Years ended December 31, 2018 and 2017

1. Description of Plan

The following description of FMS 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 1990, and restated on October 21, 2017, is a participant-directed defined contribution plan covering substantially all employees of Financial Management Services, LLC (the "Company") who are eighteen years or older and who have completed at least one hour of service within the six months after the date of hire. Leased employees are excluded from the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each participant may contribute up to 100% of the participant's annual pre-tax compensation each year, limited by law to a maximum amount of $18,500 for the year 2018. Individuals who will be at least age 50 by December 31, 2018, may make an additional "catch-up" contribution, up to a maximum amount of $6,000 in 2018. The Plan also provides for the Company to make discretionary matching contributions. For the year ended December 31, 2018, the Company made matching contributions equal to 50% of the participants' deferrals, up to 8%, per participant totaling $201,712 to eligible employees.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Participant vesting in the Company's matching contributions plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after two years of service, 40% vested after three years of service, 60% vested after four years of service, 80% vested after five years of service, and 100% vested after six years of service.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants may direct contributions to any of the investment options offered by the Plan. Participants may change their investment options on a daily basis.

Forfeitures

Forfeitures of discretionary matching contributions are to be used first to restore a participant's forfeiture balance, if necessary, then to offset plan expenses, with any remaining to reduce the employer's matching contribution. There were forfeitures in the amount of $17,078 during the year ended December 31, 2018. The Plan utilized $47,947 of forfeitures to reduce administrative fees during the year ended December 31, 2018. The unallocated forfeiture balance at December 31, 2018 and 2017, amounted to $17,390 and $48,259, respectively.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of the vested amount of the participant's account balance. The loans are collateralized by the balance in the participant's account and bear interest at rates equal to the prime rate plus one percent (rates ranged from 4.25% to 6.25% per annum at December 31, 2018). The maximum number of loans allowed outstanding is two. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
Upon death, retirement, disability, or termination of employment, the participant will become entitled to the total vested value of his or her account, determined as of the valuation date. The Plan also provides for in-service withdrawals by qualified participants. Distributions will be paid by lump sum as defined in the Plan document. If a participant's account balance does not exceed $1,000, the balance may be distributed to a terminated participant without consent. If a terminated participant's account balance exceeds $1,000 but is less than $5,000, the balance may be rolled over into an account outside the Plan without the participant's consent.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) in the fair value of its investments includes the Plan's gains and losses on investments bought and sold as well as held during the year ended December 31, 2018.

Notes Receivable from Participants
Notes receivable from participants are valued at their unpaid principal balance plus accrued interest, if any. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Benefit Payments
Benefit payments are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities, including mutual funds. Mutual funds are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with those investment securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

3. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, PNC Bank, NA (the "Trustee"), has certified that the following data included in the accompanying financial statements is complete and accurate.

	December 31, 2018	December 31, 2017
Investments at fair value	$ 8,325,350	$ 8,271,638
Notes receivable from participants	125,929	135,868
	$ 8,451,279	$ 8,407,506

	Year Ended December 31, 2018
Net depreciation in fair value of investments	$ (953,823)
Dividend and interest income	$ 439,918
Interest income on notes receivable from participants	$ 5,967

4. Fair Value of Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at December 31, 2018 and 2017:

- Mutual funds - Mutual funds are stated at fair value based on quoted prices in an active market for each share held by the Plan.

- Stable value collective trust fund - Composed primarily of fully-benefit responsive investment contracts and is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate the fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. There are no participant redemption restrictions for these investments and the redemption notice period of 12 months is applicable only at the Plan level.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2018, are as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,303,509	$ -	$ -	$ 7,303,509
Total investment in the fair value hierarchy	7,303,509	-	-	7,303,509
Stable value fund, measured at net asset value (a)	-	-	-	1,021,841
Total investments at fair value	$ 7,303,509	$ -	$ -	$ 8,325,350

Investments at fair value as of December 31, 2017, are as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,928,844	$ -	$ -	$ 6,928,844
Total investment in the fair value hierarchy	6,928,844	-	-	6,928,844
Stable value fund, measured at net asset value (a)	-	-	-	1,342,794
Total investments at fair value	$ 6,928,844	$ -	$ -	$ 8,271,638

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated March 31, 2014, that the adopted volume submitter plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and, therefore believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years ending prior to 2015.

7. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding increase to distributions. The Plan did not distribute 2018 excess contributions to the applicable participants prior to March 15, 2019.

8. Concentration

At December 31, 2018, the Plan invested in three investments which accounted for approximately 37% of net assets available for benefits. At December 31, 2017, the Plan invested in one investment which accounted for approximately 16% of net assets available for benefits.

9. Party-in-Interest Transactions

Certain Plan investments were shares of funds managed by PNC Bank, NA, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trustee for certain administrative services for the year ended December 31, 2018, amounted to $66,862.

10. Subsequent Events

The Company has evaluated subsequent events through September 4, 2019, the date on which the financial statements were available for issuance.
