INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Shearer Farm, Inc. 401(k) Plan (the Plan), which comprise the statement of net assets available for benefits – liquidation basis as of December 31, 2018, the statement of changes in net assets available for benefits – liquidation basis for the year ended December 31, 2018, the statement of net assets available for benefits – modified cash basis as of December 31, 2017, the related statement of changes in net assets available for benefits - modified cash basis for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Plan management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Sentry Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2018 and 2017, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

As discussed in Note 1 to the financial statements, the governing body of Shearer Farm, Inc. 401(k) Plan approved a plan liquidation effective February 28, 2019, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern modified cash basis used in presenting the 2017 financial statements to the liquidation basis used in presenting the 2018 financial statements. Our opinion is not modified with respect to this matter.

Other Matter - Supplemental Schedule

The supplemental schedule of assets (held at end of year) as of December 31, 2018, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SHEARER FARM, INC. 401(k) PLAN

Notes to the Financial Statements

Note 1 – Description of Plan

The following description of the Shearer Farm, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) retirement plan, which was formed for the purposes of providing retirement benefits to eligible, nonunion employees of Shearer Farm, Inc. (the Company). Employees become eligible to participate in the Plan upon reaching age 18 and completing one year of service in which they have been credited with at least 1,000 hours, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan administrator is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Termination of Plan

On February 25, 2019, the Company's Board of Director's formally approved the termination of the Plan, effective February 28, 2019, and participants became 100% vested in their accounts. The Plan's net assets began being distributed to participants in May 2019, with all assets expected to be distributed by July 2019.

Contributions

Each year participants may elect to contribute up to 100% of their pre-tax annual compensation, or make Roth contributions, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated target date fund until changed by the participant. The Company may, at its discretion, authorize profit sharing contributions for the related year. These contributions are funded in the year subsequent to their authorization. Allocations of the Company's profit sharing contribution are given only to participants employed at the end of the Plan year who have completed at least 500 hours of service during the Plan year, and are based on participants' compensation for the Plan year relating to the contribution. No profit sharing contributions were authorized related to the 2018 Plan year. Profit sharing contributions authorized for the 2017 Plan year and funded in 2018 were \$50,754. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

SHEARER FARM, INC. 401(k) PLAN

Notes to the Financial Statements

Note 1 – Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Investment Options

Participants may direct the investment of their contributions into any of several investment options with varying degrees of risk and volatility, allowing participants to allocate their investments in accordance with their own risk tolerances and time horizons. Participants may change their investment options at any time.

Vesting

Prior to the termination of the Plan, participants were immediately vested in their contributions plus actual earnings thereon and vesting in the Company's discretionary profit sharing contributions was based on completion of at least 500 hours of service within a plan year. A participant was 100% vested after 6 years of credited service. Upon termination of the Plan, participants were immediately 100% vested in all employee and Company contributions plus actual earnings or losses thereon.

Payment of Benefits

Prior to the termination of the Plan, upon termination of service due to death, disability, retirement, attainment of age 65, or termination for other reasons, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installments over a future period, or an annuity, as defined. Distributions of a participant's 401(k) account balance could be authorized at any time by the plan administrator under certain hardship conditions. Effective upon termination of the Plan, participants will receive a lump-sum distribution equal to his or her account balance.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce administrative expenses or to reduce future employer contributions. At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$5,991 and \$6,969, respectively. During 2018 and 2017, \$5,300 and \$4,046, respectively, were used to reduce employer contributions or administrative expenses.

SHEARER FARM, INC. 401(k) PLAN

Notes to the Financial Statements

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

During 2017, the financial statements were prepared using the modified cash basis method of accounting. The modified cash basis differs from accounting principles generally accepted in the United States of America because income and expenses are recognized only as cash is received or paid and receivables, payables, and accrued expenses are not recorded.

Due to the decision to terminate the Plan effective February 28, 2019, management determined that liquidation of the Plan is imminent and accordingly, the financial statements for 2018 have been prepared using the liquidation basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2018, contract value approximates fair value.

Use of Estimates

The preparation of the 2018 and 2017 financial statements in accordance with the liquidation and ongoing modified cash basis of accounting, respectively, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as received. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

SHEARER FARM, INC. 401(k) PLAN

Notes to the Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Certain administrative costs incurred by the Plan are paid directly by the Company and are excluded from these financial statements. Certain fees related to distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net (depreciation) appreciation in fair value of investments.

Subsequent Events

Plan management has evaluated subsequent events through July 24, 2019, the date the financial statements were available to be issued.

Note 3 – Information Prepared and Certified by Sentry Life Insurance Company

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and net (depreciation) appreciation in fair value of investments, and interest, for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Sentry Life Insurance Company, the trustee of the Plan.

Note 4 - Fair Value Measurements

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

SHEARER FARM, INC. 401(k) PLAN

Notes to the Financial Statements

Note 4 - Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies used at December 31, 2018 and 2017.

Pooled separate accounts: Valued at the net asset value (NAV) per unit based on quoted market prices of the underlying investments. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the account.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value at December 31, 2018 and 2017, are comprised of pooled separate accounts measured using NAV as a practical expedient totaling \$3,654,059 and \$3,651,932, respectively.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances the transfer is reported at the beginning of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2018 and 2017, there were no transfers in or out of Level 3.

Note 5 - Guaranteed Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with Sentry Life Insurance Company. Sentry Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula established by the issuer, but may not be less than 2.5% for the year ended December 31, 2018. Such interest rates are reviewed on an annual basis for resetting.

The guaranteed investment contract met the fully benefit-responsive investment contract criteria and, therefore, was reported at contract value. Contract value was the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under terms of the Plan.

SHEARER FARM, INC. 401(k) PLAN

Notes to the Financial Statements

Note 5 – Guaranteed Investment Contract with Insurance Company (Continued)

Contract value, as reported to the Plan by Sentry Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. As of February 28, 2019, the contract was terminated as a result of plan termination and amounts are being distributed to participants.

Note 6 - Related Party and Party-In-Interest Transactions

Certain Plan investments are managed by Sentry Life Insurance Company. Sentry Life Insurance Company is the trustee and recordkeeper as defined by the Plan and, therefore, such transactions and associated administrative expenses qualify as party-in-interest transactions.

Note 7 - Tax Status

Sentry Life Insurance Company, sponsor of the prototype non-standardized profit sharing plan with CODA, has obtained an opinion letter dated March 31, 2014, in which the IRS stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The plan sponsor adopted this restated prototype plan document on January 1, 2015. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt. In accordance with the liquidation basis of accounting, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of changes in net assets available for benefits.

As of December 31, 2018, the Plan held \$3,944,101 in investments with Sentry Life Insurance Company, which represented 100% of total investments. Therefore, net assets available for benefits are particularly sensitive to changes related to these investments.
