EUCLID INSURANCE SERVICES, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN

The following description of the Euclid Insurance Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all eligible employees of Euclid Insurance Services, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Participants may elect to contribute pre-tax earnings up to current Internal Revenue Service ("IRS") regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees, except those governed by a collective bargaining agreement, are eligible to enter the Plan upon employment with the Company through June 30, 2014 and after sixty days of employment after July 1, 2014 and have attained age 21. Eligible employees can enter the Plan on the first day of the month coinciding with or next following the date the eligibility requirements are met. Participants may also contribute amounts representing distributions from other qualified retirement plans and Roth after-tax contributions. Effective January 1, 2015, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participant in the Plan. Automatically enrolled participants have their deferral rate set at 3% of compensation and their contributions invested in a designated balanced fund until changed by the participant. Effective July 1, 2018, the auto-enrollment deferral rate was increased to 6%. The Company may contribute a discretionary matching contribution to the Plan. The Company's discretionary matching contribution is calculated as a 50% match of the participant's salary reduction, up to 6% of their qualified compensation for all divisions except for Euclid Transactional. Euclid Transactional's matching contribution is calculated as a 100% match of the participant's salary reduction, up to 6% of their qualified compensation. This amount is allocated to participants' accounts each pay period. The Company elected to contribute the discretionary match for 2018. The Company may also contribute a discretionary profit sharing contribution. This amount is allocated to participants' accounts that have completed one year of service during the Plan year and are actively employed on the last day of the Plan year. The Company did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2018. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's elective contribution and allocations of the Company's discretionary match contribution, the Company's discretionary profit sharing contribution, and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their deferral contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of service.

NOTE A - DESCRIPTION OF PLAN (Continued)

VESTING (Continued)

Upon termination of employment for reasons other than by death, disability, or retirement, participants will receive the amount of their participant account valued at its fair market value.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their account a minimum loan of $1,000 and up to a maximum amount equal to the lessor of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement a participant or his beneficiary may elect to receive a single lump-sum payment equal to the value of the participant's vested interest. For termination of services for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum payment.

FORFEITED ACCOUNTS

At December 31, 2018 and 2017, forfeited non-vested totaled $24,605 and $20,804, respectively. Forfeitures may be used to reduce future employer contributions or pay plan expenses. There were no forfeitures used to offset employer contributions or pay plan expenses in 2018.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded.

PAYMENT OF BENEFITS

Benefit obligations are recorded when paid.

EXPENSES

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through August 8, 2019, the date which the financial statements were available to be issued.

NOTE C - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all assets will be liquidated and paid to participants.

NOTE D - TAX STATUS

The Plan is a non-standardized prototype plan sponsored by Voya Retirement Insurance and Annuity Company that has been adopted by the Company. The non-standardized prototype plan obtained its latest opinion letter on September 30, 2014, by which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Federal or Illinois taxing jurisdictions. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE E – CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Institutional Trust Company (the trustee and custodian of the Plan).

NOTE F - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE F - FAIR VALUE MEASUREMENTS (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Investment contract with insurance contract: Valued at fair value by discounting the related cash flows on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. According to the Plan custodian, the fair value of the Plan's guaranteed investment contracts approximate the contract value as of the end of the year.

Registered investment companies: Valued at the net asset value (NAV) of shares, which are based on quoted market prices, held by the Plan as of the end of the year.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 11,591,931	$ -	$ -	$ 11,591,931
Contract with insurance company	-	527,333	-	527,333
	$ 11,591,931	$ 527,333	$ -	$ 12,119,264

NOTE F - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 11,198,371	$ -	$ -	$ 11,198,371
Contract with insurance company	-	642,735	-	642,735
	$ 11,198,371	$ 642,735	$ -	$ 11,841,106

NOTE G – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into an investment contract with Voya Retirement Insurance and Annuity Company (Voya). The investment contract is not considered benefit-responsive. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment subject to certain restrictions. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. The minimum interest rate is 1.00% and the interest rate guaranteed not to drop below 1.00% for the life of the contract.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Voya Institutional Trust Company, the record-keeper, trustee and custodian for the Plan and therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules of ERISA.

NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN

The following description of the Euclid Insurance Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all eligible employees of Euclid Insurance Services, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Participants may elect to contribute pre-tax earnings up to current Internal Revenue Service ("IRS") regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees, except those governed by a collective bargaining agreement, are eligible to enter the Plan upon employment with the Company through June 30, 2014 and after sixty days of employment after July 1, 2014 and have attained age 21. Eligible employees can enter the Plan on the first day of the month coinciding with or next following the date the eligibility requirements are met. Participants may also contribute amounts representing distributions from other qualified retirement plans and Roth after-tax contributions. Effective January 1, 2015, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participant in the Plan. Automatically enrolled participants have their deferral rate set at 3% of compensation and their contributions invested in a designated balanced fund until changed by the participant. Effective July 1, 2018, the auto-enrollment deferral rate was increased to 6%. The Company may contribute a discretionary matching contribution to the Plan. The Company's discretionary matching contribution is calculated as a 50% match of the participant's salary reduction, up to 6% of their qualified compensation for all divisions except for Euclid Transactional. Euclid Transactional's matching contribution is calculated as a 100% match of the participant's salary reduction, up to 6% of their qualified compensation. This amount is allocated to participants' accounts each pay period. The Company elected to contribute the discretionary match for 2018. The Company may also contribute a discretionary profit sharing contribution. This amount is allocated to participants' accounts that have completed one year of service during the Plan year and are actively employed on the last day of the Plan year. The Company did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2018. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's elective contribution and allocations of the Company's discretionary match contribution, the Company's discretionary profit sharing contribution, and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their deferral contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of service.

NOTE A - DESCRIPTION OF PLAN (Continued)

VESTING (Continued)

Upon termination of employment for reasons other than by death, disability, or retirement, participants will receive the amount of their participant account valued at its fair market value.

Principal and interest is paid ratably through payroll deductions.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement a participant or his beneficiary may elect to receive a single lump-sum payment equal to the value of the participant's vested interest. For termination of services for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum payment.

The Plan has evaluated subsequent events through August 8, 2019, the date which the financial statements were available to be issued.

NOTE C - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all assets will be liquidated and paid to participants.

NOTE D - TAX STATUS

The Plan is a non-standardized prototype plan sponsored by Voya Retirement Insurance and Annuity Company that has been adopted by the Company. The non-standardized prototype plan obtained its latest opinion letter on September 30, 2014, by which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Federal or Illinois taxing jurisdictions. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE E – CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Institutional Trust Company (the trustee and custodian of the Plan).

NOTE F - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE F - FAIR VALUE MEASUREMENTS (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Investment contract with insurance contract: Valued at fair value by discounting the related cash flows on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. According to the Plan custodian, the fair value of the Plan's guaranteed investment contracts approximate the contract value as of the end of the year.

Registered investment companies: Valued at the net asset value (NAV) of shares, which are based on quoted market prices, held by the Plan as of the end of the year.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 11,591,931	$ -	$ -	$ 11,591,931
Contract with insurance company	-	527,333	-	527,333
	$ 11,591,931	$ 527,333	$ -	$ 12,119,264

NOTE F - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total

Contract with insurance company	-	642,735	-	642,735

NOTE G – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into an investment contract with Voya Retirement Insurance and Annuity Company (Voya). The investment contract is not considered benefit-responsive. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment subject to certain restrictions. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. The minimum interest rate is 1.00% and the interest rate guaranteed not to drop below 1.00% for the life of the contract.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Voya Institutional Trust Company, the record-keeper, trustee and custodian for the Plan and therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules of ERISA.
