Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of Consolidated Metal Products Co. Retirement Savings Plan (the "Plan") have been prepared on the accrual basis of accounting using accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation

Investments, except for guaranteed investment contracts, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The guaranteed investment contract is reported at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Related-Party Transactions

Certain Plan investments are investments in pooled separate accounts which are managed by Voya Financial Retirement. Voya Financial Retirement is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Several employees of the Consolidated Metal Products Co. (the "Company") provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Benefit Payments

Benefit payments are recorded when paid.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain Plan expenses are paid by the Company, and accordingly, are not reflected in the Plan's financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Company has evaluated all events subsequent to the balance sheet date of December 31, 2018, through September 16, 2019, which is the date these financial statements were available to be issued.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to their Consolidated Metal Products Co. Retirement Savings Plan handbook for a more complete description of the Plan's provisions.

General

The original effective date of the Plan was January 1, 1991. The Plan is a defined contribution plan. All employees of the Company who are 18 years of age and have completed one year service are eligible to participate in the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and a pro-rata allocation of the Plan's earnings. The pro-rata allocation is based upon the proportion of individual account balances to total participants' account balances in the respective investment funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Contributions

The Plan allows for the Company to make safe harbor employer matching contributions at a discretionary amount to not exceed 4% of participant compensation. The Plan also allows other discretionary employer matching contributions and discretionary profit sharing contributions. For the year ending December 31, 2018, the Company made only safe harbor employer matching contributions (matching 100% of the first 4% of the participant's eligible compensation that they defer) totaling \$265,356. A participant may contribute up to the maximum percentage of eligible compensation allowable not to exceed the statutory limits. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended (\$18,500 at December 31, 2018). For 2018, Section 414(v) of the Internal Revenue Code of 1986 as amended allowed a maximum catch-up contribution of \$6,000. Participants designate the percentage of their total contribution to be invested in any of the Plan's investment funds. Participants may change the percentage of contributions invested in each account and may make transfers between accounts anytime during the year.

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another employee benefit plan to the Plan on a tax-free basis.

Vesting

Participants become immediately vested at the time of participation in the Plan in their contributions plus actual earnings thereon. Participants are also immediately vested in safe harbor employer match contributions, other employer match contributions and profit sharing contribution portions of their accounts, plus actual earnings thereon. Forfeited balances of terminated participants' non-vested accounts can be applied to offset administration expenses of the Plan. Forfeitures exceeding these expenses may be used to reduce employer contributions. The balance of unallocated forfeitures was \$-0- as of December 31, 2018 and 2017.

Payment of Benefits

Upon a participant's retirement, death, total and permanent disability, other termination of employment with the Company, or termination of the Plan, the participant's account is distributed under several options. Participants may elect to receive their benefit payment among various options including lump sum, annuity, or a combination. Under certain circumstances, vested benefits may be distributed early if the participants are 59 ½ years or older. Balances rolled over from another employee benefit plan may be distributed at any time.

In conditions of "financial hardship", a participant may apply to the Plan administrator for approval to withdraw that portion of his 401(k) retirement account balance necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code.

Upon termination of the Plan, the assets will be distributed to participants in accordance with the Plan's provisions and existing laws and regulations.

NOTE 3 INVESTMENT CONTRACTS

In 2006, the Plan entered into a benefit-responsive investment contract with Voya Financial Retirement (Voya). Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract (GIC) issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Notes to Financial Statements (Continued)

NOTE 3 INVESTMENT CONTRACTS (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The hierarchy is broken down into three levels base on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Pooled separate accounts: Valued at fair value of the pooled account's underlying investments based on information reported by the investment advisor at year-end.

CONSOLIDATED METAL PRODUCTS CO. RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 4,924,358	\$ -	\$ 4,924,358
Total investments at fair value	<u>\$ -</u>	<u>\$ 4,924,358</u>	<u>\$ -</u>	4,924,358
Investments measured using contract value				<u>2,837,946</u>
Total investments				<u>\$ 7,762,304</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 5,153,512	\$ -	\$ 5,153,512
Total investments at fair value	<u>\$ -</u>	<u>\$ 5,153,512</u>	<u>\$ -</u>	5,153,512
Investments measured using contract value				<u>2,391,144</u>
Total investments				<u>\$ 7,544,656</u>

NOTE 5 TAX STATUS

The Plan Sponsor has adopted a prototype plan which has received an opinion letter from the Internal Revenue Service dated March 31, 2014, which states the provider's prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the Internal Revenue Service. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, therefore, no provision for income taxes has been included in the financial Plan's statements.
