INDEPENDENT AUDITORS' REPORT

To the Trustees
Madison/Standard Electric Companies Defined Benefit Pension Plan and Trust
Warren, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of Madison/Standard Electric Companies Defined Benefit Pension Plan and Trust, which comprise the statements of net assets available for benefits (in liquidation) as of November 30, 2018 and 2017, and the related statement of changes in net assets available for benefits (in liquidation) for the year ended November 30, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Madison/Standard Electric Companies Defined Benefit Pension Plan and Trust as of November 30, 2018 and 2017, and the changes in its financial status for the year ended November 30, 2018 in accordance with accounting principles generally accepted in the United States of America applied on the bases described in the Emphasis of Matter paragraph.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the Plan Sponsor elected to terminate the plan as of October 30, 2016. As a result, the Plan has changed its basis of accounting from the going concern basis to the liquidation basis. Our opinion is not modified with respect to that matter.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H line 4i – Schedule of Assets (Held At End of Year), which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MADISON/STANDARD ELECTRIC COMPANIES
DEFINED BENEFIT PENSION PLAN AND TRUST
Notes to the Financial Statements
November 30, 2018 and 2017

NOTE:

1. Description of Plan

The following brief description of the Madison/Standard Electric Companies Defined Benefit Pension Plan and Trust (the Plan) is provided for general information only. Participants should refer to the Plan agreement for more complete information.

Termination – Effective October 30, 2016, the Board of Directors voted to terminate the Plan. On November 6, 2017, a favorable IRS determination letter was issued. PBGC issued a letter for standard termination on April 13, 2017. Therefore, the plan is in termination status.

General – The Plan is a defined benefit pension Plan covering substantially all members and employees of Madison Electric Company, Standard Electric Company and M&S Data Services. The Plan covers all eligible employees, except those employees covered under a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On June 27, 2018, the Plan was amended for the termination status.

Pension Benefits – The Plan calls for benefits to be paid to eligible employees, at retirement, based upon years of service with the company and the average of their five highest consecutive years of compensation. Eligible employees will normally receive either a joint or survivor annuity, although an alternative form of payment may be determined by the administrator. Participants became fully vested upon termination at October 30, 2016. Having obtained termination approval of the Internal Revenue Service and the Pension Benefit Guarantee Corporation; and is presently administering distribution requirements for participants and persons in pay status.

Cash and Cash Equivalents – Cash and cash equivalents include cash on hand, demand deposits and short-term investments with original maturities of three months or less. The Plan maintains cash and cash equivalent balances in financial institutions exceeding federally insured amounts. The Plan has not incurred any losses in connection with these deposits.

2. Summary of Accounting Policies

Basis of Accounting – As a result of the approval of the Plan termination in April of 2017, the Plan's financial statements are presented using the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition – The Plans investments are stated at fair value. If available, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Other Income – Other income on the statement of changes in net assets available for benefits represents insurance.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

Administrative Expenses – The Plan pays all significant administrative expenses of the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE:

2. Summary of Accounting Policies (Continued)

Risks and Uncertainties – The Plan holds various types of investments. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the Plan's account balances and amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions and the actuarial present value of the accumulated plan benefits are prepared based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events – The Company has evaluated events and transactions that occurred through September 12, 2019, which is the date the financial statements were available for issue.
proceeds received by the Plan.

3. Funding Policy

The Company's funding policy is to make contributions to the Plan, determined by an actuary, to fund the benefits obligation accrued under the termination status.

4. Related Party Transactions

The Plan uses Glass Retirement Strategies, Inc. as the actuarial service provider and R.H. Bluestein & Company as investment advisors. In addition, certain Plan investments are shares of a registered investment company managed by the custodian. The Plan uses the staff, resources, and facilities of the Plan Sponsor to perform certain administrative activities related to the Plan. Transactions with these entities qualify as party in interest, as defined by ERISA.

Fees paid by the Plan for investment management services are netted against investment income. Certain Plan related audit and legal fees are paid by the Plan. Total fees for all professional and investment advisor services were $271,245 and $71,904 for November 30, 2018 and 2017, respectively.

5. Plan Termination

In April of 2017, the Company submitted termination plans to the PBGC. This approval has been received. Notice of the intention to terminate the plan was provided to each participant. The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. All those benefits that are basic benefits;
2. All other accrued benefits guaranteed under the termination insurance provisions of ERISA by the PBGC, as of the date of termination, in excess of the basic benefits;
3. At the discretion of the Trustees, all those benefit accrual reductions and payment suspensions which were reduced or suspended in connection with a Plan reorganization of insolvency and which have not been previously restored;
4. All other benefits under the Plan.

MADISON/STANDARD ELECTRIC COMPANIES
DEFINED BENEFIT PENSION PLAN AND TRUST
Notes to the Financial Statements (Continued)
November 30, 2018 and 2017

NOTE:

5. Plan Termination (continued)

Certain benefits under the Plan are insured by the PBGC until the Plan is terminated. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For pension Plans ending in 2018 that ceiling, which is adjusted periodically, was $5,420 a month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan obtained its latest determination letter on November 6, 2017, in which the Internal Revenue Service stated that the Plan termination was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely would not be sustained upon examination by the Internal Revenue Service.

7. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable input (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets, 2) quoted prices for identical or similar assets or liabilities in inactive markets, 3) inputs other than quoted prices that are observable for the asset or liability, 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

MADISON/STANDARD ELECTRIC COMPANIES

Notes to the Financial Statements (Continued)
November 30, 2018 and 2017

NOTE:

7. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2018 and 2017.

Certificates of Deposit: Priced using evaluated pricing applications and models that incorporate observable market data such as current interest rates and relative maturities.

Hedge Funds: Valued at the Plan's proportionate partnership interest in the Atlantic Fund, L.P.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net investment earnings include unrealized appreciation and depreciation, realized gains and losses, and dividend and interest income.

The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the balances of the assets and liabilities measured at fair value on a recurring basis as of November 30, 2018 and 2017:

	Investment Assets at Fair Value as of November 30, 2018			
Assets:	Level 1	Level 2	Level 3	Total
Interest Bearing Cash	$ 1,373,845	$ 0	$ 0	$ 1,373,845
Total investments at fair value	$ 1,373,845	$ 0	$ 0	$ 1,373,845

	Investment Assets at Fair Value as of November 30, 2017

NOTE:

7. Fair Value Measurements (Continued)

The changes in Level 3 assets during the year ended November 30, 2018 and 2017 are summarized as follows:

	2018	2017
Balance, beginning of year	$ 509,356	$ 489,995
Liquidation of investment	(509,356)	0
Appreciation (Depreciation)	0	19,361
Balance, end of year	$ 0	$ 509,356

The Level 3 amount represents the investment in Atlantic Fund I, L.P. (the Partnership). Based upon the audited financial statement of the Partnership, there are no unfunded future commitments. Redemptions from the Partnership fund are subject to approval of the general partner and are limited based upon the terms of the Partnership agreement. The Partnership is organized for the purpose of seeking capital appreciation and interest and other income by investing in and trading securities and other financial instruments and engaging in all activities and transactions as the general partner may deem reasonably necessary or advisable or incidental in connection therewith. This class of hedge funds invests primarily in short term investments and equity securities with substantially all based in the United States. The investments that are traded on national security exchanges are valued at dealer closing prices on the date of determination. The fair values of these instruments have been estimated using the net value per share of the investments. Private equity investments are not listed or traded on a securities exchange and a ready market does not exist to indicate fair value; therefore, the general partner has valued those investments at fair value in good faith.

8. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee’s service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an enrolled actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment. The significant actuarial assumptions used in the valuation as of November 30, 2018 were (a) life expectancy of participants (IRS Prescribed table), (b) retirement age assumptions (the assumed retirement age was 65), and (c) investment return.

8. Actuarial Present Value of Accumulated Plan Benefits (Continued)

A schedule of actuarial present value of accumulated benefits and assets available for benefits as of November 30, 2018 is presented below:

Actuarial present value of accumulated plan benefits:

Vested benefits	$ 1,709,905
Non-vested benefit	0
Total actuarial present value of accumulated plan benefits	$ 1,709,905

The changes in the actuarial present value of accumulated plan benefits for the year ended November 30, 2018 are presented below:

Actuarial present value of accumulated plan benefits at the beginning of the year	$ 18,858,604
Increase during the plan year attributable to:	
Increase actuarially deemed required for liquidation	444,368
Benefits paid	(17,593,067)
Actuarial present value of accumulated plan benefits at the end of the year	$ 1,709,905

The Plan invests in insurance contracts for certain individual plan participants to fund their benefit obligation. These funds are allocated to purchase annuities for individual participants and may not be withdrawn or otherwise invested by the Plan. Accordingly, the obligation to fund benefits is transferred to the insurance company, and these assets are not included in the assets of the Plan. As of November 30, 2018 and 2017, the fair value of these contracts was approximately zero and $1,764,013, respectively.
