Report of Independent Auditors

To the Board of Directors of **Quad Knopf, Inc. dba QK, Inc.** and the 401(k) Committee for the **Quad Knopf, Inc. 401(k) Savings Plan**:

Report on the Financial Statements

Quad Knopf, Inc. dba QK, Inc. engaged us to audit the accompanying financial statements of the Quad Knopf, Inc. 401(k) Savings Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Responsibility of Management for the Financial Statements

The management of the Plan is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the Auditor

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America (US-GAAS). However, due to the matters described in the Basis for Disclaimer of Opinion paragraph, we were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which Great-West Trust Company, LLC, the trustee and a custodian of the Plan assets and Great-West Life & Annuity Insurance Company, a custodian of the Plan assets, certified, except for comparing the information with the related information included in the financial statements and supplemental schedule. The Plan administrator informed us that the trustee and custodians hold the Plan investment assets and execute investment transactions. The Plan administrator obtained certification from the trustee and custodians as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the Plan administrator by the trustee and custodians is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter
The management of the Plan presents the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2018, for the purpose of additional analysis. The supplemental schedule is not a required part of the financial statements but the DOL Rules and Regulations for Reporting and Disclosure under the ERISA require it. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
We have audited the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and custodians, in accordance with US-GAAS and, in our opinion, they are presented in compliance with the DOL Rules and Regulations for Reporting and Disclosure under the ERISA.

Quad Knopf, Inc. 401(k) Savings Plan
Notes to Financial Statements
December 31, 2018

Note 1 – Description of the Plan

The following brief description of the Quad Knopf, Inc. (dba QK, Inc.) (QK) 401(k) Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of its provisions.

General
QK established the Plan effective January 1, 1990, and last amended and restated the Plan effective February 1, 2018. The Plan is a defined contribution profit sharing plan with a 401(k) arrangement. Employees of QK and the related Quad Knopf, LLC may participate in the Plan on the first day of the month coincident with or following 30 days of service and attainment of age 21; however, employees classified as temporary or seasonal and not scheduled to work at least 1,000 hours per year must complete 1,000 hours of service during their initial year of employment or in any Plan year to participate. QK automatically enrolls newly eligible employees, with a deferral rate of 6%, unless the newly eligible employee affirmatively elects a different percentage, including zero. In addition, QK automatically increases the deferral rate of participants who become eligible after December 31, 2013, by 1% annually, beginning with the third year of participation and ending with the sixth year of participation, to 10%. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

A Plan committee, appointed by the Board of Directors of QK, manages the Plan. Great-West Trust Company, LLC serves as Trustee. Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the Custodians, hold all the Plan investment assets. The Plan pays all Plan expenses, except settlor expenses, from forfeitures, when available. Otherwise, QK pays the expenses. During the year ended December 31, 2018, the Plan paid expenses totaling $30,404 as follows: $18,404 for investment advisor and $12,000 for audit fees.

On June 6, 2016, Quad Knopf, Inc. began doing business under the name QK, Inc.

Contributions, vesting and forfeitures
Participants may defer (pre-tax regular and post-tax Roth) up to the lower of 100% of their annual qualified compensation or the Internal Revenue Code (IRC) limit to the Plan. Participants that attain age 50 by the last day of the Plan year may defer additional amounts ("catch-up" contributions) to the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Rollovers are not subject to Plan or IRC contribution limits. Participants are always 100% vested in their deferral, catch-up and rollover contributions and earnings thereon.

The Plan also provides for discretionary QK matching contributions, determined by the Board of Directors of QK. QK allocates matching contributions as a percentage of participant deferrals during each pay period. Participants not deferring during a pay period are ineligible for

Note 1 – Description of the Plan (continued)

matching contributions for that pay period. Matching contributions and earnings thereon vest to participants at a rate of 50% per year, beginning with the second year of credited service. Participants become 100% vested, regardless of years of credited service attained, upon death, disability, Plan termination or reaching retirement age. During the year ended December 31, 2018, QK paid discretionary match contributions equal to 20% of participant deferrals, which was the same match rate contributed during the year ended December 31, 2017. On December 15, 2018, the Board of Directors of QK approved continuing the discretionary match contributions equal to 20% of participant deferrals during 2019.

The Plan also provides for discretionary QK profit sharing contributions, determined by the Board of Directors of QK. QK allocates profit sharing contributions based on the relative eligible compensation earned by each eligible participant. An eligible participant for the discretionary QK profit sharing contribution is one that QK credited with at least 1,000 hours of service during, and QK employed at the end of, the applicable Plan year. An eligible participant is also one that dies, becomes disabled or reaches early or normal retirement age during the applicable Plan year. Profit sharing contributions and earnings thereon vest to participants at a rate of 50% per year, beginning with the second year of credited service. Participants become 100% vested, regardless of years of credited service attained, upon death, disability, Plan termination or reaching retirement age. During the year ended December 31, 2018, QK made no profit-sharing contributions.

The Plan may use unvested matching and profit-sharing contributions and earnings thereon (forfeitures) to pay future matching and profit-sharing contributions and administrative expenses. The Plan allocates forfeitures not used to pay future matching and profit-sharing contributions or administrative expenses to eligible participants based on the relative eligible compensation each participant earns. An eligible participant for the allocation of forfeitures is one that QK credited with at least 1,000 hours of service during, and QK employed at the end of, the applicable Plan year. An eligible participant is also one that dies, becomes disabled or reaches early or normal retirement age during the applicable Plan year. During the year ended December 31, 2018, the Plan accumulated forfeitures and earnings thereon totaling $20,826, paid fees totaling $12,000 and allocated to participants totaling $1,764. As of December 31, 2018 and 2017, the Plan held unallocated forfeitures and earnings thereon totaling $8,934 and $1,872, respectively.

Investments and allocation

The Plan credits accounts for each participant with their deferral, catch-up, rollover, matching and profit-sharing contributions and charges accounts for each participant for their share of investment and administrative fees and forfeitures. In addition, the Plan credits or charges accounts of each participant with their share of investment earnings or losses, based on their investment choices. Participants choose investment options for their deferral, catch-up, rollover,

Note 1 – Description of the Plan (continued)

matching and profit-sharing contributions from the investment options offered by the Custodians. As of December 31, 2018, the Custodians offered unallocated-fund guaranteed interest contracts, registered investment company shares and common collective trust funds to participants. Participants may allocate their funds among all offered investment options. Participants may also transfer existing account balances among the available investment options.

The Custodians pool individual participant funds directed by participants to the same investments on behalf of the Plan and the participants and allocates earnings based on the investment amount of each participant. The Custodians invest and secure investments in unallocated-fund guaranteed interest contracts in and with the general investment assets of the Custodians and their affiliates. The Custodians and their affiliates own, control or sub-advise the investments of the guaranteed interest contracts, registered investment company shares and common collective trust funds. Such investment transactions constitute party-in-interest transactions. The Custodians charge participants, reported as a reduction in investment income, for certain investment trading and management activities. The Custodians disclose such charges in prospectuses it makes available to participants.

Benefits

The Plan pays benefits to participants, beneficiaries or successor custodians upon termination, disability, death, retirement, reaching age 59½ (55 for former participants in the Fremming, Parson & Pecchenino 401(k) Plan), serious financial hardship or for other reasons permitted by the IRC. The Plan may pay benefits to participants as an annuity, lump sum, rollover, direct transfer or in any combination thereof at the discretion of the Plan (or the participant when their balance exceeds $5,000). Certain payments may be subject to mandatory income tax withholding. The Plan limits benefits paid to each participant to the vested value of the account of each participant when the Plan pays the benefit. Participants may leave vested balances in the Plan. With certain limitations, participants forfeit unvested matching and profit-sharing contributions and earnings thereon upon termination of employment.

Individual participant benefits will fluctuate based on contributions, investment earnings and losses, vesting and payment method and are only set when paid. Individual participants select investments for their accounts and nothing guarantees the earnings or indemnifies for the losses thereon. Individual participant accounts may lose value and future benefits may decrease, including after December 31, 2018.

Participant loans

Participants may borrow (by withdrawing a portion of their vested account balance) a minimum of $1,000 and a maximum of the lower of 50% of the vested account balance or $50,000 (less the highest outstanding loan balance during the past twelve months). The loans bear fixed inter-

Note 1 – Description of the Plan (continued)

est at rates similar to those issued by lending institutions under similar circumstances and the term of the loans cannot exceed five years (ten years when the participant uses the loan proceeds to buy a principal residence). Participants make loan payments with deferrals of after-tax compensation. The Custodians reduce the loan balance with the principal portion of loan payments and increases other investments of the participant with the total loan payments. The remaining participant account balance secures the loan.

The Plan reports participant loans as notes receivable. Accordingly, the Plan measures participant loans at cost, as the unpaid principal balance plus any accrued but unpaid interest.

Income tax status

QK last amended and restated the Plan effective February 1, 2018, and patterned the amended and restated Plan after the "Prototype Non-standardized Profit-Sharing Plan with CODA" of the Trustee. The Internal Revenue Service issued the latest determination letter for the "Prototype Non-standardized Profit-Sharing Plan with CODA" on March 31, 2014. The favorable determination letter stated that the "Prototype Non-standardized Profit-Sharing Plan with CODA," as then designed, complied with the applicable requirements of the IRC. Although QK has since amended and restated the Plan, the management and tax counsel of the Plan believe its current design, qualifications and operations comply with the applicable sections of the IRC and the related trust was tax-exempt as of December 31, 2018. Consequently, QK did not include a provision for income taxes.

The management of the Plan considers certain tax positions taken by the Plan. A tax position is a position taken in a previously filed tax return or a position the management of the Plan expects to take in a future tax return that figures in measuring current or deferred income tax assets and liabilities for interim or annual periods. Tax positions include a decision to classify a transaction, entity or other position in a tax return as tax exempt and the status of an entity, including its status as a pass-through or tax-exempt entity.

The Plan files tax returns with the IRS and Department of Labor (DOL). As of December 31, 2018, the management of the Plan believes that there are no tax positions of the Plan where it is reasonably possible that the total amount of unrecognized tax benefits will significantly increase or decrease within the year ending December 31, 2019. As of December 31, 2018, open tax periods subject to future examination by taxing authorities cover periods from January 1, 2015 through December 31, 2018.

Plan termination

Although it has not expressed any intent to do so, QK has the right to discontinue future matching and profit-sharing contributions at any time and to amend or terminate the Plan subject to

Note 1 – Description of the Plan (continued)

the provisions of the ERISA. Under no circumstances may any vested Plan assets revert to QK by Plan amendment or termination.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

QK prepares the Plan financial statements using accounting principles generally accepted in the United States of America (US-GAAP). The Plan records deferral, catch-up, matching and profit-sharing contributions in the period participants earn the related compensation. The Plan records rollovers when received. The Plan records purchases and sales of investments on a trade-date basis and dividends on the ex-dividend date. The Plan records expenses and other deductions when incurring the related obligation. The Plan records benefit payments when paid.

Investment valuation and income recognition

The Plan values investments at fair value, as determined by the Custodians and evaluated by the management of the Plan. The Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.

Level 2 inputs consist of observable inputs other than quoted prices for identical assets, including quoted prices in inactive markets for identical assets, quoted prices in active markets for similar assets and other observable market data.

Level 3 inputs consist of unobservable inputs that reflect internal judgments and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan only uses Level 3 inputs when Level 1 or Level 2 inputs are not available.

The Plan bases the fair value of registered investment company shares on unadjusted quoted prices in active markets for identical assets, which is a Level 1 input, except the Victory Integrity Small-Cap Value Collective, which uses Level 2 inputs in the same manner as the common collective trust funds (below).

Note 2 – Summary of Significant Accounting Policies (continued)

The Plan bases the fair value of common collective trust funds on the fair value of the underlying securities and other investments, using unadjusted quoted prices in active markets for identical assets (Level 1), unadjusted and insignificantly adjusted quoted prices in active and inactive markets for identical and similar assets (Level 2 – Market) and the contract value and credit rating of the Custodians (Level 2 – Cost and Market). The Custodians use third-party pricing services to determine the pricing for fair value determinations using Level 2 inputs. Each common collective trust fund invests principally in one, open registered investment company shares (mutual fund).

The Plan bases the fair value for guaranteed interest contracts, which are fully benefit-responsive investment contracts, on contract value. Contract value is the sum of contributions and earnings, net of fees and withdrawals (Level 3 input – Cost). Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Custodians hold participant investments in the guaranteed interest contracts and earnings thereon in the general accounts of the Custodians. The Custodians credit the general account with earnings on the underlying investments and charge for participant withdrawals and administrative expenses. The Custodians are contractually obligated to repay the principal and a specified interest rate that they guarantee to the Plan.

The Plan did not record any reserves against contract value for credit risk of the Custodians or otherwise. As of December 31, 2018 and 2017, the fair value of guaranteed interest contracts was not materially different from their contract values. When establishing the interest crediting rate for the guaranteed interest contracts, the Custodians consider many factors, including current economic and market conditions, the general interest rate environment and earnings of the underlying assets in the entire medium-long term new portfolio of the Custodians compared to the minimum interest crediting rate, as stated in the guaranteed interest contract. The Custodians reset the interest crediting rate quarterly.

Certain events limit the ability of the Plan to transact at contract value with the Custodians, including complete or partial Plan termination and QK events (e.g., spin-off, sale or merger) that materially affect assets in the guaranteed interest contracts. The management of the Plan does not believe that any events that would limit the ability of the Plan to transact at contract value with the Custodians are probable of occurring. The guaranteed interest contracts do not otherwise permit the Custodians to terminate them before making payments to participants at contract value.

Note 2 – Summary of Significant Accounting Policies (continued)

As of December 31, 2018, fair values and input Levels of the Plan investments total as follows:

Class and investment	Fair value	Level 1	Level 2	Level 3
Guaranteed interest contracts	$ 2,156,081	$ –	$ –	$2,156,081
Registered investment company shares	4,760,244	3,666,794	1,093,450	–
Common collective trust funds	5,361,638	–	5,361,638	–
Totals	$12,277,963	$3,666,794	$6,455,088	$2,156,081

During the year ended December 31, 2018, the Plan did not move investments among different input Levels. During the year ended December 31, 2018, changes in the fair value of investments measured using Level 3 inputs total as follows:

Level 3	Guaranteed interest contracts
Fair value, December 31, 2017	$ 1,690,313
Interest	26,252
Purchases and issuances	589,288
Sales and settlements	(149,772)
Fair value, December 31, 2018	$2,156,081
Unrealized appreciation and (depreciation), net	$ –

As of December 31, 2017, fair values and input Levels of the Plan investments total as follows:

Class and investment	Fair value	Level 1	Level 2	Level 3
Guaranteed interest contracts	$ 1,690,313	$ –	$ –	$1,690,313
Registered investment company shares	5,369,971	4,301,750	1,068,221	–
Common collective trust funds	6,364,765	–	6,364,765	–
Totals	$13,425,049	$4,301,750	$7,432,986	$1,690,313

The Plan presents the net investment gain or loss given by the Custodians. The Custodians calculate the net investment gain or loss for the registered investment company shares and common collective trust funds by aggregating realized gains and losses and unrealized appreciation and depreciation using the method promulgated by the Department of Labor (DOL) and the instructions for the Form 5500, which varies from US-GAAP. US-GAAP and DOL methods can produce timing differences between realized gains and losses and unrealized appreciation and

Note 2 – Summary of Significant Accounting Policies (continued)

depreciation when the Plan buys and sells registered investment company shares and common collective trust funds in different years. However, when aggregated and as presented, the net investment gain or loss is the same under US-GAAP and DOL methods.

Net investment gains and losses include interest, dividends and short- and long-term capital gains paid on common collective trust funds. The Custodians pool and reinvest such earnings into additional units of the common collective trust funds and allocates those units to participants based on their invested amounts. Consequently, the Plan records no interest, dividends or short- and long-term capital gains on common collective trust funds, only the net investment gain or loss resulting from the change in value of the additional units of the common collective trust funds acquired with the reinvested interest, dividends and short- and long-term capital gains.

Risks and concentrations

Investments are subject to market risk and interest risk. Market risk is the risk that the value of an investment will decrease due to changes in market factors. Interest risk is the risk that interest paid on guaranteed investment contracts will be less than the current market interest rate. Guaranteed investment contracts are not federally insured. Fair values for securities and other investments that underlie registered investment company shares and common collective trust funds may vary significantly, including after December 31, 2018. Because participants select investments for their accounts and the Plan limits benefits to the balance of participant accounts when the Plan pays the benefit, QK cannot estimate the effect of any market value risk on individual participants, but there is no effect on the ability of the Plan to pay benefits.

As of December 31, 2018 and 2017, the following registered investment company shares and common collective trust funds exceeded 10% of total registered investment company shares and common collective trust funds, respectively:

Registered investment company shares	2018	2017

Form 5500 variances

Differences between the amounts in the financial statements and Form 5500 result from the accrual of certain receivables (Note 4) herein but not in the Form 5500 and certain classification differences, all of which are reconciled in Note 6.

Use of estimates

The Plan prepares its financial statements in accordance with US-GAAP. The preparation of financial statements in conformity with US-GAAP requires the management of the Plan to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimated.

Subsequent events

The management of the Plan has evaluated subsequent events through August 2, 2019, the date these financial statements were available for issuance.

Note 3 – Financial Information Certified by the Trustee and Custodians

Great-West Trust Company, LLC, the Trustee and a Custodian and Great-West Life & Annuity Insurance Company, a Custodian, certified all of the information shown in the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, statement of changes in net assets available for benefits for the year ended December 31, 2018, supplemental schedule as of December 31, 2018, and Note 2, in accordance with Section 2520.103.8 of the DOL Rules and Regulations for Reporting and Disclosure under the ERISA, except for contributions, benefits, withdrawals, receivables (Note 4). Independent auditors did not audit the information certified by the Trustee and Custodians.

Note 4 – Receivables

Participants pay their loans in bi-weekly installments of principal and fixed interest, at rates ranging from 3.25%-6.00%. Remaining participant account balances secure the loans and they mature on various dates from September 14, 2019 through June 23, 2022.

Note 4 – Receivables (continued)

The Plan accelerates participant loan maturity upon participant termination, death, withdrawal of security or after one full quarter after a scheduled payment remains unpaid.

As of December 31, 2018, matches of and deferrals from compensation earned during the pay period December 9 through 22, 2018 and subsequently received and allocated by the Custodians on January 3, 2019, totaled $4,501 and $22,503, respectively.

As of December 31, 2017, matches of and deferrals from compensation earned during the pay period December 10 through 23, 2017 and subsequently received and allocated by the Custodians on January 4, 2018, totaled $5,428 and $27,140, respectively.

Note 5 – Terminated Participants

As of December 31, 2018 and 2017, participants who were no longer employees of QK had $1,996,899 and $2,899,823 remaining in their accounts, respectively. Vested balances totaled $1,956,937 and $2,839,750, respectively.
