Notes to the Financial Statements

1. Plan Description:

The following description of the Ohio Education Association (the Employer) Employees 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Eligibility

All active employees are eligible to participate in the Plan.

The Plan is funded by participant contributions, Employer matching contributions, additional Employer contributions, and may also include discretionary employer qualified non-elective contributions (QNEC). Participants may contribute up to 100% of their eligible compensation, as defined by the Plan and subject to Internal Revenue Service (IRS) limitations. Additionally, participants may make Roth contributions.

Employer matching contribution rates vary by employee type. Associate staff received a matching contribution of 100% of the first 3% of eligible compensation deferred during the years ended December 31, 2018 and 2017. Professional staff received a match of 100% of the first 3.5% of eligible compensation during the years ended December 31, 2018 and 2017. Management and officers receive a discretionary match determined annually by the plan administrator. Management and officers received a match of 100% of the first 3.5% of eligible compensation during the years ended December 31, 2018 and 2017.

The Plan provides for additional Employer contributions for Professional and Associate staff. Additional Employer contribution rates vary by employee type and hire date.

Associate staff hired after April 17, 1993 and Professional staff hired on or after September 1, 2000 are eligible for additional Employer contributions upon their hire date. Effective September 1, 2013, Professional staff hired prior to September 1, 2000 who had obtained either age 62 or completed 32 years of service became eligible for additional Employer contributions if they were still actively employed.

All other Professional staff hired prior to September 1, 2000 are eligible for additional Employer contributions on the first of the month following the earlier of obtaining either age 62 or completing 32 years of service and being actively employed.

The additional Employer contribution rate was 16.5% of eligible compensation for all eligible Associate staff for the years ended December 31, 2018 and 2017. The additional Employer contribution rate was 19% of eligible compensation for all eligible Professional staff for the years ended December 31, 2018 and 2017.

Roth contributions are not eligible for Employer matching contributions. Catch-up contributions are allowed by the Plan. Participants may also contribute rollover contributions representing distributions from other qualified plans. Contributions are participant-directed and are funded bi-weekly.

Participant accounts

Individual account balances are maintained for each participant. Participant accounts are held by John Hancock Trust Company LLC. Participant account balances are adjusted daily for income and both realized and unrealized gains and losses. Allocations are based on participant earnings or account balances, as defined.

Vesting

Participant contributions, rollover contributions, QNEC contributions, and the related earnings are 100% vested. A participant's interest in Employer contributions become fully vested upon attaining normal retirement age, termination, death, disability or after one year of service as defined by the Plan.

Payments of benefits

Upon severance or disability after attaining normal retirement age or termination of a participant's employment for any reason, participants may elect to commence payment of their account within the provisions of the Plan. Distributions may be made in a lump sum or rolled over into another qualified plan.

Participant notes receivable

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their vested account balance (excluding any portion derived from any additional Employer contributions prior to May 2016), whichever is less. The notes are secured by the balance in the participant's account and bear interest at rates commensurate with the local prevailing rates as determined by the plan administrator. Loan principal and interest is paid by participants through biweekly payroll deductions.

Forfeitures

Forfeitures will be used to pay Plan expenses and then to reduce future Employer contributions for the year in which the forfeiture occurs.

Administrative expenses

Administrative and legal fees of the Plan are paid by either the Employer or by amounts deposited to the Plan by the service provider pursuant to the agreement between the Employer and the service provider and known as the "Service Credit". Brokerage commissions, transfer taxes, other charges and expenses in connection with the purchase and sale of securities and fees related to investments subject to participant direction are paid by the Plan. Investment-related expenses are deducted from income earned on a daily basis and are not separately reflected.

Consequently, investment management fees and operating expenses are reflected as a reduction of investment income for such investments.

2. Summary of Significant Accounting Policies:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting and use of estimates

The financial statements are prepared on the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and the amounts reported in the financial statements.

Participant notes receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based on the terms of the plan agreement.

Payment of benefits

Benefits are expensed when paid.

Plan termination

Although the Employer has not indicated any intent to do so, it has the right to terminate the Plan at any time subject to the provisions set forth in the Employee Retirement Income Security Act of 1974. In the event of termination, all amounts credited to participant accounts will become fully vested.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through August 21, 2019, the date on which the financial statements were available to be issued.

3. Information Certified by the Trustee:

The following information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2018 and 2017 was obtained from data that has been prepared and certified to as complete and accurate by John Hancock Trust Company LLC, the trustee of the Plan, and furnished to the Plan administrator.

Investments

Net appreciation (depreciation) in fair value of investments

Interest and dividends

Assets held at end of year

4. Income Tax Status:

The Plan obtained its latest determination letter dated July 6, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. Forfeited Accounts:

Contributions are forfeited upon termination or a forfeiture break in service, as defined by the Plan. Forfeitures may be used to pay Plan expenses and to reduce future Employer contributions for the year in which the forfeiture occurs. Forfeited, non-vested account balances were \$1,114 and \$35 for the years ended December 31, 2018 and 2017, respectively. There were no forfeitures used during the years ended December 31, 2018 and 2017.

6. Fair Value Measurements:

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under generally accepted accounting principles are described below:

- | | |
|---------|---|
| Level 1 | Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability; and• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurements level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methods used for assets measured at fair value:

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end, which is based on observable market quotations for identical assets and are priced on a daily basis at the close of business.

Collective investment trust: The collective investment trust is valued using the NAV provided by the fund trustee and is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no unfunded commitments related to the collective investment trust and units are redeemable at NAV on a daily basis.

Self-directed brokerage account: Valued based on fair value of underlying investments within the account as follows:

- Mutual funds: Valued at the NAV of shares held by the plan at year-end which is based on observable market quotations for identical assets and are priced on a daily basis at the close of business.
- Common stock: Fair value is the observable market quotation for identical assets and is priced on a daily basis in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:
