NOTE A - DESCRIPTION OF THE PLAN

The following description of Restaurants of America Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was adopted on November 1, 1994 as a defined contribution plan covering substantially all eligible employees of Restaurants of America, Inc. and its subsidiaries (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Qualified employees are eligible to participate in the Plan on the first day of each quarter upon attaining age 21 and the completion of one year and 1,000 hours of service.

2. Contributions

Participants may elect to contribute on a tax-deferred basis up to the maximum deferral limits set by Internal Revenue Code ("IRC") Section 402(g)(1) ($18,500 for 2018). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $6,000 for 2018. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may make discretionary non-elective contributions, which are allocated to participants according to the participant's eligible compensation. All contributions are subject to certain Internal Revenue Service ("IRS") limitations. No discretionary contributions were made during the Plan year ended December 31, 2018.

3. Investment Options

Participants may direct their contributions and Company contributions as desired, in a variety of investment options held by the custodians. Participants can change their investment options daily.

4. Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Plan's income, and an allocation of the Company's contribution, if any. Each participant's account is charged with an allocation of the Plan's losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

5. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Vesting occurs at the rate of 20% per year of vesting service beginning after two years of service. A participant is fully vested after six years of qualified service.

6. Benefit Payments

Upon termination of service, a participant is entitled to receive their vested account balance. In the event of reaching normal retirement age, permanent disability, or in the event of death, a participant or a participant's beneficiary is entitled to receive 100% of their account balance. Distributions are paid either as a lump-sum payment or in installments over a period of time, depending on limitations based on the participant's account balance and the status of the employee. In addition, participants may receive distributions upon attaining age 59 ½ or for financial hardship if certain criteria are met.

7. Forfeitures

Participants leaving the Company before they are fully vested in their allocation of the Company's contributions forfeit the nonvested portion of their account. The forfeited balances of these accounts are generally used to reduce future contributions by the Company and Plan expenses. At December 31, 2018 and 2017, available forfeitures totaled $0 and $1,589, respectively. A total of $2,818 forfeitures were allocated to participants and used to pay certain Plan expenses during 2018.

8. Notes Receivable from Participants

Participants may borrow from their fund a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have up to two loans outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at comparable market rates. Loan maturity is not to exceed five years, except in the case where the loan is used to acquire or construct the participant's principal residence, where the term of a loan would not exceed ten years. The loans are maintained by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each participant will become 100% vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements have been prepared based on the accrual basis of accounting.

2 Plan Administration

The Company is the Plan sponsor and the Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

4. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines valuation policies utilizing information provided by the custodians. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plans gains and losses on investments bought and sold as well as held during the year.

5. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan invests in stocks through mutual funds in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

7. Payment of Benefits

Benefits are recorded when paid.

8. Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

9. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

10. Subsequent Events

The Plan has evaluated subsequent events through September 18, 2019, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY THE CUSTODIANS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors' not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedules:

- Investments and Fully benefit-responsive investment contract reflected in the accompanying Statements of net assets available for benefits as of December 31, 2018 and 2017
- Net investment income and Net depreciation in fair value reflected in the accompanying Statement of changes in net assets available for benefits for the year ended December 31, 2018
- Investments reflected in the Schedule of assets (held at end of year)

NOTE D - FAIR VALUE MEASUREMENTS

Fair value framework provides a hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under the framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Value at the unit values of the units held by the Plan. Unit values of the Pooled Separate Accounts are valued at the market value of the securities held in the account divided by the total number of units of the account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018

	Level 1	*Level 2*	*Level 3*	*Total*
Assets in the fair value hierarchy:				
Mutual funds	$ 610,477	$ -	$ -	$ 610,477
Investments measured at net asset value [(a)]				1,511,427
Investments at fair value				$ 2,121,904

Assets at Fair Value as of December 31, 2017

	Level 1	*Level 2*	*Level 3*	*Total*
Assets in the fair value hierarchy:				
Mutual funds	$ 693,632	$ -	$ -	$ 693,632
Investments measured at net asset value [(a)]				1,562,667
Investments at fair value				$ 2,256,299

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017, respectively.

2018	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 1,511,427	N/A	Daily [(b)]	None

2017	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 1,562,667	N/A	Daily [(b)]	None

[(b)] Although participants generally may transact on a daily basis, participants are subject to one transfer per thirty day period.

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

The custodians are parties-in-interest with respect to the Plan. All investments were held with the custodians. Notes receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

NOTE F - INCOME TAX STATUS

The Company adopted a volume submitter plan, which received a favorable opinion letter from the IRS on March 31, 2014, which stated that the volume submitter plan, as then designed, was in compliance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter, however, the Plan administrator and the Plan's advisors believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Administration errors, if any, that are insignificant or operational in nature, are handled by the Plan administrator in accordance with applicable IRS correction policies. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2015.

NOTE G - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds an investment that meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus credited interest, less participant withdrawals, and administrative expenses. The following represents the traditional investment contract held by the Plan:

	December 31, 2018	December 31, 2017
Traditional investment contract	$ 4,008	$ 3,985

The traditional investment contract is a benefit-responsive group insurance contract issued by Principal Life Insurance Company. The Principal Fixed Income Guaranteed Option ("PFIGO") is a general-account backed single group annuity contract with a fixed rate interest. It is not a portfolio of contracts whose yields are based on changes in fair value. The average yield earned by the Plan is the yield earned on the group annuity contract. The guaranteed minimum interest rate for the fund was .5%.

Participants may transact at the contract value unless the participant transfers its balance to a competing investment option, in which case the transfer is subject to a 90 day holding period. In the event that the Plan Sponsor terminates the contract with PFIGO, the contract amount would be subject to a surrender charge of 5%, unless the Plan Sponsor notifies PFIGO more than 12 months in advance of termination. The issuer may terminate the contract only when no balances remain under the contract.

Plan management is not aware of any events that are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.
