Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions per the limits set forth in the Internal Revenue Code.

Employers' Contributions. The Employers may make matching contributions on a discretionary basis, as determined annually by the Employers. During 2018, the Employers matched $0.25 for every $1.00 up to the first 13% of salary a participant contributed to the plan. During 2018, the Employers contributed total matching contributions of $65,706, of which $2,518 is receivable from the Employers at December 31, 2018. In addition, the Employers may make a discretionary non-matching contribution to the plan on behalf of eligible participants. In 2018, the Employers did not make a discretionary non-matching contribution.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Employers' contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employers' discretionary matching contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in these contributions after six years of credited service.

Years of Service	Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Investment Options. The Plan provides participants with twenty-seven investment options, all of which have funds invested. Plan participants may access their investments online and are allowed to change their investment options at any time.

Note 1 – Description of Plan (Continued)

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Note transactions are considered a directed investment from the participant's account under the Plan. The notes are secured by the balance in the participant's account and bear interest at rates available for similar notes from commercial lending institutions as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions and applied to interest and then principal according to a payment schedule.

Payment of Benefits. Participants are able to request a distribution of their salary deferral amounts in the event of financial hardship as defined by the Plan only after they have received all other withdrawals or notes available under the Plan. The amounts of the distribution are limited to the amount needed to meet immediate financial hardship and participants are prohibited from making salary deferrals to the plan for a six-month period following the hardship distribution. The Plan allows withdrawals of both salary deferrals and employer matching amounts.

Benefits are payable to a participant or the participant's designated beneficiary upon the participant's termination or retirement from the Employers or disability or death. Benefits may be payable as lump sum distributions or in installments.

Forfeited Accounts. Forfeitures of non-vested Employers' contributions are used to reduce future Employers' contributions and pay administrative expenses. During 2018, $5,051 was added to the forfeiture account. The Employers' applied $5,646 in forfeiture funds to reduce employers matching contributions in 2018. As of December 31, 2018, $233 remained in forfeited non-vested amounts available for reallocation.

Note 2 - Summary of Accounting Policies

Basis of Accounting. The accounts of the Plan are maintained, and the accompanying financial statements have been prepared, on the modified cash basis of accounting. That basis differs from generally accepted accounting principles primarily because the Plan has not recognized plan expenses owed and benefits payable and their related effects on net assets.

Use of Estimates in Preparation of Financial Statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of investment valuation.

Administrative Expenses. Administrative expenses of maintaining the Plan consist primarily of investment fees paid to the recordkeeper and professional fees. Certain professional fees are paid by the Employers and excluded from the financial statements. Fees related to the administration of notes from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based on the Plan document.

Note 2 - Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition. Investments are stated at the fair value amounts certified by the custodian, Voya Retirement Insurance and Annuity Company, as of December 31, 2018 and 2017. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are reported on a trade-date basis. Interest income is reported on the accrual basis. Dividend Income is reported on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Note 3 – Investments – Unaudited Information Certified by Custodian

The Plan has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian, Voya Retirement Insurance and Annuity Company (Voya), has certified to the completeness and accuracy of the investments as presented in the financial statements.

The accompanying statement of changes in net assets available for benefits reflects changes to the investments certified by the custodian during the year ended December 31, 2018.

At December 31, 2018, the Plan's investments were held by Voya. The Schedule of Assets Held for Investment Purposes on page 12 is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 4 - Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* as amended by ASU 2010-06, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair Value Measurement (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Stable Value Fund: Investing in the Stable Value Fund is an investment in the general account of Voya as a going concern. Regardless of the activity of the general fund, Voya pays the stated interest rate and backs the capital deposit where the "risk" is measured by their insurance credit rating. This is a depository liability with no formal underlying maturities, and is considered fairly valued at contract value because of this specific distinction. Voya is not a bank, but it may be similar to a bank certificate of deposit which isn't connected directly with all of the bank's notes, but is guaranteed and carried at contract value because of this treatment. The investment is considered level 3 input under ASC 820.

Pooled Separate Accounts: Voya pooled separate accounts (PSA) invested in mutual funds or domestic equity securities are measured using quoted prices in active markets for identical assets ("level 1" input under ASC 820). Those PSA's invested in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may use alternative observable pricing inputs for certain securities ("level 2" input under ASC 820).

The following is a summary of Plan Investments measured at fair value as of December 31, 2018:

	(Level 1)	(Level 2)	(Level 3)	Total

Note 5 - Tax Status

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits relative to the Plan for any tax periods in progress.

The Plan administrator believes it is no longer subject to income tax examinations for Plan years prior to 2015.

Note 6 - Risks and Uncertainties

The Plan provides for various investment options in mutual funds. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 – Notes Receivable from Participants

The Plan presents Notes Receivable from Participants at the unpaid balance plus any accrued but unpaid interest, which approximates fair value. No allowance for credit losses have been recorded as of December 31, 2018. If a participant ceases to make note payments and the administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded. These note benefit payments are recorded as distributions based on the terms of the plan document.

The notes bear interest at rates ranging from 4.25% to 6.25% and, as of December 31, 2018, participants had $280,670 in outstanding note balances.

Note 9 – Related Party Transactions and Party-in-Interest Transactions

The Plan invests in units of pooled separate accounts and group annuity contracts of Voya Retirement Insurance and Annuity Company ("Voya"). As Voya also provides investment advisory and recordkeeping services to the Plan, these investments qualify as party-in-interest investments which are exempt from prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

Transactions in the Plan's notes receivable from participants qualify as party-in-interest transactions which are also exempt from prohibited transaction rules.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018, to form 5500:

Net Assets Available for Benefits per the Financial Statements	$ 4,249,454
Adjustment of Guaranteed Investment Account To Contract Value	21,258
Net Assets Available for Benefits per Form 5500	$ 4,270,712
Net Depreciation in Fair value of Investments per Financial Statements	$ (286,836)
Adjustment of Guaranteed Investment Account to Contract Value, Current Year	21,258
Adjustment of Guaranteed Investment Account to Contract Value, Prior Year	(15,367)
Net Investment Gain(Loss) per Form 5500	$ (280,945)

Note 11 – Corrective Distributions

During the testing of the 2017 contributions, the plan failed the ADP test. In order to correct the situation, a corrective distribution was issued during 2018 for the excess 2017 contribution in the amount of $1,542 to the affected participant.

Note 12 – Delinquent Contributions

During 2018, four employee contributions were remitted to the plan beyond the Department of Labor's prescribed limitation of time (see schedule of delinquent participant contributions on page 13). The delinquent remittances may have caused the affected participants to miss potential earnings over the days the contributions were delayed. The Employers corrected three of the delinquent contributions outside the Voluntary Fiduciary Correctional Program (VFCP), calculated the potential of lost earnings using the VFCP Online Calculator, and remitted the lost earnings and delinquent contributions in 2018 for allocation to the affected participants. The Employers are in the process of correcting one other delinquent contribution outside the Voluntary Fiduciary Correctional Program (VFCP), calculating the potential of lost earnings using the VFCP Online Calculator, and including the lost earnings and delinquent contributions in 2019.

Note 13 – Subsequent Events

Subsequent events were evaluated through July 31, 2019, which is the date these financial statements were available to be issued. As of that date, except for the remittance of lost earnings and delinquent contributions as described in note 12, no other material events occurred which require recognition or disclosure in the financial statements.
