ASSOCIATED MEDICAL PROFESSIONALS OF NY, PLLC EMPLOYEES' 401(k) PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 AND 2017

1. DESCRIPTION OF PLAN

The following description of Associated Medical Professionals of NY, PLLC Employees' 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Associated Medical Professionals of NY, PLLC (the Company), who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to begin salary deferrals after the attainment of age 21 and having completed one year of service. In addition, the safe harbor company match and profit sharing features of the Plan requires employees to have completed one year of service.

Contributions

Each year participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, subject to maximum limitations established by the Internal Revenue Code. In addition, participants who have attained the age of 50 before the close of the Plan year may contribute an additional catch-up contribution. Participants may also contribute amounts representing distributions from other tax-qualified retirement plans.

The Company contributes an amount equal to 3% of a participant's compensation. This contribution is intended to meet certain safe harbor requirements under the Internal Revenue Code. Safe harbor contributions amounted to \$564,998 and \$522,895 in 2018 and 2017, respectively.

Profit sharing contributions may be made at the option of the Company's management. Contributions are subject to certain limitations. The Company elected to make discretionary contributions of \$1,128,657 and \$1,098,995 for 2018 and 2017, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, Company safe harbor contributions, allocations of the Company's profit sharing contributions, Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions and Company safe harbor contributions plus actual earnings/losses thereon. Vesting in the Company's profit sharing contribution portion of their accounts plus actual earnings/losses thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Percent Vested</u>
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account as either a lump-sum amount or installment payments.

Benefit payments from the Plan will be made in a lump sum distribution if the balance is less than \$5,000 and the participant does not direct the Plan otherwise.

In-service withdrawals are permitted for participants that are age 59 ½ or older.

Hardship withdrawals are not allowed under the Plan.

Investment Options

Investments are held within various investment options maintained by Newport Trust Company. Contributions are invested, at the discretion of the participant, in one or a combination of available investment options.

The Plan also allows participants to invest in a self-directed brokerage account. In this account, participants are provided with a wider range of investments including stocks, bonds and mutual funds.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$53,159 and \$53,867, respectively. These amounts are used to reduce future Company contributions. Company contributions were reduced by \$57,134 and \$35,869 through the application of forfeitures, in 2018 and 2017, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles general accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company absorbs reasonable expenses incurred in the administration of the Plan. Expenses relating to certain participant transactions, such as fees related to distributions, are deducted from the participant's account as the transactions occur.

Fair Value Measurement - Definition and Hierarchy

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - Definition and Hierarchy (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the ASC 820 hierarchy is provided in Note 3.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

3. FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- *Money market fund:* valued at cost plus accrued interest, which approximates fair value.
- *Mutual funds:* valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Self-directed brokerage accounts:* valued at the aggregate value of the investments held. Money market accounts are valued at cost plus accrued interest. Mutual funds are valued at the daily closing price as reported by the fund. Common and preferred stocks are valued at closing price reported on the active market on which the individual securities are traded. U.S. government securities and corporate bonds are valued using pricing models maximizing the use of observable inputs for similar securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2018 and 2017:

Fair value measurement at December 31, 2018:

5. PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Plan investments include investment funds managed by Newport Trust Company, who acts as a custodian as defined by the Plan and, therefore, transactions qualify as party-in-interest transactions. Fees paid to Newport Trust Company for investment expenses and administrative services amounted to \$66,405 and \$57,452 for the years ended December 31, 2018 and 2017, respectively.

6. INCOME TAX STATUS

The Plan has received a volume submitter profit sharing plan with CODA letter response from the Internal Revenue Service (the "IRS") dated March 31, 2014, stating that the IRS does not have a ruling or determination on whether the employer's plan qualifies under Code Section 401(a) but an employer who adopts the Apex Pensions, LLC Volume Submitter Plan qualifies under Section 401(a) of the Internal Revenue Code (the "IRC"), and therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. SUBSEQUENT EVENTS

Subsequent events have been evaluated through August 13, 2019, which is the date the financial statements were available to be issued.
