NOTE 1 – DESCRIPTION OF PLAN

The following description of Earthcare Management, Inc. 401(K) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution 401(k) plan available to qualifying employees of Earthcare Management, Inc., and affiliates (collectively the "Company", the "Employer" and or the "Plan Sponsor"). The Plan was created on January 1, 2018 and this its' first year of activity. Plan assets were held by American Funds (the "Trustee") for the plan year ended December 31, 2018. All employees who are at least 21 years of age other than non-resident aliens, those covered by a collective bargaining agreement and leased employees are eligible to participate in the Plan after one year from hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan allows participants to invest in a selection of mutual funds. Participants direct the investment of all contributions into various investment options offered by the Plan. All contributions are subject to certain limitations as defined by the Plan and the Internal Revenue Service (IRS).

Contributions

Each participant may elect to contribute before-tax contributions from 2% to 100% of their compensation, as defined in the Plan document. Before-tax contributions were limited to $18,500 for the year ended December 31, 2018, as set forth by the Internal Revenue Code ("IRC"). Participants may not make after-tax contributions to the Plan. Under the IRC, participants who are at least 50 years old may also make additional "catch-up" contributions. Catch-up contributions were limited to $6,000 for the year ended December 31, 2018.

An employee will be credited with a year of eligibility service upon completion of at least 1,000 hours during 12 months from the date of hire, and for each subsequent year thereafter.

A participant becomes eligible to begin receiving Matching and Profit-Sharing Contributions following the date an employee attains age 21 and completes one year of eligibility service. There have been $105,132 Matching and Profit-Sharing Contributions made by the Employer to date.

Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions and the Company's matching and contributions, if any. Allocations are based on participant elective deferrals or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance, less any loans outstanding.

Vesting

Participants are fully vested in their own contributions to the Plan, plus any earnings thereon. Participants become vested in benefits provided by the Company contributions, plus earnings thereon, based on years of service in accordance with the following vesting schedule:

Years of Service	Vested %
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 5 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

Upon termination from employment by the Company, a participant's non-vested portion of Company contributions and earnings is considered forfeiture and is used to reduce future Company contributions to the Plan.

Administrative Expenses
Significant administrative expenses of the Plan, including audit and trustee fees, are paid by the Employer. Trustee's fees are billed directly to the Company, with the Trustee reserving the right to charge the fees and expenses directly to the Trust fund if not paid promptly by the Company.

Processing fees for participant loans are charged to individual plan participants and deducted from individual plan participant balances as incurred. These expenses affect plan net assets and are reflected in the accompanying financial statements.

Payment of Benefits
Participants are eligible for distribution of their entire account balance upon death, disability, retirement or termination of employment. Participants may elect to receive their distribution as either a lump-sum payment or as installments in certain circumstances, as defined in the Plan. Participants may also elect to transfer their account balance into an individual retirement account or another qualified plan.

Participants who have attained the age of 59½ have the right to receive a partial or full distribution of their account balance. Other types of withdrawals are also permitted, as defined in the Plan.

Plan termination
Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Upon termination of the Plan or complete discontinuance of contributions thereunder, each participant's account will become fully vested and non-forfeitable, and upon partial termination of the Plan, the account of each participant affected by the partial termination will become fully vested and non-forfeitable.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The Plan is accounted for on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts (mutual fund investments) because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates
The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make certain estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits
Benefits are recorded when paid.

Administrative Expenses
Except for certain custodial fees related to the Plans' investments, all administrative expenses of maintaining the Plan are paid by the Company.

Subsequent Events
The Plan has evaluated subsequent events through July 31, 2019, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASURMENTS

The Plan Sponsor uses a three-level fair value hierarchy that categorizes investments measured at fair value based on the observability of the inputs utilized in the valuation. These levels include: Level 1, inputs are quoted prices in active markets for identical investments; Level 2, inputs are other than

quoted prices included in Level 1 that are directly or indirectly observable through market-corroborated inputs;

and Level 3, inputs are unobservable, or observable but cannot be market-corroborated, requiring the Plan Sponsor to make assumptions about pricing by market participants.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan Sponsor evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no transfers in or out of Levels 1, 2, or 3. Further, there were no Level 3 investments in the Plan as of or for the year ended December 31, 2018.

A financial instrument's level within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Following is a description of the valuation techniques and inputs used for investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy.

Mutual Funds

Plan investments include a wide variety of mutual fund types that can generally be classified as holding primarily equity securities, fixed income securities, or a combination of equity and fixed income securities aimed at certain target retirement dates. Shares of mutual funds, which are traded on a national securities exchange in active markets, are valued using daily publicly quoted net asset value (NAV) prices and accordingly classified within Level 1 of the valuation hierarchy. Mutual funds are not subject to liquidity redemption restrictions.

The Plan Sponsor uses a three-level fair value hierarchy that categorizes investments measured at fair value based on the observability of the inputs utilized in the valuation. These levels include: Level 1, inputs are quoted prices in active markets for identical investments; Level 2, inputs are other than quoted prices included in Level 1 that are directly or indirectly observable through market-corroborated inputs; and Level 3, inputs are unobservable, or observable but cannot be market-corroborated, requiring the Plan Sponsor to make assumptions about pricing by market participants.

A financial instrument's level within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Following is a description of the valuation techniques and inputs used for investments

- The fair value of participant directed mutual funds are based upon quoted market prices and all investments are in mutual funds traded on national exchanges.

- The fair value of notes receivable from participants are based upon the present value of future cash flow discounted at market interest rates.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2018:

Investment	Level 1	Level 2	Total
December 31, 2018			
Participant directed mutual funds	$ 210,607	$ -	$ 210,607
Notes receivable from participants	-	-	-
Balance December 31, 2018	$ 210,607	$ -	$ 210,607

NOTE 4 – INVESTMENTS

The Plan's investments as of December 31, 2018, are presented in the following tables:

Description	2018
Participant directed mutual funds	
Cost	$ 225,598
Fair Value	$ 210,607

The Plan's net investment income for the year ended December 31, 2018, consisted of the following:

Description	2018
Additions	
Net depreciation in fair value of investments	$ (22,400)
Dividends	9,448
Net Investment loss	$ (12,952)

NOTE 8 – TAX STATUS

The Company relies on the IRS opinion letter, dated April 2, 2012, for the prototype plan and trust under which it operates that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan had taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there were no uncertain positions taken or that would require recognition of a liability or disclosure in the financial statements.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2018 to the Form 5500:

Description	Amount
Net assets available for benefits per the financial statements	$ 210,307
Payables	300
Net assets per Form 5500	$ 210,607

The difference between the net assets on the 2018 audit report and the Form 5500 beginning balance results from a write off of a payable on the Form 5500. The amount approximated $300.

NOTE 11 – SUBSEQUENT EVENTS

As of July 31, 2019, about 28 employees still have balances in the plan with total ending balance of plan Net Assets of $210,307.
