Sierra Pacific Industries Employees' Retirement Plan

Notes to Financial Statements

December 31, 2018

1. Description of Plan

The following description of the Sierra Pacific Industries Employees' Retirement Plan (the Plan) provides general information about the Plan's provisions. Sierra Pacific Industries (the Company or Employer) is the plan sponsor. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Sierra Pacific Industries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan Administrative Committee, appointed by the Company's Board of Directors, administers the Plan. Vanguard Fiduciary Trust Company is the trustee (the Trustee) and The Vanguard Group, Inc. is the recordkeeper for the Plan.

An employee of the Company must complete 1,000 hours of service during a 12-month period to be eligible to participate in the Plan. An employee can make 401(k) contributions to the Plan after 90 consecutive calendar days of active employment as a regular employee, uninterrupted by any periods of unemployment.

The Company automatically enrolls all new employees who are eligible participants on or after January 1, 2006. The default deferral amount is 4%, and this percentage will increase by 1% (up to a maximum deferral amount of 50%) each July 1, unless a participant makes a different election. Participants who joined the Company prior to January 1, 2006, may enroll in the automatic increase program as they choose.

Contributions

Each year, participants may contribute up to 50% of their eligible compensation, as defined in the plan document, through payroll deductions. Annual participant contribution amounts are limited to $18,500 for the year ended December 31, 2018 (an additional $6,000 for participants age 50 years or older) as prescribed under the Internal Revenue Code (the IRC). The Company may match 100% of the first $1,000 of eligible employee deferral contributions and 50% of the second $1,500 of eligible employee deferral contributions, up to a maximum match of $1,750 per year per participant. As a result, $5,806,245 was contributed to the Plan in 2019 for the 2018 plan year. The Company may make a profit-sharing contribution to the Plan in such amounts as determined by

1. Description of Plan (continued)

the Board of Directors. The Board of Directors approved the contribution rate per hour worked by eligible employees of $0.77 per hour for 2018. As a result, $6,960,133 was contributed to the Plan in 2019 for the 2018 plan year. The Plan also accepts Roth 401(k) salary deferrals made by participants. Participants' Roth 401(k) salary deferrals are allocated to a separate account maintained for such deferrals.

The annual profit-sharing contribution is allocated to each participant's profit-sharing account in the following manner:

- Fifty percent is allocated in proportion to the number of eligible hours worked by the participant relative to the total eligible hours worked by all participants during the year.

- Fifty percent is allocated on the basis of unit credits, with one unit credited for each $100 of annual compensation and one unit credited for each year of service.

The maximum annual addition to a participant's account in the 2018 plan year is the lesser of 100% of the employee's compensation or $55,000, as established by IRC Section 415(c).

Participants direct the investment of their contributions and the Company's matching and profit-sharing contributions into various mutual fund options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers from other plans, investment earnings and losses, and the Company's matching and profit-sharing contributions. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Forfeitures

As defined in the plan document, forfeitures attributable to matching contributions during the plan year that are not used to restore participant's accounts as of the last day of such plan year may reduce the Company's matching contribution for such year and be allocated as of the last day of the plan year to the eligible participant accounts. If not so allocated, these forfeitures may be allocated along with forfeitures attributable to company profit-sharing contributions.

1. Description of Plan (continued)

Forfeitures attributable to profit-sharing during a plan year that are not used to restore participant's accounts as of the last day of such plan year or used to pay plan expenses may be added to the profit-sharing contribution for such year and allocated as of the last day of the plan year to the eligible participant accounts.

During 2018, forfeited balances relating to profit-sharing and matching contributions of terminated participants' non-vested accounts that were not used to restore the accounts of terminated participants who subsequently resumed employment with the Company were used to pay plan expenses. Any remaining forfeitures, less amounts reserved for restoration of future forfeitures upon participant plan re-entry and potential plan expenses, were distributed among eligible participants. At December 31, 2018 and 2017, the amount of unallocated forfeitures was approximately $125,000 and $100,000 for employees terminated in 2018 and 2017, respectively. During the year ended December 31, 2018, $54,461 was used to pay administrative expenses and the remaining allocated to participants.

Vesting

Participants are immediately vested in their employee contribution accounts. The Plan provides that participants vest in their employer account balance (including both matching and profit-sharing contributions) at the rate of 20% after the second year and 20% in each subsequent year, based upon completion of 1,000 hours of service during the year, until they are fully vested after the completion of six years of service.

Payment of Benefits

On termination of service, retirement, disability, or death, a participant may receive a lump-sum amount or installment payments equal to the vested value of his or her account. The Plan also provides that a participant, or participant's beneficiary, will become fully vested in the participant's account upon reaching age 59½ while employed, permanent disability or death. If the participant's account is less than $1,000, the account is distributed in a lump sum.

Hardship withdrawals from employee contribution accounts are permitted if certain criteria are met.

Administrative Expenses

Substantially all administrative expenses are paid from the Plan's unallocated forfeitures account.

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The investments in affiliates of the Trustee's mutual funds are valued at quoted market prices, which represent the net asset values of such shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and net depreciation in the fair value of investments, interest, dividends, and investment management fees for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are not active.
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value:

	Assets at Fair Value as of December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 387,668,308**	**$ –**	**$ –**	**$ 387,668,308**
Total mutual funds	**$ 387,668,308**	**$ –**	**$ –**	**$ 387,668,308**

	Assets at Fair Value as of December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 403,584,957	$ –	$ –	$ 403,584,957
Total mutual funds	$ 403,584,957	$ –	$ –	$ 403,584,957

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the IRS) dated April 25, 2014, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is operating in compliance with the applicable requirements of the IRC and therefore believes the Plan, as amended, is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Party-in-Interest Transactions

The Plan holds mutual funds issued by an affiliate of the Trustee for the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.
