DIVERSIFIED RESOURCES, INC. RETIREMENT 401(K) PLAN

Notes to the Financial Statements

November 2, 2018 and December 31, 2017

(1) Description of plan

The following description of the Diversified Resources, Inc. Retirement 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan was a defined contribution plan which was adopted on February 1, 2016 to provide retirement benefits for employees of Diversified Resources, Inc. (the "Employer"). The Plan covered substantially all full-time employees who were age eighteen or older ("participants"). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective November 2, 2018, all of the net assets of the Plan were merged into the DGOC Employee Savings Plan ("DGOC Plan"), a plan related to the Employer. The net assets transferred were recognized in the accounts of the DGOC Plan as previously carried in the accounts of the Diversified Resources, Inc. Retirement 401(k) Plan.

(b) Contributions

Participants could have voluntarily made qualified retirement contributions to the Plan which were deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC") or could have been after tax in the form of a Roth contribution. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. In order to participate, employees must make a minimum contribution of 1% of compensation. Participant contributions were permitted up to 100% of compensation subject to certain IRC limitations. The Plan had an automatic enrollment provision in which participants would automatically begin contributing 6% of their compensation upon reaching eligibility unless the participant elects otherwise.

During 2018, the Employer could make a discretionary matching contribution up to an amount equal to 100% of the participant's contributions up to 4% of eligible compensation. Employer and participant contributions could not exceed the maximum amount deductible for federal income tax purposes.

Notes to the Financial Statements

November 2, 2018 and December 31, 2017

(c) Participant accounts

Each participant's account was credited or charged with the participant's contributions, allocations of Employer contributions, investment earnings (losses) of the investment options reflected by the participant, and an allocation of administrative expenses. Allocations were based on participant's compensation or account balances as defined in the plan agreement. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

(d) Vesting

Participants were immediately vested in their elective salary deferral plus actual earnings (losses) thereon. Vesting in the Employer's matching contribution was based on years of continuous service. Participants vested after five years of credited service.

<u>Years of Service</u>	<u>Vesting</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Participants would also become 100% vested upon full or partial termination of the Plan, or in one of the following ways, if incurred while employed: (1) death or (2) disability.

(e) Notes receivable from participants

Participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes receivable from participants were secured by the balance in the participant's account and bore interest at fixed rates ranging from 4.50% to 5.25%, which were commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest were paid ratably through payroll deductions. Any outstanding balances on the notes receivable were transferred to the DGOC Plan on November 2, 2018.

(f) Payment of benefits

On termination of service due to death, permanent disability, or retirement, a participant could elect to receive a lump-sum payment equal to his or her entire account. For termination of service due to other reasons, a participant was entitled to receive only the vested interest in his or her account as a lump-sum distribution.

DIVERSIFIED RESOURCES, INC. RETIREMENT 401(K) PLAN

Notes to the Financial Statements

November 2, 2018 and December 31, 2017

(g) Forfeited accounts

Forfeitures were created when participants terminate employment prior to becoming fully vested in the Employer contribution portion of their accounts. Such forfeitures reduced the Employer's contributions to the Plan. At November 2, 2018, there were no forfeited nonvested accounts. At December 31, 2017, forfeited nonvested accounts totaled \$593. These accounts were used to reduce Employer contributions by \$510 during 2018.

(h) Hardship withdrawals

The Plan permitted distributions in the event of a hardship, as defined in the plan agreement. These distributions were taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant was younger than age 59½. Hardship withdrawals were limited to the participant's elective account balance.

(i) Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Employer and were excluded from these financial statements. Fees related to the processing of distributions were included in administrative expenses and charged directly to the participant's account. Investment related expenses were included in net depreciation in fair value of investments.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

(b) Investment valuation and income recognition

Investments were stated at fair value (except for the fully benefit-responsive insurance contract, which was reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determined the Plan's valuation policies utilizing information provided by the investment advisers and Nationwide Financial Services, Inc. ("Nationwide"). See Notes 4 and 5 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Net depreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

DIVERSIFIED RESOURCES, INC. RETIREMENT 401(K) PLAN

Notes to the Financial Statements

November 2, 2018 and December 31, 2017

(c) Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes were reclassified as distributions based upon the terms of the plan document.

(d) Payment of benefits

Benefits were recorded when paid.

(e) Use of estimates

The preparation of financial statements in conformity with U.S. GAAP required management to make estimates and assumptions that affected the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Employer has evaluated events and transactions that occurred between November 2, 2018 and September 13, 2019, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Certified information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including the fair (or contract) value of investments and notes receivable from participants held at November 2, 2018 and December 31, 2017, and net depreciation in fair value of investments and interest on notes receivable from participants for the period from January 1, 2018 through November 2, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Nationwide Financial Services, Inc. ("Nationwide").

(4) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

DIVERSIFIED RESOURCES, INC. RETIREMENT 401(K) PLAN

Notes to the Financial Statements

November 2, 2018 and December 31, 2017

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 2, 2018 and December 31, 2017.

- (i) *Mutual funds*: Valued based on the funds' reported closing net asset values of shares held by the Plan as of the last business day of the plan year. The mutual funds were deemed to be actively traded and classified as Level 1 in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no plan assets within the fair value hierarchy held by the Plan at November 2, 2018. The Plan held mutual funds totaling \$2,242,814 as of December 31, 2017, which were classified as Level 1 investments.

(5) Insurance contract with insurance company

The Plan entered into a guaranteed insurance contract with Nationwide. The guaranteed insurance contract was considered fully benefit-responsive. Nationwide maintained the Plan's contributions in a general account which was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There were no reserves against contract value for credit risk of the contract issuer or otherwise. There was no balance in the insurance contract at November 2, 2018. The contract value of the insurance contract was \$9,953 at December 31, 2017.

DIVERSIFIED RESOURCES, INC. RETIREMENT 401(K) PLAN

Notes to the Financial Statements

November 2, 2018 and December 31, 2017

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Employer or other Employer events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. The plan administrator believed that any events that would limit the ability of the Plan to transact at contract value with the participants were probable of not occurring. The investment account did not permit Nationwide to terminate the agreement prior to the scheduled maturity date.

(6) Excess contributions

Contributions received from participants for 2017 were net of payments of \$23,198 made in 2018 to certain active participants to return to them excess deferral and matching contributions, as required to satisfy the relevant nondiscrimination provisions of the Plan.

(7) Income tax status

The Plan Sponsor adopted a prototype plan, which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2014, which stated that the prototype plan was designed in accordance with the applicable sections of the IRC. The Plan itself had not received a determination letter from the IRS stating that the Plan was qualified under Section 401(a) of the IRC. However, the plan administrator believed that the adopted prototype plan was designed and operated in compliance with the applicable requirements of the IRC and was therefore, qualified and exempt from taxation.

U.S. GAAP required plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator analyzed the tax positions taken by the Plan, and concluded that as of November 2, 2018, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Related party and party-in-interest transactions

Certain Plan investments were shares of mutual funds and a guaranteed insurance contract managed by Nationwide and, therefore, these transactions qualified as party-in-interest transactions under ERISA. As described in Note 1, the Plan paid expenses to various service providers and held notes receivable from participants which also qualified as party-in-interest transactions.

Notes to the Financial Statements

(9) Risks and uncertainties

The Plan utilized various investment instruments. Investment securities, in general, were exposed to various risks, such as interest rate, credit, and overall market volatility.
