NEIGHBORHOOD LOANS 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

Note 1 – Description of Plan

The following description of the Neighborhood Loans 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering all employees of the Neighborhood Loans (the Company) who are twenty-one years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to the maximum percentage allowable of pretax annual compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Service (IRS). Participants who have attained age fifty before the end of the Plan year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

The Company may make a discretionary matching contribution. Participants must make elective deferrals into the Plan and be employed on December 31 to receive a matching contribution. The Company may make nonelective contributions to the Plan based on eligible earnings. The Company did not make a discretionary matching or nonelective contribution for the year ended December 31, 2018.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), and charged with an allocation of administrative expense. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's match and discretionary profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. In addition, 100% vesting occurs upon normal retirement, death, or disability of a participant.

Note 1 – Description of Plan (cont.)

Payment of Benefits

Upon termination of service, retirement, death, or disability, the participant or their beneficiary will receive 100% of the participant's account balance. If the value of the vested benefit is $5,000 or less, a lump-sum distribution will be made; otherwise, they may elect to receive the benefit as a lump-sum amount equal to the value of the participant's vested interest in his or her account or in installments over a period of time not to exceed the participant's life expectancy determined at the time of distribution. For termination of service due to other reasons, a participant may receive the vested portion of their account balance as a lump-sum distribution. In addition, hardship distributions out of the participant's voluntary contributions are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age fifty-nine and a half.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled $0. These accounts will be used to reduce future Company contributions or to pay administrative expenses of the Plan in accordance with the plan document. There were no reductions of Company contributions during the year ended December 31, 2018.

Notes Receivable

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund and from (to) the Participant Notes fund. Loan terms range from one to five years or within a reasonable time if the purpose of the loan is to acquire a primary residence. The balance in the participant's account secures the loan. The interest rate, unless otherwise determined by the trustee is prime plus 2%. Principal and interest are repaid ratably through semi-monthly payroll deductions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared based on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP").

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are allocated proportionately to plan participants based on their respective account balances and are included in net investment income.

Payment of Benefits

Benefits are recorded when paid.

Note 2 – Summary of Significant Accounting Policies (cont.)

Estimates

The preparation of financial statements in accordance with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Subsequent Events

Accounting principles generally accepted in the United States of America establish general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The Company has evaluated subsequent events through September 10, 2019, which is the date the statements were available to be issued. No subsequent events have been identified that are required to be disclosed as of that date.

Note 3 – Group Annuity Contract

The Plan has a group annuity contract with Invesco National Trust Company ("Invesco") that invests contributions in the Invesco Stable Value Fund (the Fund). The Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Note 3 – Group Annuity Contract (cont.)

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

(a) Amendments to the Plan document (including complete or partial Plan termination or merger with another plan),

(b) Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,

(c) Bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or

(d) The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 4 – Fair Value Measurements

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2: Inputs other than level 1 that are observable, such as quoted prices for similar assets or liabilities in active markets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data substantially the full term of the asset or liability.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liability.

Note 4 – Fair Value Measurements (cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of valuation methodologies used for fair value measurement of investments:

Mutual Funds: Valued at the daily closing price as reported by the mutual fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

		Fair Value Measurement Using		
	Total	Level 1	Level 2	Level 3
December 31, 2018				
Mutual funds	$ 1,055,042	$ 1,055,042	$ -	$ -
December 31, 2017				
Mutual funds	$ 923,836	$ 923,836	$ -	$ -

Note 5 – Information Certified by Plan Trustee

The December 31, 2018 and 2017 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the twelve months ended December 31, 2018, the accompanying Notes to the Financial Statements, and the Supplemental Disclosures were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The trustee as of December 31, 2018 and 2017 is Reliance Trust Company.

Note 5 – Information Certified by Plan Trustee (cont.)

The information certified includes total investments of $1,068,295 and $923,836 at December 31, 2018 and 2017, respectively, and related investment income of $113,549 for the year ended December 31, 2018.

The Plan's independent public accountants did not perform any generally accepted auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan Termination, participants will become 100% vested in their employer contributions.

Note 7 – Risk and Uncertainty

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 – Related Party and Exempt Party-in-Interest Transactions

The Plan has notes receivable from participants at December 31, 2018 and 2017. As a result, these receivables and all transactions relating to these receivables qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

Note 9 – Tax Status

The Company adopted a nonstandard prototype document with an IRS notification letter which states the prototype plan document is in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Generally accepted accounting principles require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or DOL. The plan administrator has

Note 9 – Tax Status (cont.)

analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan's Form 5500 filed with the federal government is subject to examination generally for three years after it is filed.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for plan benefits per financial statements at December 31:

	2018	2017
Net assets available for benefits per the financial statements	$ 1,036,873	$ 886,022
