INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee and Participants
Tempo, Inc. Employee Stock Ownership Plan

We have audited the accompanying financial statements of the Tempo, Inc. Employee Stock Ownership Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2018 and 2017, and the changes in its net assets available for benefits for the then year ended December 31, 2018, in accordance with U.S. generally accepted accounting principles.

Other Matter – Supplemental Schedules

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Such information is the responsibility of the Plan's management, was derived from, and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN

General

Tempo, Inc. Employee Stock Ownership Plan (Plan) was established September 1998 for eligible employees of Tempo, Inc. (Company) and was amended and restated effective January 1, 2015. The Plan is an employee stock ownership plan covering substantially all employees of the Company as of their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following descriptions provide only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Contributions

Effective January 1, 2015 eligible employees are automatically enrolled with a contribution of 2% of compensation unless elected otherwise. The Company may make discretionary contributions at the option of the Company's board of directors. The employer discretionary contribution is made on an annual basis and may be made in cash, Company stock, or a combination of both. The employer discretionary contribution may be made as a fixed amount to each participant or in proportion to either base salary or compensation, at the discretion of the board of directors. The Company may make a matching contribution at the discretion of the board of directors to participants who contributed to the Plan during the year. The percentage of such matching contribution is at the discretion of the board of directors and will be applied at the ratio of the participant's contribution for the Plan year to the total of all participant contributions for the Plan year. The Company made discretionary matching contributions totaling $152,024 for the year ended December 31, 2018. Participant contributions, including any rollover contributions, totaled $548,730 for the year ended December 31, 2018.

Participant accounts

Separate accounts are established for each participant. Each participant's account is credited with the participant's contributions, the Company's contribution, and investment earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings, matching or account balances, as defined by the Plan. Certain administrative expenses may be charged directly to the participants' accounts incurring those expenses.

Vesting

Participants are vested immediately in their rollover balances, their contributions, and earnings thereon. Vesting in the Company's discretionary contribution portion of a participant's account and the earnings thereon is based on years of service. Participants are 100% vested in Company contributions after three years of service.

1. DESCRIPTION OF PLAN - continued

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to the participant's account and is notified by the Company prior to the time that such rights are to be exercised. The Company may vote any shares for which instructions have not been given by a participant. The Company may also vote any unallocated shares in accordance with the best judgment of the Company.

Forfeitures

Forfeitures are to be allocated as of December 31 each Plan year. Forfeitures will first be used to restore any previously forfeited amount to the employer contribution accounts of those participants entitled to restoration, second to pay administrative expenses of the Plan and third among the participants in proportion to their contributions to the total participant contributions to the Plan for that year.

Termination of the plan

While the Company has not expressed any intent to do so, it may terminate the Plan at any time. In the event the Plan is terminated, participants would become fully vested in their account balances, and net assets of the Plan would be distributed to participants in accordance with the provisions of the Plan.

Benefits paid to participants

Distribution of a participant's vested account balance is available upon the participant's retirement, death, disability, termination of employment, attainment of age 59 1/2 or for a financial hardship meeting the requirements of the Internal Revenue Code (IRC). In the event of death, disability, retirement or termination of employment, the Company has the option to require those participants with account balances of less than $1,000 to take lump-sum distributions. If a participant's vested account balance exceeds $5,000, the participant must consent to the distribution before it is made. If a participant's account balance exceeds $1,000, they may elect to rollover their vested account balance, to receive a lump-sum distribution, or to receive installments over a specified period of time. Distributions are made in cash or, if the participant elects, in the form of Company stock plus cash for any fractional shares of common stock.

The Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2018, the Company did not repurchase any shares from participants.

1. DESCRIPTION OF PLAN - continued

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Any fee or expense paid, directly or indirectly, by the Company is not considered a contribution to the Plan, provided the fee or the expense relates to the ordinary and necessary administration of the Plan.

Put option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitation, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company may pay for the purchase with additional interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash for their shares.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Estimates and assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities. Actual results could vary from the estimates used in preparing the accompanying financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Investment valuation and income recognition

The shares of Company common stock are valued at fair value. See Note 3 for discussion of fair value measurements. The Plan presents the net change in fair value of investments, which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in net assets available for benefits.

Purchases and sales of investments are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits paid to participants are recorded when paid.

Risks and uncertainties

The Plan provides for investments primarily in common stock of the Company. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events and date of management's review

Plan management has evaluated subsequent events through August 21, 2019, which was the date the financial statements were available to be issued, and concluded that no additional disclosures are required.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

3. FAIR VALUE MEASUREMENTS - continued

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Sponsor company common stock: The valuation process involves the selection of an appraiser which prepares a report of estimated fair market value per share that a participant will receive upon distribution. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The Plan's management, with the oversight of the Company's board of directors, reviews the report for consistency with the Company's expectation for future operating results. The Plan's investment in the sponsor company common stock is adjusted to its fair market value, as defined in the appraisal, as of the effective date of the appraisal. Valuation techniques include the income approach and the market approach, and rely on certain unobservable inputs. Unobservable inputs for the income approach include net cash flow, discount rate and weighted average cost of capital. Unobservable inputs for the market approach include comparable public companies, revenue and EBITDA multiples. At December 31, 2018 and 2017, the Plan administrator did not believe any adjustments to the fair value of the Company common stock as determined by a third-party appraiser were warranted.

.

3. FAIR VALUE MEASUREMENTS - continued

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Investment in plan sponsor common stock	$ -	$ -	$ 7,314,283	$ 7,314,283

Assets at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Investment in plan sponsor common stock	$ -	$ -	$ 6,800,268	$ 6,800,268

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2018:

Balance, beginning of year	$ 6,800,268
Shares purchased from sponsor	350,274
Shares contributed by sponsor	42,876
Unrealized appreciation	120,865
Balance, end of year	$ 7,314,283

4. NONPARTICIPANT-DIRECTED INVESTMENTS

Included in net assets available for benefits at December 31, 2018 and 2017 were nonparticipant-directed investments in Company stock totaling $7,314,283 and $6,800,268, respectively. During the year ended December 31, 2018, changes in net assets related to nonparticipant-directed investments included unrealized gains of $120,947.

5. TAX STATUS

The Plan obtained an opinion letter from the Internal Revenue Service (IRS) dated September 17, 2013, which states that the Plan document satisfies the applicable provisions of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's Annual Return/Report of Employee Benefit Plan is currently not subject to examination by the IRS for plan years 2014 and before.

6. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2018 and 2017, the Plan held 98,389 and 93,024 shares, respectively, of common stock of the Company, with a carrying value of $7,314,283 and $6,800,268, respectively. During the year ended December 31, 2018, the Plan purchased and contributed a total of 5,365 shares of common stock valued at $393,150. There were no sales of common stock during the year ended December 31, 2018.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017 to net assets available for benefits per Form 5500:
