RETIREMENT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

1. DESCRIPTION OF PLAN

The following description of the Shaw Industries Group, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the official Plan document for complete information.

General

The Plan was adopted by the Board of Directors of Shaw Industries Group, Inc. (the Plan Sponsor or the Company) effective April 1, 1986. The Plan was formed under Sections 401(a) and 401(k) of the Internal Revenue Code (IRC) as a defined contribution, tax-exempt profit-sharing/savings plan. All employees of the Company with the exception of leased employees, nonresident aliens and employees covered under a collective bargaining agreement are eligible to participate in the Plan. Eligible employees may elect to make tax-deferred contributions to the Plan and the Company matches these employee contributions on a percentage basis. Employees become eligible to participate in the Plan after three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Delaware Charter Guarantee & Trust Company, doing business as Principal Trust Company (Principal), is the trustee and Principal Life Insurance Company Retirement Plan Processing Services is the recordkeeper for the Plan. Prudential Insurance Company of America (Prudential) is the custodian and investment manager for the Shaw Stable Value Fund (the Stable Value Fund).

Effective January 2018, assets totaling \$6,619,765 were transferred to the Plan representing all of the assets and notes receivable from participants held in the USFloors, Inc. 401(k) Plan.

Contributions

A participant may defer up to 50% of his or her annual salary, subject to certain IRC limits on pretax deferrals. The Company match is equal to 50% of the employee contribution not-to-exceed 6% of employee's annual compensation earned. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Any eligible employee hired, other than a former employee rehired by the Company, who has completed the eligibility requirements of the Plan and who fails to make an affirmative election whether to participate in the Plan will be automatically enrolled in the Plan and an election of 6% of the employee's annual compensation will be contributed to the Plan.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of Plan earnings, and is charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings (losses) or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**SHAW INDUSTRIES GROUP, INC.
RETIREMENT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

1. DESCRIPTION OF PLAN – CONTINUED

Investments

Participant contributions are deducted from payroll and, as directed by the participants, are deposited in any combination of several investment options offered by the Plan as long as the allocations to each of the options are in 1% increments. The Company's matching contributions are directed in the same manner as the participant's contribution. The Plan currently offers mutual funds, common collective trust funds, pooled separate accounts offered under a group annuity contract and one stable value fund as investment options for participants.

Notes Receivable from Participants

Participants may not borrow from their fund accounts; however, the loans reflected in the financial statements represent loans transferred from plans that were merged in the Plan. The loans are collateralized by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the time funds were borrowed, Principal and interest are paid ratable through payroll deductions.

Vesting and Benefit Distribution

Participants are 100% vested and have nonforfeitable interests in their contributions and subsequent investment growth. Participants become 100% vested in the Company's matching contributions after completion of three years of service. Employees are fully vested upon attainment of age 65 or in the event of death or permanent disability. Upon retirement at age 65, early retirement at age 62, termination of employment, death, or permanent disability, the balance in the participant's account may remain in the Plan or will either be paid to the participant or his/her designated beneficiary or rolled over to another service provider. Benefit payments are made in a lump sum with the exception of age 70 1/2 minimum distributions which can be taken in a lump sum or installment payments. The Plan has established provisions for participants to make withdrawals from their accounts under certain "hardship" conditions, if approved by the Plan administrator, and for in-service withdrawals by participants who have reached the age of 59-1/2. The Plan allows participants to take partial withdrawals from their vested account following their termination of employment.

Administrative Expenses

Administrative expenses include mutual fund redemption fees, hardship and Qualified Domestic Relations Order (QDRO) distribution fees that are paid directly from the participant's account that initiates the transaction. Substantially all other administrative costs of the Plan are paid by the Plan through a plan expense agreement with Principal.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts were immaterial.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's investments include mutual funds, common collective trust funds, pooled separate accounts, and a stable value fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances, and the amounts reported in the financial statements.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants are recorded when it is earned. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses have been recorded as of December 31, 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Mutual funds: Valued based on quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Pooled separate accounts (offered under a group annuity contract) and *common collective trust funds:* Valued at NAV as determined by the issuer based on the fair market value of the underlying investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

The Stable Value Fund includes a synthetic guaranteed investment contract (GIC) issued by Prudential. The synthetic GIC holds a portfolio of units of a common collective trust fund held in the name of the Plan. The synthetic GIC or wrap contracts have features that provide for variable interest crediting rates which are credited to the contract value of the contracts' underlying holdings. The contract value of the Stable Value Fund represents contributions made under the contract, plus interest earned at the crediting interest rate, less participant withdrawals and fees.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments includes both realized and unrealized gains and losses on investments.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefits are recorded when paid.

3. FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the Financial Standards Accounting Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

3. FAIR VALUE MEASUREMENT – CONTINUED

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. There were no Level 2 or 3 investments.

Fair Value Measurements as of December 31, 2018 and 2017

Investments, at fair value:	2018	2017
Mutual Funds – Level 1	\$ 245,365,868	\$ 165,231,418

Total investments, at fair value	\$ 956,854,385	\$ 1,021,455,551

^(a)In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

5. SYNTHETIC GUARANTEED INVESTMENT CONTRACT

The Plan holds an investment in a Synthetic Guaranteed Investment Contracts (GICs) with Prudential as part of the Stable Value Fund (the Fund). A Synthetic GIC simulates the performance of a GIC through an issuer's guarantee of a specific interest rate (the wrapper contract) and a portfolio of financial instruments that are owned by the Plan. This synthetic GIC includes underlying investments in a common collective trust fund that is held in trust and owned by the Plan. This contract meets the fully benefit-responsive investment contract criteria and; therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Although Plan management believes such events are not probable, the contract has certain restrictions that may impact the ability to collect the full contract value; for example, a request by the fund manager to terminate or partially terminate the contracts at market values, termination of the trust, the replacement of the trustee without the consent of the wrapper provider, breach of contract by a counterparty, or legal or regulatory events, such as an adverse ruling by a regulatory agency.

5. SYNTHETIC GUARANTEED INVESTMENT CONTRACT – CONTINUED

The issuer is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer. The wrapper agreements generally provide that the crediting rate will not be below 0%. Such interest rates are reviewed on a quarterly basis for resetting. The wrapper contract provides that realized and unrealized gains and losses on the underlying fixed-income portfolio are not reflected immediately in the net assets of the fund, but rather are amortized over the duration of the underlying assets through adjustments to the future interest-crediting rate. Primary variables impacting future crediting rates of the Fund include the current yield, duration, and existing difference between market and contract value of the underlying assets within the wrap contract.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated November 30, 2017, that the Plan and related trust were designed in accordance with applicable regulations of the IRC. The Plan has been amended since receiving the determination letter. The Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, including the IRS. The Plan is not currently under IRS examinations for any Plan years.

8. PARTY-IN-INTEREST TRANSACTIONS

During 2018 and 2017, the Plan held investments which were units of collective trust funds and pooled separate accounts managed by Principal, Plan trustee, and Prudential, custodian of the Stable Value Fund, therefore these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund. Administrative fees paid directly to Principal were \$1,263,706 in 2018.

9. SUBSEQUENT EVENTS

Effective January 2019, the Sponsor amended the Plan to allow participants to make Roth contributions, Roth rollover contributions and Roth in-plan conversions and to increase the Company match from 50% of the employee contribution not-to-exceed 6% of employee's annual compensation to 50% of the employee contribution not-to-exceed 8% of employee's annual compensation. Effective February 1, 2019, the Plan was amended to permit Tricycle, Inc. (Tricycle) to adopt the Plan as an affiliate and allow each Tricycle employee who participated in the Tricycle, Inc. 401(k) Retirement Savings Plan (the Tricycle Plan) service credit under the Plan. Effective April 1, 2019, the Plan was amended to merge the Tricycle Plan into the Plan.

Management has evaluated subsequent events through August 23, 2019, which is the date the financial statements were available to be issued, and have determined that except as noted above there are no additional subsequent events that require disclosure under FASB ASC Topic 855, *Subsequent Events*.
