Contributions
Participants may elect to contribute pre-tax deferral contributions, subject to the limitations of the Internal Revenue Code ("IRC").

The Company is required to make safe harbor matching contributions equal to 100% of the participant's deferral contributions up to 3% of their compensation and 50% of the participant's deferral contributions that exceed 3% of their compensation not to exceed 5%. The Company may also make a discretionary profit sharing contribution to participants of the Plan in accordance with the provisions contained in the plan document. There were no profit sharing contributions made for the 2018 plan year.

Vesting
Participants are immediately vested in their own contributions and safe harbor matching contributions. For discretionary profit sharing contributions, participants vest 20% after two years of service and an additional 20% each subsequent year until fully vested after completing six years of service.

Forfeitures
The portion of a participant's balance, which is not vested upon termination of employment, is forfeited and remains in the Plan. Forfeiture balances of terminated participants' nonvested accounts can be used to pay allowable administrative expenses or applied to reduce the Employer contributions for the plan year and, if applicable, any remaining amount shall be applied toward succeeding plan years until fully utilized. There was $1,658 and $2,165 of forfeitures available as of December 31, 2018 and 2017, respectively.

Payment of Benefits
Participants' vested interest in the Plan's assets are distributable generally upon termination, disability, retirement or death. In addition, participants may request withdrawals pursuant to specific guidelines as set forth in the plan document.

Notes Receivable from Participants
Each participant is permitted to borrow 50% of his or her vested account balance up to a maximum of $50,000. The term of a loan may not exceed five years, unless it is used to purchase a primary residence. Loans are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Principal and interest are paid ratably through payroll deductions and monitored by the plan administrator. The loans are collateralized by the balance in the participant's account and bear interest at a rate of prime plus 2%. Interest rates at December 31, 2018 ranged from 5.25% to 7.25%.

Administrative Expenses
All transaction fees for loans and distribution requests and recordkeeping fees are paid from participants' accounts. A portion of all other administrative expenses are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
The Plan has evaluated subsequent events through September 24, 2019, the date the financial statements were available for issuance. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

3. Information Certified by the Plan's Custodians

The following is a summary of the investment information and notes receivable from participants regarding the Plan as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included in the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by State Street Bank and Trust Company and Reliance Trust Company, the custodians of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodians that such information is complete and accurate.

Information relating to investments and notes receivable from participants certified by the custodians at December 31, is as follows:

	2018	2017
Mutual funds	$ 2,093,671	$ 2,367,683
Notes receivable from participants	179,555	170,472
	$ 2,273,226	$ 2,538,155

The following was also certified by the custodians for the year ended December 31, 2018:

Net depreciation in fair value of investments	$ (313,672)
Dividend Income	$ 186,819
Interest income on notes receivable from participants	$ 9,511

4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the assets or liabilities; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during 2018.

- Mutual funds : Shares held by the Plan at year-end are valued at quoted prices in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2018 are as follows:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 2,093,671	$ -	$ -	$ 2,093,671

Investments at fair value as of December 31, 2017 are as follows:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 2,367,683	$ -	$ -	$ 2,367,683

5. Risks and Uncertainties

The Plan's investments are concentrated in mutual funds that invest in various investment securities. Such securities are subject to various risks, such as interest rate, market and credit risks that determine the value of the funds. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

6. Related-Party Transactions

Massachusetts Mutual Life Insurance ("Mass Mutual"), is the recordkeeper for the Plan, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Mass Mutual by the Plan for administrative services totaled $13,489 for the year ended December 31, 2018.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to amend, alter or terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, all participants' account balances shall be 100% vested.

8. Tax Status

On March 31, 2014, the Internal Revenue Service ("IRS") stated that the volume submitter plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2015.

9. Concentrations

The Plan had four investments that accounted for approximately 52% of total investments at December 31, 2018. The Plan had three investments that accounted for approximately 50% of total investments at December 31, 2017.
