balance in the participant's account. The loan interest rate is determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. Interest rates applicable to outstanding loans as of December 31, 2018 ranged from 3.25% to 6.25% maturing within 1 to 12 years.

Payment of benefits: On termination of service, if a participant's nonforfeitable accrued benefit does not exceed $5,000, the participant will receive a lump sum distribution. If a participant's nonforfeitable accrued benefit exceeds $5,000, the participant may elect lump sum, installment payments, or joint survivor distribution methods of payment.

Forfeited accounts: At December 31, 2018 and 2017, forfeited nonvested accounts totaled $62,878 and $58,819, respectively. In 2018, no administrative expenses or employer contributions were reduced by forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivables from participants are measured at their unpaid principal balance. Interest income is recorded when received. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Subsequent events: Subsequent events have been evaluated through August 8, 2019, which is the date the financial statements were available to be issued.

Note 3. Information Certified by Fidelity Management Trust Company

The following is a summary of the plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian, Fidelity Management Trust Company, furnished to the Plan Administrator. The Plan Administrator has obtained certification from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 for the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

	2018	2017
Investments:		
Investments in mutual funds at fair value	$ 4,716,818	$ 5,039,375
	$ 4,716,818	$ 5,039,375

Fidelity certified to the completeness and accuracy of $336,459 in the depreciation, interest and dividends of the investments for the year ended December 31, 2018.

Note 4. Fair Value Measurements

Accounting Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Investments measured at fair value:				
Mutual funds	$ 4,716,818	$ -	$ -	$ 4,716,818
Total investments at fair value	$ 4,716,818	$ -	$ -	$ 4,716,818

Assets at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Investments measured at fair value:				
Mutual funds	$ 5,039,375	$ -	$ -	$ 5,039,375
Total investments at fair value	$ 5,039,375	$ -	$ -	$ 5,039,375

Note 5. Related Party and Party-in Interest Transactions

Certain Plan investments are managed by Fidelity Trust Management Company. Fidelity Trust Management Company, is the custodian for the Plan and, therefore, these transactions qualify as party in interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their employer contributions.

Note 7. Income Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Plan Merger and Transfer Out

On January 1, 2017, ELM Enterprises 401(K) Plan merged into ELM Locating and Utility Services 401(k) Plan. ELM Enterprises 401K Plan transferred assets totaling approximately $1,394,000 into the Plan.

On November 1, 2017, ELM Energy, LLC, was sold and was no longer part of the controlled group and therefore the Plan assets totaling approximately $1,052,000 attributable to the ELM Energy LLC employee participant balances were transferred out of the Plan during December 2017 and January 2018.
