INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Trustee of
Garland Industries, Inc. Employee Stock Ownership Plan
and Trust
Cleveland, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of Garland Industries, Inc. Employee Stock Ownership Plan and Trust, which comprise the Statement of Net Assets Available for Benefits as of December 31, 2018 and 2017, and the related Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2018 and 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as December 31, 2018 and 2017, and the changes in net assets available for benefits of the Plan as of December 31, 2018 and 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year, as of December 31, 2018, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1 Description of Plan

The following description of Garland Industries, Inc. Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Garland Company established the Garland Industries, Inc. Employee Stock Ownership Plan and Trust in 1985. The Employers sponsoring the Plan are Garland Industries, Inc. (Garland or Company), The Garland Company, Inc., GMX, Inc., Innovative Metals Company, Inc. (Imetco), Garland Energy Systems, Inc., Design-Build Solutions, Inc., Ram Board, Inc., Urethane Polymers International, Inc., Surface Shields, Inc., Postle Industries, Inc., V2 Composites, Inc., MFM Building Products Corporation and effective in 2018, Trimaco, Inc., and Trimaco Key Plus, Inc.

The Plan originally operated as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is currently administered by three co-trustees appointed by the Company's Board of Directors. The Plan was restated in 2016 and most recently amended in 2018 for the addition of certain subsidiaries of the Company.

Generally, employees of the Company and its subsidiaries are eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon Plan termination, each participant's interest in the Plan will be distributed to such participant or beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Trustee will pay all liabilities and expenses of the Plan.

The Employee Stock Ownership Plan and Trust investments consist of Garland Industries, Inc. voting stock and other mutual fund investments that comprise the segregated investment account.

Contributions:

The Plan is funded by contributions made by the employer, either in cash, shares of Company stock, or in the form of other property. The employer's Board of Directors has discretion as to the amount of contributions to be made, provided that Company contributions must be of sufficient amount for the repayment by the Trust of indebtedness, incurred for the purpose of purchasing Company stock. Employee contributions to the Plan are not permitted.

1 Description of Plan, Continued

Participant Accounts:

Contributions made by the employer are allocated among the participants according to their relative considered compensation for the plan year. However, if the allocation system based on considered compensation for the plan year would result in discrimination in favor of highly compensated employees, then contributions will be allocated pro rata among participants based on their current annual compensation as reported on their respective W-2s. All investment earnings and/or losses are prorated among and added to (or deducted from) the individual accounts of the participants and beneficiaries.

Diversifications:

Each participant who has attained age fifty-five and completed ten years of participation in the Plan is permitted to diversify not more than 25% of their benefit. A participant who has either attained age sixty and who has attained fifteen years of participation, or attained age sixty-two and who has attained ten years of participation is eligible to make the election is permitted to diversify not more than 50% (reduced by amounts previously diversified). Participants are given the option to diversify their balance to another retirement plan. Participants are given the option to also distribute the amount to themselves. Diversifications for the years ended December 31, 2018 and 2017, were $5,849,661 and $3,835,419, respectively, and are recorded as distributions in the financial statements.

Vesting:

Vesting in the participant's account balance is based on years of service up to the date of termination of employment. A participant vests 20% at two years of service and 20% per year of service thereafter. Effective August 1, 2012, when a Participant reaches the normal retirement age of 57, the Participant's account shall be fully vested and non-forfeitable.

Forfeitures:

The non-vested portion of a terminated participant's account under the Plan shall constitute a forfeiture. Any such forfeiture shall be reallocated to the remaining participants in accordance with the Plan document.

1 Description of Plan, Continued

Distributions:

No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash.

Distributions to participants with account balances of $250,000 or more, who terminate employment after the "Normal Retirement Age", 57 years, or on account of death or disability shall be made in five substantially equal annual payments commencing in the Plan year following termination.

Distributions to participants with balances in excess of $250,000 who do not meet the requirements provided in the preceding paragraph shall be made in five substantially equal annual payments beginning three years after termination, or the first year after reaching the "Normal Retirement Age", whichever occurs sooner.

If a participant's balance exceeds $1,015,000, the five-year distribution period shall be extended one additional year for each $200,000, or fraction thereof, by which the account balance exceeds $1,015,000. However, the extended distribution period may not exceed three years. The foregoing dollar amounts were put into effect for 2012 and are adjusted annually to take into account changes in cost of living. The Company may also modify distribution adoptions in a non-discriminatory manner as provided in the Internal Revenue Code.

If a participant does not consent to the foregoing distribution schedule, then the Participant's vested interest will be transferred, in accordance with the schedule set forth above, into a segregated account set up for the participant.

A participant may also elect to roll a distribution into an IRA, a Roth IRA, or another qualified plan.

Parties-in-Interest:

Garland Industries, Inc. stock is held by the ESOP and is a party-in-interest to the Plan.

The Trust sold 14,727.85 (2018) and 10,022.21 (2017) shares to Garland Industries Inc. at $1,595 (2018) and $1,363 (2017) per share. Total sale of shares in dollars is $23,490,921 (2018) and $13,660,272 (2017).

In addition, the Plan has arrangements with various service providers and these arrangements qualify as party-in-interest.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's independent appraiser.

Purchases and sales of securities traded on an open exchange are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments purchased and sold and held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties:

The Plan's investment include investments in the Company stock and mutual funds with varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Benefit payments:

Distributions are recorded when paid**.**

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

The Plan has restated its distribution policy, effective January 1, 2019, which will take effect with respect to distributions made in 2019 and thereafter.

Subsequent events have been evaluated through July 24, 2019, which is the date the financial statements were available to be issued.

3 Tax Status

The Plan obtained its latest determination letter on January 16, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Administration of Plan Assets

The Plan's assets, which consist principally of Garland voting common shares and segregated accounts are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Company.

5 Investments

Plan investments are carried at fair market value and consist of voting common stock of Garland Industries, Inc. The fair market value per share of Garland's stock, as determined by an independent appraiser, was $1,595 and $1,363 at December 31, 2018 and 2017, respectively.

A summary of the Plan's investments in Garland Industries, Inc. stock is as follows:

	2018	2017
Number of Shares	**447,309.02**	462,036.87
Cost	**$ 17,724,816**	$ 18,308,413
Market Value	**$ 713,457,887**	$ 629,756,254

6 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

* Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

* Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

    * Quoted prices for similar assets or liabilities in active markets;
    * Quoted prices for identical assets or similar assets or liabilities in inactive markets;
    * Inputs other than quoted prices that are observable for the asset or liability;
    * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

* Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Employer Stock:

The fair value of the employer stock is based on a valuation determined by an independent appraiser. These instruments are classified within Level 2 of the valuation hierarchy.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices. These instruments are classified within Level 1 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.
