UNITED RETIREMENT 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

NOTE A - DESCRIPTION OF PLAN

The following brief description of the United Retirement 401(k) Plan (the "plan") provides only general information. Participants should refer to the plan document for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan which was established as of January 1, 2008 under the name National Investment Managers 401(k) Plan. During 2011, National Investment Managers Inc. was sold and became United Retirement Plan Consultants, Inc. The plan name has been changed to United Retirement 401(k) Plan.

The plan covers employees of the business units of United Retirement Plan Consultants, Inc. (the "Company") who are 21 years of age or older and have been employed by the Company for a minimum of three months. This plan combines the plans that previously existed in various operating divisions of the Company. The plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee is responsible for oversight of the plan and determines the appropriateness of the plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute amounts of annual compensation up to the maximum permitted by law, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing direct rollover distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the plan. For the plan years ending December 31, 2018 and 2017, the Company made a discretionary matching contribution of 25% of the first 6% of compensation contributed by each participant. The matching contribution totaled $102,899 and $108,954 for the years ending December 31, 2018 and 2017, respectively. The Company used $22,529 and $36,160 of forfeitures to fund the 2018 and 2017 matching contribution, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

NOTE A - DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and are currently issued bearing interest at a rate of prime plus 1% as determined at the time of the loan. Participants are allowed to have a maximum of two loans outstanding at one time. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of Benefits
Upon termination of service, a participant may elect to receive the vested interest of their account in the form of a single lump sum distribution or in installments over a specified period not to exceed the life or life expectancy of the participant (and a designated beneficiary). Hardship withdrawals are allowed under the provisions of the plan.

Forfeited Accounts
At December 31, 2018 and 2017, forfeited nonvested accounts totaled $18,736 and $8,632, respectively. Forfeitures totaling $22,529 and $36,160 were used to reduce employer contributions during the years ending December 31, 2018 and 2017, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's Investment Committee determines the plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note C for discussion of fair value measurements.

The Plan's shares of mutual funds are valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at each year end.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)
The Morley Stable Value Fund distributes income in the form of units, and provides a constant unit redemption value. The Morley Stable Value Fund invests in fully-benefit-responsive investment contracts (FBRICs) and is presented at fair value based on its NAV. As a result, the Plan is an indirect investor in fully benefit-responsive contracts since the Plan itself does not directly invest in FBRICs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Many of the expenses related to the administration of the plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/(depreciation) of fair value of investments.

NOTE C - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE C - FAIR VALUE MEASUREMENTS (continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded (Level 1).

- *Interest-bearing cash:* These investments are valued at fair value based on quoted market prices (Level 1).

- *Money Market Securities:* As permitted by compliance with certain conditions under Rule 2a-7 of the Investment Company Act of 1940, money market securities are valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity. Securities held by the money market fund are generally high quality and liquid; however, the inputs used to determine fair value are not quoted prices in an active market (Level 2).

- *Common/Collective Trust:* The Plan uses NAV per unit to value the collective investment trust funds. The NAV, as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

NOTE C - FAIR VALUE MEASUREMENTS

The following table presents by level, within the fair value hierarchy, the plan investments at fair value, as of December 31, 2018:

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE D - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Company, the trustee, has certified to the completeness and accuracy of all investments, notes receivable from participants, investment transactions, income, and the schedule of assets (held at end of year) as of December 31, 2018 and 2017 and for the years then ended.

NOTE E – ACQUISITION AND PLAN TERMINATION

Effective June 2, 2019, the Plan Sponsor was acquired by Ascensus and became part of FuturePlan Ascensus. As a result of this acquisition, the Board of Directors voted to terminate the Plan effective June 2, 2019. At that time the plan froze and no new contributions accrued under the Plan. All participants were immediately 100% vested in their account. The Plan will distribute all assets of the Plan to participants within a year of the termination date, in accordance with the Plan's distribution provisions.

NOTE F - TAX STATUS

The plan is an adoption of a volume submitter profit-sharing plan with CODA sponsored by United Retirement Plan Consultants. The plan obtained its latest opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the plan and the related trust, as then designed, are in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the opinion letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and therefore believe the plan is qualified and the related trust is tax-exempt.

NOTE G - PARTY IN INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the plan, any person who provides services to the plan, or an employer whose employees are covered by the plan. Benefit Management Inc., a business unit of United Retirement Plan Consultants, Inc., provides certain record-keeping services to the plan. Charles Schwab Trust Company provides investment transaction services to the plan. Therefore, transactions between the plan and Benefit Management Inc. and Charles Schwab Trust Company qualify as party-in-interest transactions. Fees paid by the plan for record-keeping and investment transaction amounted to approximately $6,500 and $4,000 for the years ended December 31, 2018 and 2017, respectively, plus additional amounts included as a reduction of the returns earned on the investments.

NOTE H - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

The plan has evaluated subsequent events through the date of this report, the date the financial statements were available to be issued. The acquisition of the Plan Sponsor and plan termination occurred subsequent to year end and is disclosed in Note E above.

UNITED RETIREMENT 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

NOTE A - DESCRIPTION OF PLAN

The following brief description of the United Retirement 401(k) Plan (the "plan") provides only general information. Participants should refer to the plan document for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan which was established as of January 1, 2008 under the name National Investment Managers 401(k) Plan. During 2011, National Investment Managers Inc. was sold and became United Retirement Plan Consultants, Inc. The plan name has been changed to United Retirement 401(k) Plan.

The plan covers employees of the business units of United Retirement Plan Consultants, Inc. (the "Company") who are 21 years of age or older and have been employed by the Company for a minimum of three months. This plan combines the plans that previously existed in various operating divisions of the Company. The plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee is responsible for oversight of the plan and determines the appropriateness of the plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute amounts of annual compensation up to the maximum permitted by law, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing direct rollover distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the plan. For the plan years ending December 31, 2018 and 2017, the Company made a discretionary matching contribution of 25% of the first 6% of compensation contributed by each participant. The matching contribution totaled $102,899 and $108,954 for the years ending December 31, 2018 and 2017, respectively. The Company used $22,529 and $36,160 of forfeitures to fund the 2018 and 2017 matching contribution, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

NOTE A - DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and are currently issued bearing interest at a rate of prime plus 1% as determined at the time of the loan. Participants are allowed to have a maximum of two loans outstanding at one time. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of Benefits
Upon termination of service, a participant may elect to receive the vested interest of their account in the form of a single lump sum distribution or in installments over a specified period not to exceed the life or life expectancy of the participant (and a designated beneficiary). Hardship withdrawals are allowed under the provisions of the plan.

Forfeited Accounts
At December 31, 2018 and 2017, forfeited nonvested accounts totaled $18,736 and $8,632, respectively. Forfeitures totaling $22,529 and $36,160 were used to reduce employer contributions during the years ending December 31, 2018 and 2017, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's Investment Committee determines the plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note C for discussion of fair value measurements.

The Plan's shares of mutual funds are valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at each year end.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)
The Morley Stable Value Fund distributes income in the form of units, and provides a constant unit redemption value. The Morley Stable Value Fund invests in fully-benefit-responsive investment contracts (FBRICs) and is presented at fair value based on its NAV. As a result, the Plan is an indirect investor in fully benefit-responsive contracts since the Plan itself does not directly invest in FBRICs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Many of the expenses related to the administration of the plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/(depreciation) of fair value of investments.

NOTE C - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE C - FAIR VALUE MEASUREMENTS (continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded (Level 1).

- *Interest-bearing cash:* These investments are valued at fair value based on quoted market prices (Level 1).

- *Money Market Securities:* As permitted by compliance with certain conditions under Rule 2a-7 of the Investment Company Act of 1940, money market securities are valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity. Securities held by the money market fund are generally high quality and liquid; however, the inputs used to determine fair value are not quoted prices in an active market (Level 2).

- *Common/Collective Trust:* The Plan uses NAV per unit to value the collective investment trust funds. The NAV, as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

NOTE C - FAIR VALUE MEASUREMENTS

The following table presents by level, within the fair value hierarchy, the plan investments at fair value, as of December 31, 2018:

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE D - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Company, the trustee, has certified to the completeness and accuracy of all investments, notes receivable from participants, investment transactions, income, and the schedule of assets (held at end of year) as of December 31, 2018 and 2017 and for the years then ended.

NOTE E – ACQUISITION AND PLAN TERMINATION

Effective June 2, 2019, the Plan Sponsor was acquired by Ascensus and became part of FuturePlan Ascensus. As a result of this acquisition, the Board of Directors voted to terminate the Plan effective June 2, 2019. At that time the plan froze and no new contributions accrued under the Plan. All participants were immediately 100% vested in their account. The Plan will distribute all assets of the Plan to participants within a year of the termination date, in accordance with the Plan's distribution provisions.

NOTE F - TAX STATUS

The plan is an adoption of a volume submitter profit-sharing plan with CODA sponsored by United Retirement Plan Consultants. The plan obtained its latest opinion letter dated March 31, 2014, in which the Internal Revenue Service stated that the plan and the related trust, as then designed, are in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the opinion letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and therefore believe the plan is qualified and the related trust is tax-exempt.

NOTE G - PARTY IN INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the plan, any person who provides services to the plan, or an employer whose employees are covered by the plan. Benefit Management Inc., a business unit of United Retirement Plan Consultants, Inc., provides certain record-keeping services to the plan. Charles Schwab Trust Company provides investment transaction services to the plan. Therefore, transactions between the plan and Benefit Management Inc. and Charles Schwab Trust Company qualify as party-in-interest transactions. Fees paid by the plan for record-keeping and investment transaction amounted to approximately $6,500 and $4,000 for the years ended December 31, 2018 and 2017, respectively, plus additional amounts included as a reduction of the returns earned on the investments.

NOTE H - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

The plan has evaluated subsequent events through the date of this report, the date the financial statements were available to be issued. The acquisition of the Plan Sponsor and plan termination occurred subsequent to year end and is disclosed in Note E above.
