Note 1 - Description of plan

The following description of the Simmons Rockwell Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code and has a Section 401(k) salary deferral arrangement. All assets acquired under the Plan are the result of employee and employer contributions thereto and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - The Plan covers all employees of the Simmons-Rockwell Automotive Group (collectively referred to as the "Company") who have six months of service and are eighteen years of age or older.

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code. Participants are allowed to make rollover contributions to the Plan.

The Company may contribute a discretionary matching contribution for each participant equal to a percentage of the participant's elective contributions, which will be determined each year by the Company. All active and terminated participants employed during the plan year are eligible for the discretionary matching contribution. The Company can also contribute, for each participant, a discretionary profit sharing contribution, which will be determined by the Company. All active participants employed on the last day of the plan year are eligible for discretionary profit sharing contributions. However, participants that were terminated during the plan year are eligible for discretionary profit sharing contributions if they completed more than 501 hours of service. There was no discretionary matching or profit sharing contributions for the years ended December 31, 2018 and 2017.

Participant accounts - Each participant's account is credited with the participant's elective salary deferral contribution, the Company's discretionary matching contributions and an allocation of the Company's discretionary profit-sharing contribution, forfeitures of terminated participants' non-vested amounts and plan earnings. Allocation of participant elective deferrals, the Company's discretionary contributions and forfeitures are based on compensation; allocation of plan earnings are based on participant account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants can access their account information via Fidelity's website where they have the ability to change their elective deferrals and investment options as well as apply for participant notes receivable and request distributions.

Vesting - Participants are immediately 100% vested in their elective salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. A participant is 100% vested in any employer discretionary contributions after six years of credited service. There were no forfeited non-vested amounts of terminated participants as of December 31, 2018 and 2017.

Investment options - Upon enrollment in the Plan, a participant may direct any portion of their contribution to any of the Plan's investment options. Participants may change their investment options online daily.

Payment of benefits - Upon termination of service due to retirement, disability or death, participants or beneficiaries will be entitled to 100% of their account balance. Upon termination of employment for reasons other than those listed above, participants will be entitled to receive only the vested value of their account balance. Upon any termination of service, a participant or beneficiary will receive a lump-sum distribution to be paid out as soon as practicable following termination of service.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The note will bear a reasonable rate of interest, similar to that which a bank or other professional lender would charge for making a similar note. Interest rates range from 4.25% to 6.25%. The note will be repaid through weekly payroll deductions; however, in no instance may the terms of the repayment be greater than five years, unless the note is used to acquire a personal residence. The note is secured by up to one-half of the vested balance in the participant's account. According to requirements of the program, the plan administrator will consider a note in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment. Any notes that are in default as defined by the plan document are reported as either deemed distributions or benefit payments.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on loans for participants who are actively participating in the Plan and have not continued to make payments on the outstanding loans as required under the participant loan program. There were no deemed distributions for the years ended December 31, 2018 and 2017.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their account balances.

Note 2 - Summary of significant accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment securities in any combination of mutual funds and money market funds. Investment securities are exposed to various risks, such as interest rate, market and credit. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Valuation of investments and income recognition - Investments are stated at fair market value (see Note 7). All fair market values have been determined and certified by Fidelity Management Trust Company, the Trustee of the Plan (see Note 4). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments include the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed forty-five days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible notes receivable from participants become material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance.

Payment of benefits - Benefits are recorded when paid.

Excess contributions payable - Excess contributions payable represent excess employee salary deferral contributions and excess employer matching contributions owed to certain participants in order to satisfy the relevant nondiscrimination provisions of the Plan. The excess contributions payable ("corrective distributions") are returned to the effected participants subsequent to year end, including net of any investment earnings thereon (see Note 8). Corrective distributions amount to $13,107 for the year ended December 31, 2018. There were no corrective distributions for the year ended December 31, 2017.

Economic dependency and concentration of credit risk - Approximately 75% and 78% of the Plan's investments are invested with American Funds at December 31, 2018 and 2017, respectively. Accordingly, the Plan is dependent upon the financial condition of American Funds.

Administrative costs - Administrative costs, including maintaining participant accounts, legal and accounting costs are the obligation of the Plan; however, the plan sponsor has paid or has reimbursed the Plan for such expenses. Costs of managing the investments are paid directly out of the Plan's assets (see Note 6).

Subsequent events - Effective January 1, 2019, the Plan was amended and restated to adopt Automatic Data Processing's Defined Contribution Plan Adoption Agreement #003 Volume Submitter 401(k) Profit Sharing Plan. Management has evaluated subsequent events through August 23, 2019, the date that the financial statements were available for issue.

Note 3 - Plan amendments

Effective April 1, 2018, the Plan was amended to revise the claims procedures for employee benefit plans providing disabilities benefits to bring language in line with revisions to Section 503 of ERISA.

Note 4 - Information certified by the Plan's Trustees

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company has certified that the investments and investment income included in the accompanying financial statements as of and for the years ended December 31, 2018 and 2017, and supplemental schedule as of December 31, 2018, are complete and accurate. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5 - Tax status of the Plan

The Company has adopted a Fidelity Volume Submitter Plan, Adoption Agreement No. 001, with Fidelity Basic Plan Document No. 17. The Internal Revenue Service has ruled that the standardized prototype plan of Fidelity is acceptable under Section 401 of the Internal Revenue Code. The management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as tax-exempt.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the years ended December 31, 2018 or 2017. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2015.

Note 6 - Related party transactions

Certain plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee for the Plan and; therefore, these transactions qualify as exempt party-in-interest transactions. Investment fees paid by the Plan for investment management services were included in the net appreciation (depreciation) in fair value of investments on the accompanying statements of changes in net assets available for benefits. In addition, Fidelity Management Trust Company provides third party administrative services and investment custody services to the Plan, both of which are paid by the Plan. Fees paid by the Plan for these services were $7,144 and $8,381 for the years ended December 31, 2018 and 2017, respectively.

Note 7 - Fair value measurements

The Financial Accounting Standards Board has published authoritative guidance on fair value measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies (i.e. Mutual Funds) - The Investment portfolios consist of mutual funds, which are valued at the closing price reported on the active market on which the individual security is traded (Level 1).

Money Market Fund - The fund invests in cash and various government-backed securities that are collateralized fully. The fund seeks to maintain a stable $1.00 per share price by investing in high quality money market obligations maturing in one year or less (Level 2). There were no unfunded commitments or redemption restrictions on this investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies used at December 31, 2018 and 2017.

The following table sets forth by Level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 8,167,206	$ -	$ -	$ 8,167,206

Corrective distributions are recorded on Form 5500 in the plan year that they are paid, net of any investment earnings. The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2018:

Net assets available for benefits per the financial statements	$ 9,046,922
