Note 1 - Description of Plan

General

The Superior Energy 401(k) Plan (the Plan) is a safe harbor defined contribution 401(k) plan covering all full time employees of Superior Energy Services, Inc. and its wholly owned subsidiaries (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Administration of the Plan

The Plan Administrator and sponsor is Superior Energy Services, Inc. The 401(k) Administrative Committee (the Committee) is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance. Fidelity Management Trust Company serves as the Trustee. Among other duties, the Trustee receives contributions, holds and invests the fund assets in accordance with the directions of the participants, and makes disbursements as directed by the Plan Administrator. Fidelity Workplace Services LLC is the recordkeeper of the Plan.

Eligibility

Employees are eligible to participate in the Plan on the most administratively feasible payroll check following the completion of 60 days of employment, with no age requirement.

Participant Contributions

Each year, participants may contribute not less than 1% and not more than 75% of eligible compensation, including bonuses, subject to Internal Revenue Code (the Code) restrictions. Participants age 50 or older during the Plan year may also elect to make a "catch-up" contribution, subject to certain Code limits. Participant contributions may be in the form of pre-tax 401(k) deferrals or Roth 401(k) deferrals. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Employer Contributions

To maintain safe harbor status, the Company will make safe harbor matching contributions equal to 100% of the participant's salary deferrals that do not exceed 4% of the participant's compensation.

At the end of each Plan year, the Company may declare a discretionary matching contribution limited to 4% of a participant’s eligible compensation contributed to the Plan. No discretionary matching contributions were declared by the Company for 2018.

Continued

Note 1 - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of employer safe harbor contributions, employer discretionary matching contributions when provided, Plan earnings, and certain administrative expenses. Safe harbor matching contributions are allocated based on a percentage of the participant's elective deferral contribution, as defined. Discretionary matching contributions, if any, are allocated based on a uniform percentage of the elective deferrals made by each participant. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, Company safe harbor matching contributions, and Company discretionary matching contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their participant account a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of a participant's vested account balance. The loans are secured by the balance in the participant's account. A participant can only have one loan outstanding from the Plan. The loan interest rate is set at one percent above the prime rate when the loan is executed, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

A participant is eligible to request a distribution of their vested account balance upon termination of employment, death, disability, or retirement. Required minimum distributions are made once a participant reaches age 70½. Distributions may be in the form of a lump sum payment or partial withdrawals. A terminating participant with an account balance of $5,000 or less automatically receives a lump sum distribution from the Plan.

In-service withdrawals are allowed upon reaching age 59½. Hardship withdrawals are allowed as provided under the terms of the Plan agreement and provisions of the Code. Beginning August 31, 2017 and through January 31, 2018, special "Hurricane Hardship Withdrawals" were available from the Plan for needs arising from Hurricane Harvey or Hurricane Irma in accordance with Plan provisions and Internal Revenue Service (IRS) guidance. Hurricane Hardship Withdrawals did not trigger any post-withdrawal suspension of Plan contributions and were available without obtaining any nontaxable loans currently available under the Plan if taking such loans would have increased the amount of the need. Otherwise, Hurricane Hardship Withdrawals were generally subject to the same requirements as other hardship withdrawals under the Plan.

Note 1 - Description of Plan (Continued)

Administrative Expenses

To the extent the Company is required by law or elects to pay such expenses, the Company shall be responsible for paying such Plan expenses. All expenses of the Plan shall, to the extent permitted by law, be paid by the Plan unless the Company elects to pay such expenses.

Forfeited Amounts

At December 31, 2018 and 2017, forfeited accounts totaled $2,889 and $777, respectively. These accounts may be used to reduce future employer contributions or pay for Plan expenses. During 2018, $891 was used to pay Plan expenses.

Note 2 - Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting and present the net assets available for benefits and changes in those net assets in accordance with accounting principles generally accepted in the United State of America (GAAP).

Use of Estimates

The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expense and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant loans are recorded as distributions based on the terms of the Plan agreement.

Continued

Note 2 - Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expense. Investment related expenses are included in net depreciation of fair value of investments.

Note 3 - Fair Value Measurements

GAAP provides a framework for measuring fair value by providing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 or 2017.

Continued

Note 3 - Fair Value Measurements (Continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts (PSAs): These investments are pooled funds that operate like mutual funds, but are not registered with the Securities and Exchange Commission. Often times, the PSAs are invested in mutual funds or other marketable securities, but the unit price generally will be different from the value of the underlying securities because the PSA may also hold cash for liquidity purposes, and the fees imposed by the PSA are deducted from the fund's value rather than charged separately to investors. Some PSAs have no restrictions as to their investment strategy and can invest in riskier investments, such as derivatives, hedge funds, private equity funds, or similar investments. The PSAs use NAV as the practical expedient for measuring fair value.

Common collective trust funds: Valued at the NAV of units owned by the Plan of the collective trust. The NAV, as provided by the collective investment fund's trustee, is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds that are valued on the basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's policy is to disclose transfers between levels based on valuations at the end of the reporting period. There were no transfers between Levels 1 and 2 as of December 31, 2018 or 2017.

Note 3 - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured on a recurring basis at fair value as of December 31, 2018:

(a) In accordance with Subtopic 820-10, common collective trust funds and pooled separate accounts using net asset value as a practical expedient for measuring fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation to the line items presented in the statements of net assets available for benefits.

The Company has elected the method of annual reporting compliance permitted by 29 CRF 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017 and notes to financial statements.

b. Net depreciation in fair value of investments, interest and dividend income, and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018 and notes to financial statements.

c. The supplemental schedule of assets (held at end of the year) as of December 31, 2018.

Investments representing 10% or more of the Plan's net assets available for benefits are considered to be significant and are as follows at December 31:

	2018	2017
Vanguard Total Stock Market Index Fund Institutional Shares	$ 90,019,102	$ 99,746,788
Voya Intermediate Stable Value Fund Separate Account No. 734	39,530,997	39,221,140

Note 5 - Party-in-Interest Transactions

Certain Plan investments are managed by the Trustee. These investment transactions qualify as party-in-interest transactions; however, these transactions are covered by an exemption from the prohibited transactions provisions of ERISA. Fees paid by the Plan for investment management services are included in the net appreciation or depreciation in fair value of the related investment. The Plan has entered into revenue sharing agreements with the Trustee, with such amounts used to pay certain administrative expenses of the Plan. During 2018, the Plan received $32,939 from this revenue sharing agreement. This revenue sharing amount has been recorded against administrative expenses.

Note 6 - Tax Status

The Plan has adopted the Fidelity Volume Submitter Defined Contribution Plan (the Volume Submitter Plan). On March 31, 2014, the Volume Submitter Plan received a favorable opinion letter from the IRS which stated that the Volume Submitter Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Risks and Uncertainties

The Plan may invest in various types of investment securities that are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Subsequent Events

Effective April 8, 2019, certain investment options in the Plan were replaced as follows:

- Vanguard Real Estate Index Fund Admiral Shares transferred to Fidelity Real Estate Index Fund.
- Vanguard Total Bond Market Index Fund Admiral Shares transferred to Fidelity U.S. Bond Index Fund.
- Vanguard Total International Stock Index Fund Institutional Shares transferred to Fidelity Total International Index Fund.
- Vanguard Total Stock Market Index Fund Institutional Shares transferred to Fidelity Total Market Index Fund.

Continued

Note 9 - Subsequent Events (Continued)

Management of the Plan has evaluated subsequent events through September 11, 2019 the date which the financial statements were available to be issued. Management has determined that no other subsequent events require recognition or disclosure in these financial statements.

Note 1 - Description of Plan

General

The Superior Energy 401(k) Plan (the Plan) is a safe harbor defined contribution 401(k) plan covering all full time employees of Superior Energy Services, Inc. and its wholly owned subsidiaries (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Administration of the Plan

The Plan Administrator and sponsor is Superior Energy Services, Inc. The 401(k) Administrative Committee (the Committee) is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance. Fidelity Management Trust Company serves as the Trustee. Among other duties, the Trustee receives contributions, holds and invests the fund assets in accordance with the directions of the participants, and makes disbursements as directed by the Plan Administrator. Fidelity Workplace Services LLC is the recordkeeper of the Plan.

Eligibility

Employees are eligible to participate in the Plan on the most administratively feasible payroll check following the completion of 60 days of employment, with no age requirement.

Participant Contributions

Each year, participants may contribute not less than 1% and not more than 75% of eligible compensation, including bonuses, subject to Internal Revenue Code (the Code) restrictions. Participants age 50 or older during the Plan year may also elect to make a "catch-up" contribution, subject to certain Code limits. Participant contributions may be in the form of pre-tax 401(k) deferrals or Roth 401(k) deferrals. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Employer Contributions

To maintain safe harbor status, the Company will make safe harbor matching contributions equal to 100% of the participant's salary deferrals that do not exceed 4% of the participant's compensation.

At the end of each Plan year, the Company may declare a discretionary matching contribution limited to 4% of a participant’s eligible compensation contributed to the Plan. No discretionary matching contributions were declared by the Company for 2018.

Continued

Note 1 - Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of employer safe harbor contributions, employer discretionary matching contributions when provided, Plan earnings, and certain administrative expenses. Safe harbor matching contributions are allocated based on a percentage of the participant's elective deferral contribution, as defined. Discretionary matching contributions, if any, are allocated based on a uniform percentage of the elective deferrals made by each participant. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, Company safe harbor matching contributions, and Company discretionary matching contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their participant account a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of a participant's vested account balance. The loans are secured by the balance in the participant's account. A participant can only have one loan outstanding from the Plan. The loan interest rate is set at one percent above the prime rate when the loan is executed, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

A participant is eligible to request a distribution of their vested account balance upon termination of employment, death, disability, or retirement. Required minimum distributions are made once a participant reaches age 70½. Distributions may be in the form of a lump sum payment or partial withdrawals. A terminating participant with an account balance of $5,000 or less automatically receives a lump sum distribution from the Plan.

In-service withdrawals are allowed upon reaching age 59½. Hardship withdrawals are allowed as provided under the terms of the Plan agreement and provisions of the Code. Beginning August 31, 2017 and through January 31, 2018, special "Hurricane Hardship Withdrawals" were available from the Plan for needs arising from Hurricane Harvey or Hurricane Irma in accordance with Plan provisions and Internal Revenue Service (IRS) guidance. Hurricane Hardship Withdrawals did not trigger any post-withdrawal suspension of Plan contributions and were available without obtaining any nontaxable loans currently available under the Plan if taking such loans would have increased the amount of the need. Otherwise, Hurricane Hardship Withdrawals were generally subject to the same requirements as other hardship withdrawals under the Plan.

Note 1 - Description of Plan (Continued)

Administrative Expenses

To the extent the Company is required by law or elects to pay such expenses, the Company shall be responsible for paying such Plan expenses. All expenses of the Plan shall, to the extent permitted by law, be paid by the Plan unless the Company elects to pay such expenses.

Forfeited Amounts

At December 31, 2018 and 2017, forfeited accounts totaled $2,889 and $777, respectively. These accounts may be used to reduce future employer contributions or pay for Plan expenses. During 2018, $891 was used to pay Plan expenses.

Note 2 - Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting and present the net assets available for benefits and changes in those net assets in accordance with accounting principles generally accepted in the United State of America (GAAP).

Use of Estimates

The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expense and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant loans are recorded as distributions based on the terms of the Plan agreement.

Continued

Note 2 - Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expense. Investment related expenses are included in net depreciation of fair value of investments.

Note 3 - Fair Value Measurements

GAAP provides a framework for measuring fair value by providing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 or 2017.

Continued

Note 3 - Fair Value Measurements (Continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts (PSAs): These investments are pooled funds that operate like mutual funds, but are not registered with the Securities and Exchange Commission. Often times, the PSAs are invested in mutual funds or other marketable securities, but the unit price generally will be different from the value of the underlying securities because the PSA may also hold cash for liquidity purposes, and the fees imposed by the PSA are deducted from the fund's value rather than charged separately to investors. Some PSAs have no restrictions as to their investment strategy and can invest in riskier investments, such as derivatives, hedge funds, private equity funds, or similar investments. The PSAs use NAV as the practical expedient for measuring fair value.

Common collective trust funds: Valued at the NAV of units owned by the Plan of the collective trust. The NAV, as provided by the collective investment fund's trustee, is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds that are valued on the basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's policy is to disclose transfers between levels based on valuations at the end of the reporting period. There were no transfers between Levels 1 and 2 as of December 31, 2018 or 2017.

Continued

Note 3 - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured on a recurring basis at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Totals
Mutual funds	$ 185,989,456	$ -	$ -	$ 185,989,456

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured on a recurring basis at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Totals

Investments measured at net asset value [(a)]				69,838,350
Total assets at fair value				$ 272,176,075

(a) In accordance with Subtopic 820-10, common collective trust funds and pooled separate accounts using net asset value as a practical expedient for measuring fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation to the line items presented in the statements of net assets available for benefits.

Note 3 - Fair Value Measurements (Continued)

The following table sets forth additional disclosures for entities that use NAV as a practical expedient to measure fair value as of December 31, 2018 or 2017:

	As of December 31,				
	2018 Fair Value	2017 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Common collective trust funds	25,837,615	30,617,210	None	Daily	Daily

Note 4 - Unaudited Information Certified by Trustee

The Company has elected the method of annual reporting compliance permitted by 29 CRF 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017 and notes to financial statements.

b. Net depreciation in fair value of investments, interest and dividend income, and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018 and notes to financial statements.

c. The supplemental schedule of assets (held at end of the year) as of December 31, 2018.

Investments representing 10% or more of the Plan's net assets available for benefits are considered to be significant and are as follows at December 31:

	2018	2017
Vanguard Total Stock Market Index Fund Institutional Shares	$ 90,019,102	$ 99,746,788
Voya Intermediate Stable Value Fund Separate Account No. 734	39,530,997	39,221,140

Note 5 - Party-in-Interest Transactions

Certain Plan investments are managed by the Trustee. These investment transactions qualify as party-in-interest transactions; however, these transactions are covered by an exemption from the prohibited transactions provisions of ERISA. Fees paid by the Plan for investment management services are included in the net appreciation or depreciation in fair value of the related investment. The Plan has entered into revenue sharing agreements with the Trustee, with such amounts used to pay certain administrative expenses of the Plan. During 2018, the Plan received $32,939 from this revenue sharing agreement. This revenue sharing amount has been recorded against administrative expenses.

Continued

Note 6 - Tax Status

The Plan has adopted the Fidelity Volume Submitter Defined Contribution Plan (the Volume Submitter Plan). On March 31, 2014, the Volume Submitter Plan received a favorable opinion letter from the IRS which stated that the Volume Submitter Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Risks and Uncertainties

The Plan may invest in various types of investment securities that are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Subsequent Events

Effective April 8, 2019, certain investment options in the Plan were replaced as follows:

- Vanguard Real Estate Index Fund Admiral Shares transferred to Fidelity Real Estate Index Fund.
- Vanguard Total Bond Market Index Fund Admiral Shares transferred to Fidelity U.S. Bond Index Fund.
- Vanguard Total International Stock Index Fund Institutional Shares transferred to Fidelity Total International Index Fund.
- Vanguard Total Stock Market Index Fund Institutional Shares transferred to Fidelity Total Market Index Fund.

Continued

Note 9 - Subsequent Events (Continued)

Management of the Plan has evaluated subsequent events through September 11, 2019 the date which the financial statements were available to be issued. Management has determined that no other subsequent events require recognition or disclosure in these financial statements.
