Integrity Savings and Retirement Plan

Notes to Financial Statements

Note 1: Plan Description

The following description of the Integrity Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) retirement plan covering substantially all employees of Integrity Insurance Company (the "Company") who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Directors is responsible for the oversight of the Plan. The Retirement Committee determines the appropriateness of investment offerings, monitors investment performance, and reports to the Board of Directors.

Contributions

Participating employees may make voluntary contributions, not to exceed limits mandated by the Internal Revenue Code (IRC), as defined in the plan document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Eligible employees are automatically entered into the Plan with a deferral of 6% of their eligible compensation if no election is made. Deferrals are automatically increased 1% annually to a maximum of 10% if no election is made. Participants may also contribute amounts representing pretax distributions from other qualified retirement plans. Rollover contributions are not matched. The Company provides discretionary matching contributions based on a percentage of the participant's salary deferral contribution and the year in which an employee is hired. The Company also provides a discretionary nonelective contribution to employees hired on or after July 1, 2008, through December 31, 2015, if they were employed as of the last day of the plan year. The Company may make a qualified nonelective contribution each year to nonhighly paid employees.

The discretionary contributions are determined annually by the Company's Board of Directors. The discretionary matching contribution for each participant hired on or before December 31, 2015, is 50% of the first 6% of eligible compensation contributed to the Plan. The discretionary matching contribution for each participant hired on or after January 1, 2016, is 100% of the first 5% of eligible compensation contributed to the Plan. The total discretionary matching contributions for 2018 were \$305,294. The discretionary nonelective contribution for 2018 was 6% of eligible compensation, of which amounted to \$172,836. The Company did not make a qualified nonelective contribution for 2018.

Integrity Savings and Retirement Plan

Notes to Financial Statements

Note 1: Plan Description (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings or losses and is reduced for withdrawals and charged with an allocation of certain administrative expenses not paid by the Company. Allocations are based on participant investments, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their salary deferral and rollover contributions plus actual earnings/losses thereon. Participants vest in the Company's discretionary matching contributions at a rate of 20% each year beginning with the first year, with the participant becoming fully vested after five years of service. Participants eligible for the Company's discretionary nonelective contributions become fully vested after three years of service. Qualified nonelective contributions are 100% vested when made.

Notes Receivable From Participants

Participants may borrow from their accounts up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance, with a \$1,000 minimum. Participants may not borrow from the portion of their account attributable to the nonelective contributions. Note terms range from one to five years or up to 10 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with similar notes made by the plan administrator. Interest rates on existing notes are 3.25% to 5.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Plan benefits are available at normal retirement (age 59½), disability retirement, death, and termination of employment with vested interests. A participant may elect to receive a single lump sum payment or installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account in one of the forms noted above. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59½.

Forfeitures

Plan forfeitures arise as a result of participants who terminate service with the Company before becoming 100% vested in the Company's contributions. At December 31, 2018 and 2017, there were no forfeited nonvested account balances. Forfeited amounts can be used for payment of plan administrative expenses or to reduce Company contributions. During the year ended December 31, 2018, Company contributions were reduced by \$79,258 from forfeited nonvested accounts.

Integrity Savings and Retirement Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts [FBRICs]). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 3 for discussion of fair value measurements.

FBRICs are reported at contract value, which is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the basis of the terms of the plan document.

Integrity Savings and Retirement Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are partially paid out of plan assets and included in administrative expenses, while the remainder is paid through revenue sharing and included in net depreciation of fair value of investments.

Subsequent Events

Subsequent events have been evaluated through August 26, 2019, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1); and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or 3 inputs for the periods presented.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Common/collective trust funds: Valued at the net asset value (NAV) of units held by the Plan at year-end. The NAV is based on the value of the underlying assets of the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on the underlying investments, some of which are traded on an active market.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Integrity Savings and Retirement Plan

Notes to Financial Statements

Note 3: Fair Value Measurements (Continued)

Pooled separate accounts: Valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments, which are traded on an active market.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Investment assets in the fair value hierarchy - Mutual funds	\$ 1,634,056	\$ 0	\$ 0	\$ 1,634,056
Investment assets measured at NAV (a)				10,871,367
Total investment assets at fair value				\$ 12,505,423

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Investment assets in the fair value hierarchy - Mutual funds	\$ 1,456,201	\$ 0	\$ 0	\$ 1,456,201
Investment assets measured at NAV (a)				11,718,255
Total investment assets at fair value				\$ 13,174,456

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4: Guaranteed Investment Contract

The Plan has entered into a fully benefit-responsive guaranteed investment contract (GIC) with Principal Trust Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a semiannual basis for resetting.

Note 4: Guaranteed Investment Contract (Continued)

This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. The plan administrator believes that any events, which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5: Information Prepared and Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments, fully benefit-responsive investment contract at contract value, and notes receivable from participants held at December 31, 2018 and 2017, and net depreciation in fair value of investments, dividends, and interest income on notes receivable from participants for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Delaware Charter Guarantee & Trust Company, d/b/a Principal Trust Company, the trustee of the Plan.

Note 6: Party-in-Interest Transactions

Certain plan investments are managed by Principal Trust Company, a wholly owned subsidiary of Principal Life Insurance Company. Fees paid by the Plan to Principal Trust Company for administrative expenses amounted to \$33,016 for the year ended December 31, 2018. Principal Trust Company is the trustee as defined by the Plan and, therefore, the transactions qualify as party-in-interest transactions. Certain other fees incurred by the Plan for investment management services are included in net depreciation in fair value of investments, since they are paid through revenue sharing rather than a direct payment.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions.

Note 8: Tax Status

The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The plan administrator is not aware of any significant uncertain tax positions taken by the Plan.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
