1. DESCRIPTION OF PLAN

The following description of the totes Isotoner Corporation Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Effective July 1, 1987, totes Isotoner Corporation (the "Company" or "Employer"), a subsidiary of totes Isotoner Holdings Corporation, adopted a defined contribution plan which provides benefits to eligible employees upon retirement. The Plan provides for participation, after age 21, upon completion of 30 days of service for salaried, hourly-paid, and retail employees. All employees are eligible for matching Company contributions on the one-year anniversary of their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to make pre-tax and/or after-tax contributions through regular payroll deductions of an amount up to 100% of eligible compensation, subject to Internal Revenue Code ("IRC") limitations. The Plan allows for automatic enrollment of eligible employees at a 3% initial deferral rate, to be increased by 2% annually, limited to 9% of compensation, unless elected otherwise. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Company provides safe harbor matching contributions for employees equivalent to 100% of the first 1% of the participant's contribution and 50% of the next 5% of the participant's contribution, as defined. The Company also makes discretionary contributions to hourly-paid warehouse employees. Discretionary contributions to these employees for the years ending December 31, 2018 and 2017 totaled 1.5% of their respective annual earnings as defined within the Union agreement.

Participant accounts

Each participant's account is credited with the participant's elective contributions and Company matching contributions, as well as allocations of the Company's discretionary contributions and Plan earnings. Allocation of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants are 100% vested in Company safe harbor matching contributions after two years of credited service. Participants are 100% vested in Company discretionary contributions after three years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at rates determined by the plan administrator. Principal and interest are paid ratably through payroll deductions over a maximum period of five years unless it is for the purchase of a participant's principal residence, in which case the loan repayment may exceed five years.

Payment of benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, or annual installments, over a period of time based on the provisions of the Plan, not to exceed ten years. Upon termination, if the participant's vested interest in his or her account is between \$1,000 and \$5,000 and the participant does not direct the plan administrator to make the distribution directly to him or her or into a selected Individual Retirement Account ("IRA"), then the lump-sum distribution will be rolled over into an IRA established by the plan administrator in the participant's name.

In conditions of "financial hardship", a participant may apply to the plan administrator for approval to withdraw the portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the IRC.

Forfeited accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$72 and \$823, respectively. These accounts will be used to reduce future employer contributions or pay administrative expenses. In 2018 and 2017, employer contributions were reduced by \$12,060 and \$25,692, respectively, from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are reported on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. Interest income is recorded on the accrual basis.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Administrative expenses for active participants are paid by the Company to the extent they are not paid by the Plan. Expenses that are paid directly by the Company are excluded from these financial statements. Administrative expenses for terminated deferred participants are deducted directly from the participants' account balance. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual and money market funds: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common/collective trust: Units are valued at the NAV as a practical expedient at year end. The NAV is determined by the trustee based on the fair value of the underlying securities within the common/collective trust. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

The following table summarizes investments measured at fair value based on NAV per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for this investment; the redemption notice period is applicable only to the Plan.

4. INFORMATION CERTIFIED BY THE TRUSTEE

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, and the supplemental schedule of assets (held at end of year) as of December 31, 2018, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds, a money market fund and units of a common/collective trust managed by an affiliate of Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants would become 100% vested in the Company contribution portion of their account.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated October 17, 2016, that the Plan and related trust are designed to be exempt from income taxes in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
