General

The Plan was a defined contribution plan covering all regular full-time and part-time employees of Kaydon Corporation and its subsidiaries and affiliates (the "Company"), who were age eighteen or older, excluding non-resident aliens, leased employees, interns, and co-op student employees ("eligible employees"). Temporary employees must have completed 1,000 hours of service and be age 21 or older to have been eligible for the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On September 25, 2013, the Company entered into an Agreement and Plan of Merger with Atlas Management, Inc. ("Parent") and Dublin Acquisition Sub Inc. ("Merger Sub"), providing for, among other things, the merger of Merger Sub with and into the Company (the "Merger"), with the Company continuing as the surviving corporation and a direct wholly-owned subsidiary of Parent. Parent is a wholly owned subsidiary of SKF USA Inc. ("SKF"). The Merger became effective on October 16, 2013, pursuant to the Certificate of Merger filed with the Secretary of State of the State of Delaware, and SKF became the Plan Sponsor.

As a result of the Merger, the Company terminated all offerings of its shares of common stock pursuant to its existing registration statement under the Securities Act of 1933, as amended. The shares of common stock held by the Plan on October 16, 2013, were converted automatically into the right to receive an amount in cash equal to the fair value. The proceeds of the sale of such shares were allocated to the account of the participant or beneficiary that held such shares. The proceeds were invested in the Plan's qualified default investment alternative, which is the age appropriate lifecycle fund, after which it was subject to the participant's or beneficiary's further direction to invest such amounts in the other funds available for investment in the Plan. The Plan was amended effective October 16, 2013 to remove Company common stock as an investment option of the Plan.

Effective January 1, 2015, the Plan was restated as an individually-designed plan.

The Plan was merged as of December 31, 2016 into SKF USA Inc. Pre-Tax Accumulation of Capital for Employees Plan Single Plan A (the "SKF Plan A") and the SKF USA Inc. Pre-tax Accumulation of Capital for Employees Plan Single Plan B (the "SKF Plan B"). The total transfer out to the SKF Plan A was \$44,739,276 and the total transfer out to the SKF Plan B was \$8,566,836.

Contributions

Each year, participants could authorize the Company to make tax deferred elective contributions on their behalf of not less than 1 percent nor more than 50 percent of their compensation, subject to the maximum limitations established by the Internal Revenue Code ("IRC"). Certain eligible employees, who do not affirmatively elect to participate in the Plan, were automatically enrolled in the Plan. Participants, who were automatically enrolled in the Plan, contributed 3 percent of their salary to the Plan with their contributions being automatically invested in the age appropriate life cycle fund until and unless the participant elects an alternative contribution rate and/or investment options. Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participant contributions to the Plan were recorded in the period that payroll deductions were made from participants.

The Company could make discretionary matching contributions to the Plan. During 2016, the Company contributed a discretionary matching contribution on participant elective contributions, excluding catch-up contributions available to participants 50 years of age or older, equal to:

- 25 percent of elective contributions to eligible employees at Indiana Precision, Inc. and Tridan International, Inc. based on compensation earned during all of 2016.
- 100 percent of elective contributions each payroll period, to a maximum of 3 percent of compensation, to all other eligible employees who were not already benefiting from a Company funded retirement benefit. Employees eligible for this match included:

Employees last hired on or after November 1, 2010 by Industrial Tectonics, Inc. and included in the collective bargaining unit represented by the International Union Automobile, Aerospace and Agricultural Implement Workers of America, UAW, Local #38, based on compensation earned during all of 2015.

Employees last hired on or after December 5, 2009 by Kaydon Corporation and included in the collective bargaining unit represented by the International Association of Machinists and Aerospace Workers, AFL-CIO, Local Lodge #2597, based on compensation earned during all of 2016.

Employees based on compensation earned during all of 2016, and employed by:

- ACE Controls, Inc.
- Avon Bearings Corporation

Employees last hired on or after March 15, 2009, based on compensation earned during all of 2016, and employed by:

- Kaydon Corporation
- Industrial Tectonics, Inc.

Notes to Financial Statements
December 31, 2016 and 2015

Employees last hired on or after September 4, 2012 by Fabreeka International, Inc. or Tech Products Corporation, based on compensation earned during all of 2016.

The Company could also make discretionary non-elective contributions to the Plan. Eligible participants must have been employed on the last day of the Plan year and had worked more than 1,000 hours in the Plan year to be eligible for non-elective contributions, unless the eligible participants died, retired or became disabled during the year. The Company did not make discretionary non-elective contributions for the years ended December 31, 2016 or 2015.

Participants directed the investment of all contributions into various investment options offered by the Plan. Contributions were subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account was credited with the participant's contributions and allocations of the Company's discretionary contribution and the Plan's earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Company discretionary contributions vested over a six-year period: 10 percent after one year, 20 percent after two years, and 20 percent for each additional year to a maximum of 100 percent. Employees hired prior to June 1, 2010, who participated in Avon Bearings Corporation 401(k) Profit Sharing Plans, vested in their Company discretionary contributions using a 5-year graded schedule. A participant who terminated employment due to death, disability, or normal retirement was 100 percent vested in any Company contributions.

Notes Receivable from Participants

Participants could have borrowed from their fund accounts a minimum of \$1,000 up to a maximum of 50 percent of the participant's vested account balance (not to exceed \$50,000, or such lesser amount as required by the IRC). The loan was secured by the balance in the participant's account and bore interest at the prime rate plus 1 percent. Principal and interest was paid ratably through payroll deductions. Terms ranged from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

The payment of benefits date, unless postponed by the participant (or beneficiary in the case of a participant's death), must be not later than sixty days after the end of the plan year in which the participant attains age 65, retires, terminates or dies, contingent upon completion of the required distribution paperwork.

Distributions for terminated and retired participants could be deferred until April 1 following the date the participant reaches the age of 70½ if the value of the distribution exceeds \$1,000. Active participants could continue to contribute into the Plan as long as they were employed by the Company. In addition, in certain hardship situations or upon attainment of age 59½, participants could withdraw a portion of their account balance while actively employed.

Forfeited Accounts

At December 31, 2015, forfeited non-vested accounts totaled \$57,646. In 2016, Company discretionary contributions were reduced by \$169,857 from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Committee determined the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees were recorded as administrative expenses and were expensed when incurred. Interest income was recorded on the accrual basis. No allowance for credit losses were recorded as of December 31, 2015.

Expenses

Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses were included in net appreciation (depreciation) of fair value of investments.

Payment of Benefits

Benefits were recorded when paid.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Notes to Financial Statements
December 31, 2016 and 2015

The following was a description of the valuation methodologies used for assets measured at fair value.

Mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the plan were open-end mutual funds that were registered with the U.S. Securities and Exchange Commission. These funds were required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015:

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 64,451,474	\$ -	\$ -	\$ 64,451,474

4. Related Party and Party In Interest Transactions

Certain of the Plan's investments were managed by Fidelity Management Trust Company, and therefore, these transactions qualified as party in interest transactions. Fees incurred by the Plan for investment manager services are included in net appreciation (depreciation) in the fair value of the investment, as they were paid through revenue sharing, rather than a direct payment. Additionally, the Plan issued loans to participants, which were secured by the participant's account balances. These transactions qualified as party in interest transactions.

Certain administrative functions of the Plan were performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

5. Plan Termination

Although it has not expressed the intention to do so, the Company had the right under the Plan to terminate the Plan subject to the provisions of ERISA. As described in Note 1, the Plan was merged into other defined contribution plans sponsored by SKF effective December 31, 2016.

6. Tax Status

The IRS has determined and informed the Company by a letter dated April 28, 2017, that the Plan and related trust was designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan was designed and was operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan was qualified and the related trust was tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risk and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits at December 31, 2015.

As of December 31, 2015, the Plan had investments of \$28,838,881 that were concentrated in three funds.

8. Administration of Plan Assets

The Plan's assets were administered under a contract with Fidelity Management Trust Company, the trustee of the Plan. The trustee invested funds received from contributions, investment sales, interest and dividend income and makes distribution payments to participants.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2016 and 2015. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all assets reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2016 and 2015 and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2016 and 2015.

10. Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 12, 2017, the date the financial statements were available to be issued.
