Note 1 - Plan Description

The following description of Anderson Pacific Engineering Construction Inc. Money Purchase Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on April 1, 1983 intended to qualify under Section 401(a) and related provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and applicable provisions of the IRC and subsequent laws. All employees of the Company are immediately eligible to participate in the Plan, except employees covered by a collective bargaining agreement, certain nonresident aliens, and leased employees.

Contributions

The Company must make annual contributions equal to 10 percent of total eligible participant compensation, which are remitted to the Plan quarterly.

Vesting

Participants credited with at least one hour of credited service, as defined in the Plan, after January 1, 2008 are immediately 100 percent vested in the respective account balance. Participants who did not have at least one hour of credited service after January 1, 2008 vested into their account balances over a period of six years of service, as defined in the Plan.

Participant Accounts

Each participant's account is credited with the allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Upon disability, retirement, or termination, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum or a life annuity distribution in the amount equal to the participant's vested account balance. Upon death, distribution of the participant's entire account shall be completed by December 31 of the calendar year containing the fifth anniversary of the participant's death unless an election is made by his or her beneficiary to receive distributions either (a) over the life or over a period not greater than the life expectancy of the beneficiary commencing on or before December 31 of the calendar year immediately following the calendar year in which the participant died or (b) if the beneficiary is the surviving spouse, the date distributions are required to begin in accordance with (1) above shall not be earlier than the later of (i) December 31 of the calendar year immediately following the calendar year in which the participant died and (ii) December 31 of the calendar year in which the participant would have attained age 70½. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 62 or older who have not terminated employment with the plan sponsor. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed as a lump-sum amount equal to the value of the participant's vested interest in their account. The Internal Revenue Service (IRS) has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

The Plan provides for loans to participants, which are party-in-interest transactions that are exempt from the prohibited transaction rules. Certain fees due to the Plan's recordkeeper and plan investments are managed by the recordkeeper; however, under ERISA, these transactions qualify as exempt party-in-interest transactions.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

Investments are recorded at fair value, as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policy utilizing information provided by the trustee, including the appointment of investment advisors and the monitoring of the performance of the Plan's investment funds. See Note 4 for discussion of fair value measurements.

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. The money market fund is valued based on quoted market prices reported in active markets. See Note 4 for additional information.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Administrative Expenses

The Plan generally pays all administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

During the years ended December 31, 2018 and 2017, one investment accounted for 100 percent of investment income. At both December 31, 2018 and 2017, one investment accounted for 99 percent of total investments at fair value.

Note 2 - Summary of Significant Accounting Policies (Continued)

Contributions Receivable and Contributions from Employers

Contributions are made by the employer for the amount of benefits due to eligible employees on the date of payment. Contributions are accrued based on the benefit obligations earned during the final two weeks of the plan year. Contributions are also made to pay for external administrative expenses incurred by the Plan.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. Participants may have a maximum of one loan outstanding at any given time. The loans are collateralized by the vested balances in the participants' accounts and bear interest at rates that range from 6 to 7.5 percent, which are commensurate with local prevailing rates, as determined quarterly by the plan administrator at loan origination, and mature at various dates through October 2028. Loans have a maximum term of 5 years, unless such loan is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 15 years from the date of loan origination. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's loan shall be due in full. Participant loans are written off when deemed uncollectible.

Subsequent Events

The plan administrator has evaluated all subsequent events through September 9, 2019, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 3 - Unaudited Information

Charles Schwab Bank (the "Custodian") holds the Plan's investments, other than the money market account and the Hatteras Core Alternatives Fund, and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year, other than the money market account and the Hatteras Core Alternatives Fund, are based solely on information certified by the Custodian.

The Plan's investments in money market account and the Hatteras Core Alternatives Fund totaling $91,223 and $88,522 at December 31, 2018 and 2017, respectively, and related investment income of $2,724 for the year ended December 31, 2018 were not certified by Morgan Stanley.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan’s assets measured at fair value on a recurring basis at December 31, 2018 and 2017.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Note 4 - Fair Value Measurements (Continued)

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2018			
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Money market fund	$ 52,103	$ 52,103	$ -	$ -
Investments measured at NAV - Various investments measured at net asset value	8,647,182			
Total investments at fair value	$ 8,699,285			

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2017			
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Money market fund	$ 30,296	$ 30,296	$ -	$ -
Investments measured at NAV - Various investments measured at net asset value	9,398,889			
Total investments at fair value	$ 9,429,185			

Investments in Entities that Calculate Net Asset Value per Share

The Plan holds shares or interests in various investments at year end whereby the fair value of the investment held is estimated based on net asset value per share (or its equivalent) of the investment company.

Note 4 - Fair Value Measurements (Continued)

At year end, there were no unfunded commitments and redemption rules of those investments are as follows:

	2018	2017		
	Fair Value	Fair Value	Redemption Frequency, if Eligible	Redemption Notice Period
Common/collective trust	$ 8,608,062	$ 9,340,663	Daily	Daily
Other assets	39,120	58,226	Quarterly	65 Days
Total	$ 8,647,182	$ 9,398,889		

Note 5 - Tax Status

The Plan obtained its latest determination letter from the IRS, dated March 31, 2014, stating that the Plan was in compliance with the applicable requirements of the IRC. The Plan has been amended since the date of this letter; however, the plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100 percent vested, and the plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.
