Independent Auditor's Report

To the SPX FLOW Benefits
Administrative Committee
SPX FLOW Retirement Savings Plan

We have audited the accompanying financial statements of SPX FLOW Retirement Savings Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2018 and 2017 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the SPX FLOW Benefits
Administrative Committee
SPX FLOW Retirement Savings Plan

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2018 and 2017 and the changes in net assets for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2018 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

SPX FLOW Retirement Savings Plan
Notes to Financial Statements

Note 1 - Plan Overview and Basis of Presentation

Description of the SPX FLOW Retirement Savings Plan

The following description of the SPX FLOW Retirement Savings Plan (the “Plan”) provides only general information. The Plan is established and maintained by SPX FLOW, Inc. (the “Company” or “Employer”) in order to encourage eligible employees of the Company with an incentive to save for the future.

Participants should refer to the Plan document for a complete description of the Plan’s provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan operates as a profit sharing plan in accordance with Internal Revenue Code Sections 401(k) and 401(m) and features a stock bonus plan that includes an “employee stock ownership plan” component designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the “Code”).

General - The Plan is a defined contribution plan that benefits employees of the Company who have met eligibility requirements as set forth in the plan document.

Contributions - Participants can elect to defer a portion of their compensation as a pretax contribution to the Plan, up to the maximum allowed under the Plan and the Code.

In general, the Company makes matching contributions equal to 100 percent of the participant’s pretax contributions up to the first four (4) percent of compensation deferred and 50 percent of the participant’s pretax contributions in excess of four (4) percent of compensation deferred up to a maximum of six (6) percent of compensation deferred. Prior to the market close on March 29, 2018, these Company matching contributions were invested in the SPX FLOW Stock Fund. Subsequent to the market close on March 29, 2018, these Company matching contributions are invested based on the participant's elections. All Company matching contributions are immediately vested and can generally be transferred to other available investment options at any time.

Employer contributions for union employee participants are determined based on the respective collective bargaining agreements.

Participant Accounts - Each participant’s account is credited with the participant’s contributions, the Employer’s matching contributions, if any, and an allocation of Plan earnings or losses.

The allocation of Plan earnings or losses to participant accounts is based on the participant’s proportionate share of funds in each of the investment accounts. The Plan benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Participants elect to invest their account balances and contributions among various investment options selected by the SPX FLOW Plan Investment Committee (the “Committee”), and, prior to the market close on March 29, 2018, investment options required by the terms of the Plan such as the SPX FLOW Stock Fund.

Vesting - Participants in the Plan are at all times 100 percent vested in their contributions and earnings or losses thereon. In general, participants are 100 percent vested in Employer contributions. Any forfeitures may be used to pay expenses of the Plan or reduce the Employer contributions in the year the forfeitures occur or in future years. There were no forfeitures outstanding as of December 31, 2018 or 2017.

Payment of Benefits - Upon termination of service, a participant may elect to receive either a lump-sum distribution or monthly or annual payments equal, in aggregate, to the value of his or her account. Terminated participants with account balances in excess of \$1,000 can also elect to wait until retirement age to receive benefits. A participant still employed may request a distribution of all or any portion of his or her after-tax contributions at any time, or all or any portion of his or her pre-tax contributions on or after he or she reaches age 59 1/2. A participant who experiences a financial hardship is eligible to receive a distribution from his or her Plan account. All withdrawal and distribution payments are made by Fidelity Management Trust Company (the “Trustee” or “Fidelity”) from the Plan's trust.

SPX FLOW Retirement Savings Plan
Notes to Financial Statements

Employer Securities - Investment in the SPX FLOW Stock Fund, including amounts allocated to participants' accounts by reason of Company matching contributions as discussed above, can generally be redirected to other available investment options.

Effective as of the market close on March 29, 2018, the Company amended the Plan to institute a freeze of new investments (whether through contributions, transfers, exchanges or rebalancing) directed into the SPX FLOW Stock Fund investment option provided under the Plan. The amendment did not eliminate the right of participants to transfer participant account balances out of the SPX FLOW Stock Fund to other available investment options under the Plan.

Participant Notes Receivable - A participant can borrow from the Plan an amount that does not exceed the lesser of \$50,000 or 50 percent of the participant's vested account balance. The term of the participant note receivable may not exceed five years unless the participant note receivable is used in the purchase of a primary residence, in which case the term may be up to 15 years.

Participant notes receivable are collateralized by the balance in the participant's account and bear interest at market rates as outlined in the Plan document. Principal and interest are paid ratably through payroll deductions. Other participant note receivable provisions are outlined in the Plan document.

Voting Rights - Each participant is entitled to exercise voting rights for Company shares attributable to the units of SPX FLOW Stock Fund credited to his or her account. The Trustee is required to vote shares of common stock that have been allocated to participants but for which the Trustee received no voting instructions in the same manner and in the same proportion as the shares for which the Trustee received timely voting instructions.

Administration - The Company is the sponsor of the Plan. The SPX FLOW Benefits Administrative Committee, as provided in the Plan document, is the plan administrator. The Trustee also functions as a Plan fiduciary.

Investment management fees, trustee fees and other applicable Plan expenses are paid by the Plan or the Company in accordance with the Plan document.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity (the "custodian") or its affiliates. Transactions involving the SPX FLOW Stock Fund, notes receivable and the custodian of the Plan are considered party-in-interest transactions as defined under ERISA guidelines. For the year ended December 31, 2018, transactions involving the SPX FLOW Stock Fund included sales of approximately \$7,600,000 and purchases of approximately \$3,200,000. For the year ended December 31, 2017, transactions involving the SPX FLOW Stock Fund included sales of approximately \$13,000,000 and purchases of approximately \$13,600,000.

Termination - Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investments - The Plan's investments are stated at fair value, except for its fully benefit-responsive investment contract as of December 31, 2018 which is stated at contract value, and its common collective trust fund investment as of December 31, 2017 which is stated at net asset value per share or its equivalent which is based on the fair value of the fund's underlying assets. See Note 3 for additional information. Dividend income is accrued on the ex-dividend date.

Fully Benefit-Responsive Investment Contract - During 2018, the Plan entered into a fully benefit-responsive investment contract with New York Life (the "New York Life Anchor Account"). New York Life maintains the contributions in a general pooled separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on a semi-annual basis for resetting. When establishing interest crediting rates for this product, New York Life considers many factors, including current economic market conditions, the general interest rate environment, and both the

**SPX FLOW Retirement Savings Plan
Notes to Financial Statements**

expected and actual experience of a reference portfolio within the issuer's general account. The minimum crediting rate for the contract is 2.35 percent.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) certain distributions resulting from employer-initiated events (including complete or partial plan termination or merger with another plan); (ii) termination by the contractholder if the contractholder fails to provide 12 months' advance written notice of termination; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) termination by issuer due to loss of the Plan's qualified status. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is not probable of occurring.

Common Collective Trust Fund - As of December 31, 2017, the Plan held the Fidelity Managed Income Portfolio II investment fund which is a stable value fund. This fund had certain limitations on withdrawals and exchanges as follows:

- **Participant-directed** - Withdrawals made in order to accommodate distributions to participants or transfers to non-competing investments could be made on any business day. Transferred amounts were required to be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund could occur.
- **Non-participant-directed** - Withdrawals directed by the Committee were required to be preceded by a twelve-month written notice to Fidelity. However, Fidelity could, in its discretion, complete any such plan-level withdrawal before the expiration of such twelve-month period.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Distributions to participants are recorded when paid.

Income Tax Status - The Plan has received a determination letter from the IRS dated October 2, 2017, stating that the Plan, as originally adopted, is qualified under Section 401(a) of the Code and therefore, the related trust is exempt from taxation. Although the Plan has been amended subsequently, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 3 - Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting standards require certain assets and liabilities to be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The Plan utilizes market data or assumptions that it believes market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable quoted prices in active markets for identical assets or liabilities ("Level 1"), significant other observable inputs ("Level 2") or significant unobservable inputs ("Level 3"). The Plan's assessment of the significance of particular inputs

SPX FLOW Retirement Savings Plan
Notes to Financial Statements

to these fair value measurements requires judgment and considers factors specific to each asset or liability. In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest input that is significant to the valuation.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no changes to the Plan's valuation techniques used to measure investment fair values on a recurring basis for the years ended December 31, 2018 or 2017. There were no transfers between the three Levels of the fair value hierarchy during the periods. The Plan's policy is to recognize transfers between Levels at the beginning of the fiscal year.

A reconciliation of assets measured at fair value is as follows:
