Notes to Financial Statements

December 31, 2018 and 2017

Note A – Description of Plan

The following description of the Qualitor, Inc. 401(k) and Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Qualitor, Inc. (the “Company”) and its wholly owned subsidiaries, except nonresident aliens, leased employees, employees at International Brake Industries, Inc. covered by a collective bargaining agreement, employees shown on the Company’s records as “temporary status”, and employees who do not complete 1,000 hours of service during an eligibility computation period (unless shown on the Company’s records as permanent part-time employees). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan Administrator determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan, except for participating employees of McGuane Industries covered by a collective bargaining agreement, whom do not receive employer matching contributions. Additional profit sharing amounts may be contributed at the option of the Company. The Company may also make additional discretionary profit sharing contributions to employees of certain divisions, in accordance with the Plan document and amendments. Discretionary profit sharing contributions of \$89,173 were made for the year ended December 31, 2018. Profit sharing contributions are recorded and paid annually. Contributions are subject to certain Internal Revenue Code (“IRC”) limitations.

Participant accounts

Each participant’s account is credited with the participant’s contributions and Company matching contributions, as well as allocations of the Company’s profit sharing contribution and Plan earnings and losses. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. Employees of Qualitor Automotive, LLC hired prior to January 1, 2017 are 100 percent vested in the Company match and discretionary contribution.

Note A – Description of Plan (Continued)

In all other entities, participating employees hired before January 1, 2008 are 100 percent vested in company nonelective profit sharing contributions and company matching contributions after two years of credited service based on the vesting schedule below:

<u>Vesting Schedule</u>	
<u>Years of Service</u>	<u>Percentage</u>
1 year	50%
2 years	100%

Notes receivable from participants

Participants may borrow from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 50 percent of their vested account balance. At any one time, the maximum number of Plan loans a participant may have outstanding is one. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is equal to Prime plus one percent at the time the loans are taken. Interest rates on loans outstanding as of December 31, 2018 range from 4.25% to 6.25%. Interest rates on loans outstanding as of December 31, 2017 range from 4.25% to 5.25%. The terms of the loan may not exceed five years, with the exception of loans for primary residences. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period not to exceed the participant's or beneficiary's expected life. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. The Plan also allows in-service distributions before age 59 ½ due to financial hardship, as defined in the Plan document.

Forfeited accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$90,679 and \$68,114, respectively. These accounts will be used to reduce future Company contributions. During 2018, Company contributions were not reduced from forfeited non-vested accounts.

Note B – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by Fidelity Management Trust Services ("Trustee") as of December 31, 2018 and 2017. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Note B – Summary of Accounting Policies (Continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Transactional expenses are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 13, 2019 the date the financial statements were available to be issued. Except as discussed in Note I, the Plan did not identify any subsequent events that required recognition or disclosures in the financial statements.

Note C – Information Certified by Trustees

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee certified as of December 31, 2018 and for the year then ended and the Prior Trustee certified as of December 31, 2017 that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Total investments as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Investment (loss) income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018
- Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note D – Fair Value Measurements

That framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Auditing Standards Codification 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Qualitor, Inc. 401(k) and Profit Sharing Plan
Notes to Financial Statements – Continued
December 31, 2018 and 2017

Note D – Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds and money market fund: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note E – Related-Party Transactions and Party In Interest Transactions

Certain Plan investments are shares of mutual funds managed by the Trustee as of December 31, 2018 and for the year then ended and the Prior Trustee as of December 31, 2017, as defined by the Plan and, therefore, these transactions qualify as party in interest transactions.

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Company contributions.

Note G – Tax Status

Effective January 1, 2017, the Plan adopted a volume submitter plan document sponsored by the Trustee, having similar terms and provisions as the previous Plan document. On March 31, 2014, the Internal Revenue Service (“IRS”) stated that the prototype plan adopted by the Plan as then designed, is in accordance with the applicable sections of the IRC. The Plan has not received a determination letter specific to the Plan itself. The Plan Administrator believes that the Plan is designed and is currently being operated, in all material respects, in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note I – Amounts to Be Refunded to Participants

Amounts to be refunded to participants are \$4,865 as of December 31, 2018. This refund represents contributions made to the Plan during 2018 that were in excess of limits established by the IRC. These amounts were refunded to the affected participants in February 2019.

Note J – Reconciliation of Financial Statements to Form 5500
