NOTE 1 DESCRIPTION OF PLAN

The following description of the Orthopaedic Clinic of Daytona Beach, P.A. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all full-time employees of the Company who are age 21 or older and have three months of service for employee deferrals and one year of service for employer contributions. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Trustees are responsible for overseeing the Plan, determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions – Each year, participants may contribute up to 100% of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Beginning November 1, 2018, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a target date fund until changed by the participant. The Company shall make a Safe Harbor contribution on behalf of each eligible participant in an amount not less than 3% of the participant's eligible compensation. The Company may also make additional profit sharing amounts at its discretion. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Effective July 1, 2019, the Plan was amended to add an auto escalation feature to auto enrollment, whereas the deferral will increase 1% per year up to 7%.

Participant Accounts – Each participant's account is credited with the participant's contribution as well as allocations of the Company's Safe Harbor and profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their deferral and Safe Harbor contributions plus actual earnings thereon. Vesting in other employer contributions is based on years of continuous service. A participant begins to vest after two years (20%) and increases ratably until fully vested after six years.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her vested account, or installment payments over a specified period of time subject to certain limitations.

NOTE 1 DESCRIPTION OF PLAN (Continued)

Forfeited Accounts **–** At December 31, 2018 and 2017, forfeited nonvested accounts totaled $14,870 and $3,828, respectively. These amounts will be used to reduce future employer contributions or pay administrative fees. During 2018, forfeitures of $22,400 were used to reduce employer contributions and $5,979 were used to pay administrative fees.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting **–** The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates **–** The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of American (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition **–** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits **–** Benefits are recorded when paid.

Expenses **–** Certain expenses incurred maintaining the Plan are paid directly by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events **–** The Firm has evaluated subsequent events through August 29, 2019, the date which the financial statements were available to be issued.

NOTE 3 CERTIFIED INVESTMENTS

Certain information related to investments from participants disclosed in the accompanying financial statements and supplemental schedule at December 31, 2018 and 2017, and net depreciation in fair value of investments and other income for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Great West Trust Company, LLC (Great West) and the John Hancock Life Insurance Company (John Hancock).

NOTE 4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Leve 1 Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a. Quoted prices for similar assets or liabilities in active markets
b. Quoted prices for identical or similar assets or liabilities in inactive markets
c. Inputs other than quoted market prices that are observable for the asset or liability
d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the assets and liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Collective trust fund: Valued at the net asset value (NAV) of units of a financial institution collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 4 FAIR VALUE MEASUREMENTS (Continued)

Pooled separate accounts: Valued based on the number of shares of the respective underlying fund multiplied by the closing NAV per share quoted by that fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,289,850	$ -	$ -	$ 9,289,850
Total assets in the fair value hierarchy	9,289,850	-	-	9,289,850
Investments measured at net asset value	-	-	-	855,329
Investments at fair value	$ 9,289,850	$ -	$ -	$ 10,145,179

Assets at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Investments measured at net asset value	$ -	$ -	$ -	$ 9,873,897
Investments at fair value	$ -	$ -	$ -	$ 9,873,897

Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers Between Levels

For the year ended December 31, 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Investments Measured Using the NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2018 and 2017, respectively.

Investment type	Fair Value 2018	Fair Value 2017	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trust fund	$ 855,329	$ -	-	Daily	Daily
Pooled separate accounts	-	9,873,897	-	Daily	Daily

NOTE 5 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Great-West and John Hancock and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

During 2018, the Company failed to remit employee deferrals totaling $1,110 in a timely manner.

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contribution portion of their account.

NOTE 7 TAX STATUS

The Plan has been formed utilizing the *Prototype Non-standardized Profit Sharing Plan with CODA* sponsored by CCH Incorporated dba FTWilliam Com (CCH). The prototype plan sponsor obtained a favorable determination letter dated March 31, 2014; however, such letter is only applicable to CCH. The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan and related trust is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
