1. DESCRIPTION OF PLAN:

The following description of The David J. Joseph Company Joseph Group Hourly Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on April 1, 1999 covering eligible employees of The David J. Joseph Company and its affiliates (the "Company") who have adopted the Plan. To be eligible to participate in the Plan, an individual must be an hourly employee of the Company who has completed at least 61 days of service and has attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended (the "Code").

Contributions

Participants may elect to contribute to the Plan, on a pre-tax basis or after-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). The Plan allows for automatic enrollment of eligible employees at a 6% deferral rate unless they affirmatively elect not to participate in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Plan includes a matching provision for all participants which provides for a 100% match of employee contributions on the first 1% of the total eligible compensation, and a 50% match of employee contributions on the next 5% of the total eligible compensation, subject to the Internal Revenue Service (the "IRS") limitations. Under the non-contributory component of the Plan, the Company makes discretionary contributions to the accounts of eligible employees based on the participant's years of service and base pay.

Participant accounts

A participant's account (or sub-account) is credited with the contributions made to the Plan on behalf of the participant and adjusted for earnings and losses thereon. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting/forfeitures

Participants are immediately 100% vested in their 401(k) contributions, catch-up contributions and rollover contributions, as adjusted for earnings and losses thereon. Participants vest in Company contributions based on years of continuous service. A participant is 100% vested after five years of credited service. Forfeited accounts totaled \$87,136 and \$63,021 at December 31, 2018 and 2017, respectively. Forfeited Company contributions are used by the Company to offset future contributions to the Plan. In 2018, \$111,021 was used to reduce Company contributions.

Benefits

Distributions may generally be made to a participant upon the participant's retirement (including early retirement), death, disability, or termination of employment with the Company. Additionally, prior to termination from employment, participants may withdraw all or a portion of their vested account balance upon attaining age 59 ½, or incurring financial hardship (if certain requirements are satisfied). Benefits shall be paid to participants in the form of lump sum or installment payments upon termination of employment.

Death benefits

A participant's vested account balance remaining in the Plan will be paid to the participant's beneficiary.

Notes receivable from participants

Participants may generally borrow a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance in the Plan. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared under the accrual method of accounting.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

The majority of expenses of the Plan are paid by the Company except certain nominal fees paid out of participants' accounts for various transactions. Investment related expenses are included in net depreciation in fair value of investments.

Payment of benefits

Benefits are recorded as paid.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through September 11, 2019, the date the financial statements were available to be issued.

3. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. INVESTMENTS:

The Plan provides for participant-directed investment programs for investments. Investments of employee contributions and employer contributions can be made into various funds in accordance with each participant's election.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels are described as follows:

Level 1: Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments at fair value, by level, at December 31, 2018 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Assets at NAV</u>	<u>Total</u>
Money Market	\$ 4,450,810	-	-	-	4,450,810

Total investments at fair value	\$ <u>30,733,214</u>	<u>-</u>	<u>-</u>	<u>2,495,757</u>	<u>33,228,971</u>

The Plan's investments at fair value, by level, at December 31, 2017 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Assets at NAV</u>	<u>Total</u>
Money Market	\$ 4,033,224	-	-	-	4,033,224

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments measured at fair value based on net asset value ("NAV") per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>December 31, 2018</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Common/collective trusts	\$ 2,495,757	N/A	Daily	None
<u>December 31, 2017</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Common/collective trust	\$ 32,966	N/A	Daily	None

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the funds will sell the investments for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisors reserve the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation

methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, the schedule of assets (held at end of year) as of December 31, 2018, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Certain Plan investments are shares of investment funds managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Certain Plan expenses were paid by the Company. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

8. INCOME TAX STATUS:

The Plan obtained its latest determination letter on September 8, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

9. PLAN TERMINATION:

Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100% vested in their accounts, to the extent they are not already vested.

10. RECONCILIATION TO FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017 to Schedule H of Form 5500:

	<u>2018</u>	<u>2017</u>

1. DESCRIPTION OF PLAN:

The following description of The David J. Joseph Company Joseph Group Hourly Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on April 1, 1999 covering eligible employees of The David J. Joseph Company and its affiliates (the "Company") who have adopted the Plan. To be eligible to participate in the Plan, an individual must be an hourly employee of the Company who has completed at least 61 days of service and has attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended (the "Code").

Contributions

Participants may elect to contribute to the Plan, on a pre-tax basis or after-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). The Plan allows for automatic enrollment of eligible employees at a 6% deferral rate unless they affirmatively elect not to participate in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Plan includes a matching provision for all participants which provides for a 100% match of employee contributions on the first 1% of the total eligible compensation, and a 50% match of employee contributions on the next 5% of the total eligible compensation, subject to the Internal Revenue Service (the "IRS") limitations. Under the non-contributory component of the Plan, the Company makes discretionary contributions to the accounts of eligible employees based on the participant's years of service and base pay.

Participant accounts

A participant's account (or sub-account) is credited with the contributions made to the Plan on behalf of the participant and adjusted for earnings and losses thereon. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting/forfeitures

Participants are immediately 100% vested in their 401(k) contributions, catch-up contributions and rollover contributions, as adjusted for earnings and losses thereon. Participants vest in Company contributions based on years of continuous service. A participant is 100% vested after five years of credited service. Forfeited accounts totaled \$87,136 and \$63,021 at December 31, 2018 and 2017, respectively. Forfeited Company contributions are used by the Company to offset future contributions to the Plan. In 2018, \$111,021 was used to reduce Company contributions.

Benefits

Distributions may generally be made to a participant upon the participant's retirement (including early retirement), death, disability, or termination of employment with the Company. Additionally, prior to termination from employment, participants may withdraw all or a portion of their vested account balance upon attaining age 59 ½, or incurring financial hardship (if certain requirements are satisfied). Benefits shall be paid to participants in the form of lump sum or installment payments upon termination of employment.

Death benefits

A participant's vested account balance remaining in the Plan will be paid to the participant's beneficiary.

Notes receivable from participants

Participants may generally borrow a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance in the Plan. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared under the accrual method of accounting.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

The majority of expenses of the Plan are paid by the Company except certain nominal fees paid out of participants' accounts for various transactions. Investment related expenses are included in net depreciation in fair value of investments.

Payment of benefits

Benefits are recorded as paid.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through September 11, 2019, the date the financial statements were available to be issued.

3. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. INVESTMENTS:

The Plan provides for participant-directed investment programs for investments. Investments of employee contributions and employer contributions can be made into various funds in accordance with each participant's election.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels are described as follows:

Level 1: Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments at fair value, by level, at December 31, 2018 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Assets at NAV</u>	<u>Total</u>
Money Market	\$ 4,450,810	-	-	-	4,450,810

Total investments at fair value	\$ <u>30,733,214</u>	<u>-</u>	<u>-</u>	<u>2,495,757</u>	<u>33,228,971</u>

The Plan's investments at fair value, by level, at December 31, 2017 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Assets at NAV</u>	<u>Total</u>
Money Market	\$ 4,033,224	-	-	-	4,033,224

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments measured at fair value based on net asset value ("NAV") per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>December 31, 2018</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Common/collective trusts	\$ 2,495,757	N/A	Daily	None

<u>December 31, 2017</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Common/collective trust	\$ 32,966	N/A	Daily	None

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the funds will sell the investments for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment advisors reserve the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation

methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, the schedule of assets (held at end of year) as of December 31, 2018, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Certain Plan investments are shares of investment funds managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Certain Plan expenses were paid by the Company. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

8. INCOME TAX STATUS:

The Plan obtained its latest determination letter on September 8, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

9. PLAN TERMINATION:

Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100% vested in their accounts, to the extent they are not already vested.
