1. DESCRIPTION OF PLAN

The following description of the Cardiovascular Provider Resources 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Cardiovascular Provider Resources, Inc. (the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company.

All employees of the Company, and its participating subsidiaries and affiliates, who have completed thirty days of service, as defined, are eligible to participate, provided they are at least 21 years of age. Employees must complete 30 days of service to receive employer matching contributions, provided they are at least 21 years of age. Employees must complete one year of service to receive employer profit sharing contributions, provided they are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is administered by the 401(k) Savings Plan Committee (the "Plan Administrator") which is appointed by the Company's Chairman of the Board of Directors. The duties of the Plan Administrator are to oversee the operations and administration of the Plan in accordance with the specific terms of the Plan. The Plan's trustee, Charles Schwab Bank (the "Trustee"), is responsible for the custody and management of the Plan's assets. Milliman USA, Inc. is the Plan's record keeper.

Contributions

Each year, participants may contribute up to 75% of annual compensation, as defined in the Plan. At the Participant's election, these may be either "traditional" before-tax deferrals or "Roth" after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. New employees are automatically enrolled in the plan on the first day of the month coinciding with or next following the completion of 30 days of service and reaching age 21. Employees hired or rehired by the Company, are automatically enrolled, and upon meeting eligibility requirements. The automatic enrollment deferral percentage was 3% of pre-tax compensation for 2018 and 2017. The employee may change the deferral rate or elect not to contribute. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan also provides that the Company make matching contributions to each eligible Participant who voluntarily contributed to the Plan. Under this provision, the Company matched 25% of the Participant's contribution up to 6.73% and 6.67% of the Participant's eligible compensation in 2018 and 2017, respectively. Contributions are subject to certain limitations.

The Plan is a "Safe Harbor" Plan. The Company will make safe harbor profit sharing contribution to the Plan on behalf of all eligible, non-highly compensated employees equal to 3% of compensation. Compensation earned prior to eligibility for the profit sharing contribution is excluded. Non-highly compensated employees receive the 3% safe harbor contribution once they satisfy the profit sharing eligibility requirements (one year of service and reaching age 21), even if they do not make 401(k) deferral contributions.

The Company may elect to make a discretionary (non-safe harbor) profit sharing contribution to the Plan in such amounts as its Board of Directors may determine. In order to receive a discretionary profit sharing contribution, the Participant must first meet the profit sharing eligibility requirements. The discretionary profit sharing contribution will be allocated based on a formula that takes into consideration compensation, age, and job classification. Participants must be actively employed on the last day of the Plan year to receive the discretionary profit sharing contribution. An exception applies if the Participant retires, becomes disabled, or dies during the Plan year. Forfeitures from a terminated Participant's profit sharing contribution account may be used to reduce employer contributions or may be used to pay Plan expenses in the Plan year such forfeitures occur.

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

The Plan does not allow loans to Participants.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching and profit sharing contributions, as well as the participant's share of investment income, appreciation (depreciation), and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant is automatically fully vested in employee pre-tax contributions, safe harbor profit sharing contributions, and rollovers plus actual earnings thereon. Participant vest in the employer matching and discretionary (non-safe harbor) profit sharing contributions in 20% annual increments beginning in year two and are 100% vested after six years of service. Additionally, full vesting occurs upon a participant's death, permanent disability, normal retirement date (age 65), or termination of the Plan. Participants who leave the Company before they are fully vested in the Company's contributions forfeit their non-vested portion.

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, for or on behalf of the participant, to any one or more of the investment funds determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution or a direct transfer to another qualified retirement plan subject to certain conditions, equal to the participant's vested account balance. In addition, hardship and in-service distributions are permitted if certain criteria are met. Participants may not make contributions to the Plan for at least six months after receipt of a hardship distribution. Benefits are recorded when paid.

Forfeited Accounts

Forfeitures can be used to offset any future employer contributions, either profit sharing or matching, regardless of the source of the forfeiture, or may be used to pay Plan administrative expenses. At December 31, 2018 and 2017, forfeited non-vested accounts totaled $18,816 and $24,900, respectively. For the years ended December 31, 2018 and 2017, forfeited non-vested accounts used to offset employer matching contributions and plan expenses totaled $74,060 and $149,029, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

Administrative fees related directly to the net asset balance of the Plan's investments are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for these expenses.

Investment Valuation and Income Recognition

Investments are stated at fair value. Changes in market value are reflected in operations. Mutual funds represent investments with various investment managers. The net asset value is based on the market value of the underlying investments, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. Purchases and sales of investments are recorded on the trade-date basis. Interest and other income are recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation (depreciation) of investments includes realized gains and losses on sales during the year and current changes in unrealized appreciation in the market value of investments held at year-end.

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan Administrator has elected the method of compliance permitted by Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified to the completeness and accuracy of the following data reflected on the accompanying statements of net assets available for benefits, the supplemental Schedule of Assets (Held at End of Year), and the related investment activity reflected in the statements of changes in net assets available for benefits as of and for the years ended December 31:

	2018	2017
Investments at fair value:		
Interest bearing cash	$ 6,191,490	$ 5,163,597
Mutual funds	57,699,629	63,974,313
Non-interest bearing cash	2,766	2,483
	$ 63,893,885	$ 69,140,393

	2018	2017
Investment income (loss):		
Interest and dividends	$ 3,831,073	$ 2,937,926
Net appreciation (depreciation) in fair value of investments	(7,724,330)	6,064,386
	$ (3,893,257)	$ 9,002,312

The Plan's independent accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

4. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Charles Schwab Trust Company. Charles Schwab Bank is the Trustee as defined by the Plan; therefore, the transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

5. REPORTABLE TRANSACTIONS

During the years ended December 31, 2018 and 2017, there were no reportable transactions, investment assets acquired and disposed of within the Plan year, or non-exempt transactions with parties-in-interest which would require supplemental presentation under United States Department of Labor Rules and Regulations.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the IRC. The Plan provides for full and immediate vesting of all participant rights upon termination of the Plan.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 13, 2018, stating that the Plan and related trust are designed in accordance with Section 401(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

8. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

8. FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of levels 1, 2, or 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017:

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Interest bearing cash: Valued at the NAV of units held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the level, within the fair value hierarchy, for the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 6,191,490	$ -	$ -	$ 6,191,490
Mutual funds	57,699,629	-	-	57,699,629
Total investments at fair value	$ 63,891,119	$ -	$ -	$ 63,891,119

The following table sets forth the level, within the fair value hierarchy, for the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 5,163,597	$ -	$ -	$ 5,163,597
Mutual funds	63,974,313	-	-	63,974,313
Total investments at fair value	$ 69,137,910	$ -	$ -	$ 69,137,910

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 29, 2019, the date the financial statements were available to be issued.

Effective July 1, 2019, the plan was amended to make the certain changes to include an automatic increase for participant's contribution rate. Therefore, unless the participants elect otherwise, the contribution rate will be automatically increased, on a pre-tax basis, by one percent each year on the anniversary of the date of hire. This annual increase will continue until it reaches a contribution rate of six percent. However, this automatic increase does not apply to physicians or participants who have a salary reduction agreement in effect to already defer at least 6% of compensation.

Effective July 1, 2019, participants will no longer be able to request a withdrawal of their automatic 401(k) contributions within 90 days of the first contribution, unless this contribution was made according to the eligible automatic contribution arrangement in effect prior to July 1, 2019.
