DRESSER-RAND COMPANY RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the Dresser-Rand Company Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all non-bargaining unit employees of Dresser-Rand Company (the Company), a wholly-owned subsidiary of Siemens AG. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. On June 15, 2018 the Company approved a merger of the Plan into the Siemens Savings Plan and the Siemens Savings Plan for Union Employees (collectively, the Siemens Plans). As a result, the participants of the Plan and the assets in their accounts were transferred to either the Siemens Savings Plan or the Siemens Savings Plan for Union Employees based on the eligibility criteria of the Siemens Plans. Contributions to the Plan ceased for payroll periods ended after June 30, 2018. On November 29, 2018, the legal rights and obligations to all assets and liabilities of the Plan were transferred to the Siemens Plans pursuant to the eligibility criteria, as defined.

The following is a description of the significant terms of the Plan prior to the merger.

Administration:

The Dresser-Rand Company Employee Benefits Committee (Employee Benefits Committee) was responsible for administering the Plan's operations and oversight of the Plan. The Dresser-Rand Company Investment Committee (Investment Committee) was responsible for overseeing Plan investments.

Master Trust:

The investments of the Plan were held in the Dresser-Rand Company Retirement Savings Plan Master Trust (the Master Trust) pursuant to the trust agreement with Fidelity Management Trust Company (Fidelity). The Master Trust segregated and separately identified the balances and transactions related to each of the participating plans. Accordingly, each participating plan had a direct identifiable interest in its balances and transactions in the Master Trust. The Master Trust interest income, dividend income, and net appreciation (depreciation) in the fair value of investments (which consisted of realized gains (losses) and unrealized appreciation (depreciation) in the fair value of investments) was recorded based on the Plan's specific interest in the underlying investments. As of December 31, 2017, the Plan's interest in the net assets of the Master Trust was 90.9%.

Eligibility:

Employees eligible to participate in the Plan were employees of the Company who were paid on the Dresser-Rand U.S. payrolls and classified as full-time, part-time, or temporary employees working under one of the following classifications for the Company, or an affiliated company that participated in the Plan: exempt or non-exempt salaried employees, hourly employees not covered by a collective bargaining agreement, ex-pats, in-pats, or qualified foreign employees. Employees were automatically enrolled in the Plan upon meeting eligibility requirements.

DRESSER-RAND COMPANY RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Eligibility (continued):

Certain classifications of employees were not eligible for participation in the Plan such as: an employee represented by a collective bargaining agreement, a non-resident alien with no U.S. source income from the Company, a leased employee, third country nationals, as defined, certain field service classifications as defined, certain pay grades, as defined, an employee classified as an intern, or a temporary employee paid by a third-party. Individuals classified as independent contractors were not eligible for participation in the Plan.

Contributions:

The Plan allowed participants to make pre-tax and/or Roth contributions of up to 75% of their eligible earnings, as defined by the Plan document. In addition, the Plan allowed participants who have reached age fifty to make additional pre-tax and Roth contributions. Participants were also allowed to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company made a non-matching contribution equal to 3% of a participant's eligible earnings (Basic). The Company also made a matching contribution equal to 100% of participant contributions up to the first 3% of eligible earnings plus 50% of participant contributions to the extent that such contributions exceeded 3% of eligible earnings but did not exceed 5% of eligible earnings (Matching). Furthermore, participants who were members of the Pension Plan for Employees of Dresser-Rand Company when it was frozen on March 31, 1998, may have received an additional, actuarially determined, non-matching, Company contribution (Equalizer). For the period January 1, 2018 through November 29, 2018 and for the year ended December 31, 2017, the Company made Basic contributions of \$2,770,436 and \$6,322,554, Matching contributions of \$3,058,939 and \$6,797,150, and Equalizer contributions of \$44,373 and \$130,717, respectively.

Contributions were subject to certain limitations as set by the Internal Revenue Code (the Code).

Participant accounts:

Each participant's account was credited with the participant's contributions, Company contributions, interest income on notes receivable from participants, a daily allocation of Plan earnings or losses, and directly charged for benefits paid, loan origination fees and other Plan expenses, as applicable. Plan earnings or losses were allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant was entitled was limited to that which could be provided from the participant's vested account.

DRESSER-RAND COMPANY RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Participant accounts (continued):

Participants could direct contributions to be invested among various investment fund options held in the Master Trust. The Plan, at the direction of participants, instructed Fidelity to execute investment transactions, as well as distributions and participant loans. Participants could elect to change the allocation of their individual accounts among the investment options offered by the Plan at any time.

Vesting:

Each participant's contributions plus Matching contributions and earnings thereon were fully vested at all times. Participants became fully vested in Basic and Equalizer contributions and earnings thereon after three years of service, as defined. In addition, each participant became 100% vested in Basic and Equalizer contributions at age sixty-five, or upon death or disability.

Forfeited accounts:

Participants who terminated their employment with the Company forfeited any non-vested portion of employer contributions and earnings thereon in accordance with the terms of the Plan document. Such forfeitures were available to the Company to: 1) reduce Company contributions, 2) correct operational errors, or 3) pay Plan expenses. For the period January 1, 2018 through November 29, 2018 and for the year ended December 31, 2017, \$277,190 and \$272,530, respectively, of forfeited non-vested accounts were used to pay Plan expenses. At November 29, 2018 and December 31, 2017, forfeited non-vested accounts totaled \$-0- and \$322,239, respectively.

Notes receivable from participants:

Participants could borrow from their account a minimum of \$1,000 up to a maximum loan equal to the lesser of \$50,000 or 50% of their vested account. A participant could not have more than one loan outstanding at any given time. The loans were secured by the balance in the participant's account and bore interest at a rate equal to the prime rate on the first day of the month in which the loan was made plus 1%. Loans were to be repaid over a maximum term of five years for personal loans and thirty years for the purchase of a participant's primary residence. Principal and interest were paid ratably through monthly payroll deductions.

Benefits paid to participants:

The Plan disbursed funds upon a participant's termination of employment, death, disability, or retirement. A participant could have elected to receive a lump sum distribution, have their funds rolled over to another qualified retirement account, or receive periodic payments.

DRESSER-RAND COMPANY RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Benefits paid to participants (continued):

During employment, participants were generally able to make withdrawals from their after-tax, rollover and vested employer contributions to the Plan, and the earnings on such amounts. Under certain circumstances, if a participant demonstrated a financial hardship (as defined by the Plan), they could take a hardship withdrawal. In addition, a participant who reached the age of 59½ could take a withdrawal of his or her vested account balance without demonstrating financial hardship. These withdrawals were subject to certain restrictions and taxes.

Plan expenses:

Loan origination fees associated with notes receivable from participants and certain other administrative fees were paid for by the Plan. All other costs of administering the Plan were paid by the Company. Certain investment expenses related to fund management are included in net investment income (loss), as they were paid through revenue sharing, rather than a direct payment from the Master Trust or Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The financial statements have been prepared on the accrual basis of accounting.

Investment valuation and income recognition:

The Plan's investment in the Master Trust and the investments held by the Master Trust are reported at fair value. See Note 4 for a description of fair value measurements. The Investment Committee determined the Master Trust's valuation policies utilizing information provided by Fidelity and investment advisors.

The Master Trust recorded purchases and sales of securities on a trade-date basis; interest income on the accrual basis; and dividends on the ex-dividend date. Net investment income (loss) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits:

Benefit payments to participants are recorded when paid.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as Plan expenses when they are incurred. No allowance for credit losses was considered necessary as of December 31, 2017. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan document.

Fair value measurements:

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the entity has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used by the Plan for the underlying investments in the Master Trust measured at fair value at December 31, 2017:

Collective Trust Funds: Valued at the net asset value (NAV) of units of a bank's collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Mutual Funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan through the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The funds held by the Plan through the Master Trust were deemed to be actively traded.

Fair value measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value at December 31, 2017. The classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 139,565,103	\$ -	\$ -	\$ 139,565,103
Collective trust funds measured at NAV (a)				416,382,651
Total investments, at fair value				\$ 555,947,754

(a) In accordance with Accounting Standards Codification subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amount presented in the table is presented to permit reconciliation of the fair value hierarchy to the line items presented in the net assets of the Master Trust.

For all investments using the NAV practical expedient, the redemption frequency is daily and there are no unfunded commitments at December 31, 2017.

Note 5. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 4, 2015, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan was designed and was operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that as of November 29, 2018 and December 31, 2017, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 6. Party-In-Interest Transactions

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan allowed participants to take loans from their accounts in the Plan. These notes receivable from participants and interest income thereon qualify as party-in-interest transactions. Fidelity Investments Institutional Operations Company, Inc. (Fidelity Investments) is an affiliate of Fidelity, the trustee of the Plan. Fees paid by the Plan to Fidelity Investments for administrative expenses amounted to \$291,890 and \$286,980 for the period January 1, 2018 through November 29, 2018 and for the year ended December 31, 2017, respectively, which qualify as party-in-interest transactions.

Certain investments held by the Master Trust were shares of mutual funds managed by an affiliate of Fidelity and therefore, transactions with these funds qualified as party-in-interest transactions. Fees incurred by the Plan and the Master Trust for the investment management services are included in net investment income (loss), as they are paid through revenue sharing, rather than a direct payment.
