1. DESCRIPTION OF PLAN

The following description of the Rockingham Electrical Supply Co., Inc. 401(k) Profit Sharing Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreements for more complete information.

General

The Plan is a defined contribution plan that covers substantially all employees of Rockingham Electrical Supply Co., Inc. (the Company). The Plan has three major components: an employee salary deferral component under Section 401(k) of the Internal Revenue Code (IRC), a discretionary employer matching contribution, and a discretionary employer profit sharing contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of IRC Section 401(k). Under IRC Section 401(k), participants are not liable for federal income taxes on employee contributions, Company contributions, or Plan earnings until such time as they are partially or completely withdrawn from the Plan.

Salary Reduction Provision

Under the provisions of the Plan, an eligible employee may elect a reduction in eligible salary up to the maximum percentage allowable not to exceed the limits of IRC Sections 401(k), 402(g), 404, and 415. An employee is eligible to participate in the Plan provided they have reached 21 years of age and have completed one year of service. Upon meeting eligibility requirements, participants may begin making deferrals on the first Plan entry date, January 1, or July 1. Any salary deferral contributions are maintained in a separate account for each participant and are invested in accordance with the investment strategy selected by each individual participant. The Plan also provides for catch-up contributions for participants over age 50 in accordance with IRC Section 414(r). All amounts credited to an employee's elective deferral account are 100% vested and non-forfeitable at all times.

Discretionary Employer Matching Contributions

The Company may elect to make a discretionary matching contribution on behalf of eligible participants. Contributions are maintained in a separate Company Matching Contribution account for each participant and are invested in accordance with the investment strategy selected by each individual participant. All amounts credited to a Company Matching Contribution account vest over a six year period.

Discretionary Employer Profit Sharing Contributions

The Company may also elect to make a discretionary profit sharing contribution on behalf of eligible participants. To be eligible to receive a profit sharing contribution, a participant must be employed as of the last day of the Plan year and must have completed 1,000 hours of service during the Plan year. The contribution will be allocated to eligible employees proportionately based upon the ratio of each employee's compensation for the Plan year to the total eligible compensation for the Plan year. Any contributions are maintained in a separate Company Profit Sharing Contribution account for each participant and are invested in accordance with the investment strategy selected by each individual participant. All amounts credited to a Company Profit Sharing Contribution account vest over a six year period. The Company did not make a profit sharing contribution for the year ended December 31, 2018.

1. DESCRIPTION OF PLAN (CONTINUED)

Rollovers

The Plan allows for direct rollovers from other qualified plans. The rollover amounts must be transferred to the Plan within sixty days of the participant's receipt of the funds from the participant's former plan. Any rollovers are maintained in a separate account for each participant and are invested in accordance with the investment strategy selected by each individual participant. All amounts credited to an employee's rollover account are 100% vested and non-forfeitable at all times.

Participant Accounts

Each participant account is credited with the Company contributions, participant's contributions, and Plan earnings, and may be charged with an allocation of administrative expenses depending upon the participant's choice of investment mechanism. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions made to these accounts are directed by the participant into the investments offered by the administrator and the allocations between investments can be changed at will.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting on the Company's matching and profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service based on the following schedule. A year of service for vesting purposes is any Plan year in which a participant works at least 1,000 hours. Participants with less than six years of service shall have a vested non-forfeitable interest in that portion of their account consisting of the Company matching and profit sharing contributions in accordance with the following schedule:

Years of Service	Percent Vested
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Forfeitures

If a participant is distributed their entire vested portion or incurs five consecutive one-year breaks in service, the participant shall forfeit amounts that were in excess of their vested interest. Any forfeitable amounts are held by the Plan in a special account and shall be added to employer contributions or used to offset Plan expenses. If a terminated employee returns to service with the Company within five years, previously forfeited amounts will be returned to their account by the Company provided the participant repays any amount previously distributed to the Plan. Forfeited non-vested accounts totaled $9,430 and $11,444 at December 31, 2018 and 2017, respectively.

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, a participant has the right to receive all of the fully vested funds in their account. Participants with a balance of $1,000 or greater have the right to keep their retirement account in the Plan or elect to have the benefits paid by the purchase of an annuity. Participants may request to have the distribution paid in a lump sum. All participants with a vested account balance of less than $1,000 will automatically receive the value in a lump sum distribution. A participant may also request a withdrawal upon attainment of age 59½ or upon demonstration by the participant to the Plan administrator that the participant is suffering from "hardship". Hardship is defined in applicable regulations of the IRC or in the Plan documents. There were no amounts allocated to withdrawing participants for benefit claims that have been processed and approved for payment prior to December 31, 2018, but not paid as of that date.

Notes Receivable From Participants

Participants may borrow from their accounts up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a commercially reasonable rate for the geographical area, as determined by the Plan administrator. Principal and interest are paid back ratably through payroll deductions with terms from one to five years, unless it is for the purchase of a primary residence, in which the loan period may be longer.

Expenses and Plan Costs

At the election of the Company, some of the costs of administering the Plan may be paid by the Company. If the Company does not elect to pay the administrative expenses, the expenses are paid by the Plan. Administrative expenses totaling $38,357 were paid by the Plan during 2018.

Reclassifications

Certain reclassifications have been made to the December 31, 2017 financial statements to conform to the December 31, 2018 financial statement presentation. Such reclassifications had no effect on net assets available for benefits as previously reported.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair market value (except for fully benefit-responsive investment contracts), based on quoted market prices on the last day of the Plan year as certified by the custodian, and, accordingly, the investment income includes unrealized gains and losses on investments held as of that date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of investments are recorded on a trade-date basis. The difference between the current value and the cost of investments is reflected in the statement of changes in net assets available for benefits and is included in the net depreciation in the fair value of the investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses as incurred. Loans are considered delinquent when no payments have been received for 90 days and will be reclassified as distributions based on the terms of the Plan document. Management considers all loans to participants to be fully collectible; accordingly, no allowance for doubtful accounts is required. The interest rates range from 5.25% to 7.00%.

Payment of Benefits

Distributions to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent Events

Subsequent events are events or transactions that occur after the Plan year end but before the financial statements are available to be issued. The Plan has evaluated these events through September 9, 2019.

3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN AND RECORDKEEPER OF PLAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan (Reliance Trust Company) and the recordkeeper of the Plan (The Standard Insurance Company) have certified to the completeness and accuracy of the investments, at fair value and contract value, respectively, reflected on the accompanying statements of net assets available for benefits at December 31, 2018 and 2017, the related investment activity reflected on the statement of changes in net assets available for benefits for the year ended December 31, 2018, and the schedule of assets (held at end of year) at December 31, 2018.

4. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan's guaranteed investment contract is considered fully benefit-responsive in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification No. 962, *Plan Accounting – Defined Contribution Pension Plans*, as determined by The Standard Insurance Company. It is recorded at contract value, which approximates fair value, as certified by The Standard Insurance Company. Contract value represents contributions made under the contract, plus interest at a specified rate determined by the custodian. Funds are deposited quarterly by The Standard Insurance Company into the Company's general account. The fund credits interest on a quarterly basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The following represents the disaggregation of contract value for the investment contracts held by the Plan for the years ended December 31:

	2018	2017
Traditional Investment Contract	$ 799,925	$ 825,741

The interest rate is established each quarter. The guaranteed rate at December 31, 2018 and 2017 was 2.53% and 2.30%, respectively. The actual yield for 2018 and 2017 was 2.53% and 2.30%, respectively.

5. FAIR VALUE MEASUREMENTS

Accounting standards establishes a framework for measuring fair value. The framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018:

Mutual Funds and Money Market Accounts – Valued at the net asset value of shares held by the Plan at year end as determined by quoted market prices.

Common Trust Funds – Units held in common trusts are valued using the net asset value practical expedient (NAV practical expedient) of the fund as reported by the fund managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments are classified based upon the lowest level of input that is significant to the fair value measurement. The following table represents by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31:

December 31, 2018	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 3,477,001	$ -	$ -	$ 3,477,001
Common Trust Funds	-	2,152,455	-	2,152,455
	$ 3,477,001	$ 2,152,455	$ -	$ 5,629,456

December 31, 2017	Level 1	Level 2	Level 3	Total
Cash	$ 10,389	$ -	$ -	$ 10,389
Mutual Funds	3,523,777	-	-	3,523,777
Common Trust Funds	-	2,072,214	-	2,072,214
	$ 3,534,166	$ 2,072,214	$ -	$ 5,606,380

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon Plan termination, participants would become 100 percent vested in their employer contributions.

7. PARTY-IN-INTEREST TRANSACTIONS

Related parties include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Accordingly, notes receivable from participants and the management of investments held by the custodian are considered party-in-interest transactions.

Baldwin & Clarke Retirement Plan Services, Inc., Compass Retirement Consulting Group, Inc., Reliance Trust Company, and The Standard Insurance Company provide certain services to the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative services amounted to $38,357 at December 31, 2018.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

8. INCOME TAX STATUS

The Company has adopted a prototype document sponsored by Compass Retirement Consulting Group, Inc. This prototype document received an opinion letter dated March 31, 2014, stating that the Plan was designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan sponsor believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting standards require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as world events, interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
