GRAHAM ENTERPRISE 401(k) PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Graham Enterprise 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan with salary reduction contributions covering all full-time employees of Graham Enterprise, Inc. (the "Company", "Employer" and "Plan Administrator"). Employees become eligible to participate in the plan upon reaching 21 years of age and completion of one year of service or 1,000 hours of service during the year.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions. Contributions to the Plan include (i) salary reduction contributions authorized by participants, (ii) Employer Safe-Harbor Matching contributions, (iii) Employer discretionary contributions, and (iv) rollovers from new participants from another qualified plan.

Each participant may authorize the Employer to contribute into the Plan on a pre-tax basis a portion of their salary. The contribution is subject to the maximum amounts established by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Participants electing to make a salary reduction contribution are eligible to share in the Employer safe-harbor matching contribution which is a match equal to 100% of the first 3% of contributions and 50% of the next 2% of contributions.

Employer discretionary contributions are credited to participants who have 1,000 hours of service or more.

Participant Accounts. One or more accounts may be established under the Plan with respect to each participant for the purpose of accounting for the portion of the total trust fund held for that participant's benefit. Separate accounts are maintained for (i) salary reduction contributions, (ii) Employer safe-harbor matching contributions, (iii) Employer discretionary contributions, and (iv) rollover contributions. Each participant's account is credited with an allocation of (i) the various contributions, (ii) Plan earnings, and (iii) forfeitures that are allocated based on compensation integrated with the social security taxable wage base amount, as defined. Earnings allocations are based on a participant's balance as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

A participant does not have the right to direct the Plan Trustees in the investment of a participant's interest in the Plan.

Vesting. Participants are immediately vested (100%) in their (i) salary reduction contributions, (ii) Employer safe harbor contributions, and (iii) rollover contributions plus actual earnings thereon.

Vesting in the Employer discretionary contribution portion of their accounts plus earnings thereon is based on a participant having at least 1,000 hours of service during the Plan year. A participant vests 20% with two years of service and is 100% vested after six years of credited service. A participant becomes fully vested in the portion attributable to the Employer discretionary contribution if employment is terminated because of death, permanent disability, or normal retirement.

Participant Loans. Effective February 1, 2018 participants may borrow from their accounts up to a maximum equal to 50% of their vested account balance or $50,000, whichever is less. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at the prime interest rate plus one percent. Principal and interest is paid ratably through payroll deductions.

NOTE 1 – DESCRIPTION OF PLAN (Concluded)

Forfeitures. A terminated participant's nonvested account balance is forfeited the earlier of the date the participant incurs their fifth consecutive one-year break in service or upon the date the participant is distributed their vested interest in the Plan. Forfeitures are first used to restore any prior account balances pursuant to Section 5.4(b) of the Plan. Forfeited excess aggregate contributions arising in a Plan year are then reallocated to non-highly compensated participants as additional employer contributions. At December 31, 2018, there were $14,771 of forfeited nonvested amounts available.

Party-in-Interest Transactions. Various administrative, legal and accounting services are performed by Employer personnel on behalf of the Plan for which no charges are made to the Plan. The Employer's management has no plans to obtain reimbursement of these expenses from the Plan.

Payments of Benefits. Benefits representing the vested portion of a participant's balance are payable upon retirement, permanent disability, or death. Benefits representing the vested portion of a participant's accounts whose employment has terminated are payable on any reasonable practical date following termination.

Distributions may be made as an eligible rollover to an IRA, an eligible rollover to another plan, a lump sum payment or substantially equal installments, paid at least annually over the participant's life expectancy.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual method of accounting.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates. Future events and their effects cannot be predicted with certainty; accordingly, accounting estimates require the exercise of judgment. Accounting estimates used in the preparation of these financial statements change as new events occur, as more experience is acquired, as additional information is obtained, and as the operating environment changes.

Cash and Cash Equivalents. The Plan considers all liquid investments with original maturities of three months or less to be cash equivalents.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits. Benefits are recorded when paid.

Operating Expenses. All indirect expenses of maintaining the Plan are paid by the Company.

Concentration of Credit Risk. Substantially all of the Plan's investments are held by Matrix Trust Company (the "Custodian").

NOTE 3 – INFORMATION CERTIFIED BY THE CUSTODIAN OF THE PLAN ASSETS

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by the Custodian, and furnished to the plan administrator. The plan administrator has obtained certifications from the Custodian that such information is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2018.
- Net depreciation in fair value of investments and interest income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- Note 4: All investment balances.
- The schedule of assets held for investment purposes at end of year as of December 31, 2018, as shown on Form 5500, Schedule H, Part IV, Line 4i.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Cash and Cash Equivalents. The carrying value of financial instruments such as interest-bearing cash and cash equivalents approximates the fair values, based on the short-term nature of these instruments.

Common and Preferred Stocks. Valued at the closing price reported on the active market on which the individual securities are traded.

NOTE 4 – FAIR VALUE MEASUREMENTS (Concluded)

Corporate Bonds. Valued using pricing models maximizing the use of observable inputs for similar securities.

Mutual Funds and Money Market Funds. Valued at the net asset value of shares held by the Plan at year end, based on quoted market prices.

Stable Value Fund. The stable value fund is composed primarily of fully benefit-responsive investment contracts and is valued at the net asset value of units of the investment contracts ("NAV"). The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017.

	Assets at Fair Value as of December 31, 2018

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 – TAX STATUS

The Company has adopted a Correll Co. (the "Recordkeeper") Non-standardized Profit Sharing Prototype Plan with Section 401(k) provisions. The Recordkeeper received an opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Code. This opinion letter was obtained in conjunction with the IRS restatement cycle requirements. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

NOTE 8 – SUBSEQUENT EVENTS

Management has evaluated all known subsequent events from December 31, 2018 through September 4, 2019, the date the accompanying financial statements were available to be issued, and is not aware of any material subsequent events occurring during this period.
